Dear Educators, Department of Education, Associations, Board of Directors, All Committees, Officers, Media, & Governments,

➤ What If Our Geniuses Are Right??? Note that graduates created all of USA and humanities problems. Someone from “Out There” didn’t come here and cause them. Greed, power, & gullibility.

The Internalization of Stress and Cultural health, and safety. These are major factors in Conditioning Proven to Be Hypnotic in violence, rape, crime, disruptive behavior, Character both interfere with teaching, learning, learning, and accidents. Why ignore ten+ ways

to get kids and adults free of stress internalization and able to stay free of stress internalization? Imagery NeuroLinguistic Programming permanently eliminates Stress Internalization in three to ten hours, One Day. Most Amateurs can use concepts in books and get each other free of stress without the experts. Correcting all twenty two errors, omissions, and fantasies in formal and informal education will enable people to make decisions based on accurate information for the first time in history.

- ▶ People make choices and make decisions on the basis of emotional beliefs, creating logical reasons for their actions afterwards. ▶ Why ignore all of the actual basic causes of problems for teachers, students, humanity, ecological systems, and Earth? Causes are completely interrelated as a complex system. ▶▶ Physics and systems research applies to all we deal with: technology, people, animals, ecologies, Earth.
- ▶ All boards dealing with education and

political committees must be required to pass Mensa exams proving intelligence, and exams on the forefront of science, knowledge, systems, and what has been proven effective and ineffective in education for kids and adults in all societies. Today’s events and disasters prove that we completely flunked education. Results oriented evaluation of all cultures prove this.

Educators, Schools, Teachers, Media, articles, TV, Books, advertisers, and others promoting non foods, white flour, white rice, sugar, etc all act against good health for babies, kids, adults and cultures. This causes about 16% of birth defects, very costly to taxpayers. Malnutrition results in illness and early death for many. Can these all be charged with aiding and abetting manslaughter???

- ▶▶ Cost benefit analysis and cause effect results are extremely damaging and costly to ignore. Humans increase the rate of Earth’s destruction.

- ▶ Whistle Blowing! What If Our Geniuses Are Right? Summaries ▶ www.serendipityassn.org

An honest Evaluation of these summaries of geniuses research requires studying key articles.

Evidence this Time, this info will enable applying all of the lessons of science, history, cultural and social psychology to prevent and solve problems. Our governments act illegally against children, women, men, ecology, and science throughout history. Today this has

► Help stop government, DoD, HHS, educators, media, and AARP’s ongoing Civil Rights and Human Rights violations in Health and Safety +. We still promote malnutrition, ignoring 37+ studies of Natural Healing System Vegetarian Diet Prevention, increasing stamina, reducing illness 76% to 83%. Whole grains are very important with 26 nutrients missing from white flour and 19 from white rice involved in causing many health problems. Tax all anti nutrition “food” products to cover health care costs

Earth’s oil is gone by 2100, LPG by 2140. All fossil fuels will be gone by 2300.

million if we do everything right. This is the most urgent emergency of the eight major disasters facing humanity. Plan ahead??? Or starve six billion by 2140. Predictions are that One+ Billion will starve by 2100. How can all cultures act to reduce Earth’s population 93% well before 2100??? Will humanity reduce populations rapidly or starve six billion+???

Anti abortion anti birth control anti population control killed half of the 19 million starved since 1893, and will kill billions in the future. We live on a very small Island Earth. Why address symptoms and ignore all of the actual causes? ►Anti Abortion Anti Population Control Anti Birth Control Is Genocide of Billions. We still lack sure birth control methods. Birth control is unavailable to most

This is a serious proposal to examine and use all of the forefront of science & knowledge in all fields. ►Examine how the Vested Interest Syndrome creates cultures lacking intellectual curiosity, quite unable to examine evidence and check references in order to learn that new to them info is valid. Why ignore prevention???

Management and staffs lack the education to note that our MD system is unscientifically based on a special case viewpoint of reality, the very false assumption that reality is mechanistic, and that nutrition and herbs aren't valid. They ignore that reality is a Holographic SubSystem of a MultiDimensional Holographic Universe SubSystem. People described scientifically are a Holographic Mind Body Energy Field Spirit SubSystem. Systems Research proved that if you work with part of a

system, you will get Unforeseeable Results.

Using all of our geniuses info at the forefront of science and knowledge will improve education systems effectiveness and reduce costs considerably. Budget solutions are inherent in our geniuses discoveries in many fields. Our geniuses discoveries are ignored for two to hundreds of generations when they conflict with any establishment world view or mind set. 'Not Invented Here' habits suppress any research proof of error.

►Our best media still report establishment info AS IF it must be true, long after research has proven it incomplete, distorted, or false.

►Examine the value of promoting major Whistle Blower and Protection programs. Ask "Who disagrees with status quo concepts? Why do they disagree?" Study the evidence.

►Reporting establishments proven false info as if it is true is far more damaging than making up stories from scratch. Geniuses identify 35 cultural errors, omissions, and fantasies. ►Societies will be far more effective when we correct all of these errors, omissions, and false beliefs. It's far cheaper and more effective to use prevention on all problems. Work with all of the many interrelated causes of problems instead of symptoms. We can work on symptoms for Eons, and still have the same problems.

