Geniuses keep proving quite wrong what establishments and cultures are absolutely sure is true. We take two to hundreds of generations to adopt any new info conflicting with establishments mind set in any culture. I started Serendipity Association to address 35 cultural errors, omissions, and fantasies Geniuses identify in human cultures. Sociology Cultural Psychology proved Cultural Conditioning is hypnotic in character. Establishments, given new info that conflicts with their mind set, hide, discard, distort, falsify the new to them data to buttress their position. Part of the Vested Interests Syndrome. There are 428 books by

historians on psychological discount habits, Establishments shoot Innovators, Whistle Blowers, today as in the past. It proves increasingly costly each year to fail learning the lessons of history, herstory, sociology, and science. ►►► Science Keeps Proving Wrong What We Absolutely Know Is So!!!

► Geniuses report fourteen errors in formal education, eight in informal education. Our grads created most or all of the problems in our culture, and many in the world. We work on symptoms while ignoring actual basic causes of problems, and that they are all interrelated parts of a system. We expect to use the impact on leaders of falsified info in health and safety to fix all 22 errors in education. This will enable

► Talks, workshops, and programs cover an overview of cultural errors, omissions, and fantasies, why they continue in the face of massive evidence to the contrary, and the tremendous costs in ecological damage affecting human survival, lives, and wealth. We ignore eight urgent emergencies affecting people and human survival. ► Weather change studies prove that the planet can support less than 1.5

creating sane cultures for the first time.

►► Physics and other sciences proved we are a Completely Integrated Holographic SubSystem of a MultiDimensional Holographic Universe. Planet and People are Holograms.. This offers solutions and opportunities for research that the false mechanistic world view misses. Reality is far different than we assume it is. Our many false assumptions are destroying our future far more each year. A fully sane race would prevent problems, correct all basic causes of problems as interrelated systems, and cease causing problems. Stop ignoring sociology, history, science, prevention, and Geniuses solutions to Earth's and Human's problems.

reduce R & D costs about 5% and improve the output by increasing intuitive awareness of errors, best action, and danger. This works because we are an integrated part of our

Holographic SubSystem. Physics explains spatial relationship abilities, safety, and security proposals. Holographic Physics opens many new R & D possibilities, 103+, for products and problem solving. The forefront of science info will attract far more students to study all areas of science. This will solve our extreme lack of scientists. We need to reeducate all grads in the forefront of science and knowledge to enable bringing all of science and sociology to bear on all of our many interrelated problems.

be able to create sane societies. We still need to considerably rebuild ecologies to support humans, animals, fish, and plants on all continents.

I'm Doug .C. Hemstreet, born 1-26-27, grew up in Shelby Michigan until 7, then Traverse City Mich and my Grandmother's 400 acre apple and cherry farm near Bellaire. Michigan. Dad, Carl Hemstreet, was the first county agent in the USA to become a Ten County Horticulture Specialist. Education was one year teachers college at Central Michigan, then Michigan State, agriculture and many odds and ends. After 3 ½ years, I shifted to Valparaiso Technical Institute for electronics

Added a PhD in Metaphysics. Studied most sciences, sociology, history, and cultural errors.

Worked for a firm doing search, recruiting and placement of science and engineering personnel in Chicago, 1957, then started Hemstreet Consultants in 1959. ►I'm a member of Mensa, reading since three. Our 14,000 population town's librarian bought every nonfiction book I suggested from age nine on. I've studied widely in most fields. I had 4,200

books in my non fiction library, 1500 since moving.►Hemstreet Consultants did science and engineering personnel search, recruiting, and placement. I developed expertise in using my science knowledge to locate exceptionally talented people. I studied most areas of science, sociology, history, got into some interesting physics classes U of Chicago. In 1978 I got into the first of four accidents giving me much time to study even more widely. I Learned and used Holistic Health modalities to heal myself. A man was a Quadriplegic fo 4 years, learned how to use Imagery in meditation. He completely healed his spine in 28 months.

I've studied Holistic Health since 1970, used the Applied Physics of Energy Healing to recover eyesight in my blind eye, learned that Bodies Are Part of the Mind, fixed a slipped disk on self in 15 days using Imagery. Science proved that thinking is done in the life energy field, Aura. The brain is a transponder, a

There are 639+ books by scientists, 86 by physicists, explaining the phenomena involved in devices, psychic events, and healing. DoD

and CIA spent 195 million thru 2002 on psychic research. Duke U did 5+ research projects. SRI SAIC did CIA’s distant viewing project.

► We are very far past the point of comfortable human survival. We can no longer rebuild the ancient ecological systems we urgently need for the future with no oil and far too many people.

How do we get leaders to help stop this mad rush to destroy humanity???