Human cultures proved they lack the broad education needed to identify and correct the 35 cultural errors, omissions, and fantasies geniuses study and report fourteen errors, omissions, and fantasies in formal education systems, eight in informal education, 24 errors, omissions, and fantasies in military, and 17 errors in management systems. School boards and school management need this forefront of science and knowledge data urgently. Education management, teachers, boards, and professors will be far more effective when they are required to pass exams on understanding the forefront of science, knowledge, and systems to qualify for the job. Require a Mensa IQ test for boards and management. ►Geniuses identify 35

cultural errors, omissions, fantasies. ►Cultural Conditioning is proven to be hypnotic in character. All education boards, management, and teacher's urgently need a complete reeducation on the forefront of science and knowledge, systems research, the lessons of history and herstory, the full implications of people and our world proven to be MultiDimensional Holographic Interrelated Completely Integrated Sub Systems, the 46 scientific discoveries discarding the mechanistic world view, an understanding of the Vested Interest Syndrome, the effects of only 4.6% of humans actually being able to consider new to them info that conflicts with what they "Absolutely Know Is So", why humans discount and ignore any new info that conflicts with their world view, and how to apply all of humanities' knowledge to produce well educated people free of stress and violence that are actually able to cooperate to solve or prevent the basic causes of problems instead of creating more of them each year. We ignore the lessons of history, even 428 books by historians on human establishments shooting down both innovators and whistle blowers, today as in the past. ►Almost all problems were created by people that went through education systems,

and did exactly what was needed to create the many problems that plague humanity. We must require all boards and management to pass an exam on what has been proven to work in education worldwide, and on the forefront of science. Boards in education must have a broad education, understand physics, systems, sociology, history, and be free of bias against new to them info. Holistic Health Drug Rehabilitation and Prevention programs will eliminate using tobacco, alcohol and hard drugs. This is scientific, feasible, and far cheaper than ignoring the actual causes of all addictions.

► This Works on food, sex, power, greed, violence, pharmaceuticals, alcohol, tobacco, hard drugs, and all other addictions.

Our graduates today continue to create most of our problems. Someone “Out There” didn’t step in and cause them. Grads work on

We add to our many errors when we fail to teach how concepts of reality and world view differ in various world cultures. Teachings from India, American Indians, and the Great Books Of The Eastern World would add tremendous value and perspective to all cultures.

We ignore physics proof that we and everything we work with is interrelated as a MultiDimensional Holographic Subsystem of a MultiDimensional Holographic System. Systems Research finds that when we work with part of a system we get unforeseeable results. Schools are failing to correct 22 errors, the actual basic causes of cheating, fraud, accidents, suicide, bullying, shootings, rape, crime, violence, despair, and the internalization of stress. BASIC CAUSES OF 9-11 GOOFS STILL IGNORED–CULTURAL BLIND SPOT RESEARCH

I offer you info and services to enable your using the forefront of science and knowledge to increase your effectiveness and reduce errors. Security and cultures are ignoring research in all fields. ►Workshops on the forefront of science and knowledge for all key people is mandatory to break humans inherent habit of discounting new to them info that conflicts with peoples Mind Set. Our establishments, even investigative groups, are still ignoring the key factors in 9-11, the Challenger-New Orleans Dike disasters, and all other failures to examine and use needed info.

psychologically discounting any new info that conflicts with expected patterns. This is aided by the bigotry against and suppression of geniuses and their info designed in to humans in almost all cultures.

►Only 4.6% of humans can even consider new to them info that conflicts with mind set.

►Cultural Conditioning is proven to be hypnotic in character. This is why advertising sells. Training in awareness of and how to override what Cultural Psychologists call the Vested Interest Syndrome is needed for all security, safety, military, pilots, ATC, drivers, bicyclists, parents, kids, and management.

Ignoring our geniuses findings, history, and the research on Cultural Blind Spots is arrogant, short sighted, very expensive, and extremely

Media, DOD, Homeland Security, FBI, CIA, governments, corporations, educators, safety, and health care personnel need the info on permanently eliminating the internalization of stress in three to ten hours with NeuroLinguistic Programming Imagery, and on studies of training that reduces accidents and errors 96% to 99.7%, increasing creativity and the rate of invention. This training increases the intuitive awareness of danger, error, best action, creativity and the rate of invention. Suppressing major scientific research is costly in lives and wealth. Why not be different and use all of science? We can heal in a few days almost all placed on disability leave because of stress, injury, and illness.

Injured, ill, and stressed security, military, police, agents and families can be healed quickly with Holistic Health Sciences, even head and spinal cord injuries, yet this info

Serious negligence in security training is still ignored. Understanding geniuses research needs all of this info and more. We sent data to

► Talk with those who disagree with establishments and learn why. Examine their evidence. It is often, not always, right. Talk with many experts in new to you fields. Examine the sciences involved.

► Power deregulation proves that we still fail to teach or learn the lessons of history and how they always apply in all human cultures and in planning for optimum results. ► Greed, arrogance, and the Good Old Boys Network and their effects have been well studied. Knowledge of the history of regulation would have prevented deregulation. This new Robber Baron overcharging, theft by deception, was very predictable, a repeat of greedy actions that caused firms to be regulated. We fail to offer rewards and protection of jobs and life to attract Whistle Blowers in power firms, government, education, corporations, nonprofits, and all other elements of our culture. We are still failing to address fraudulent misrepresentations and violations of the Deceptive Practices Act

► Check references very carefully on all info that conflicts with your belief system. The Good Old Boys Network is alive, well, and very damaging.

Laws. Business law requires Good Faith and Fair Dealing as an inherent element. The regulations needed to prevent Robber Baron methods are ignored. Regulations and law can protect ecological systems, food supplies, citizens, safety, health, business, governments, budgets, and long term human and ecological survival. Regulations are very beneficial to people, ecology, and to business in the long run. They created safer working places, reduced hours and fraud, protected jobs, and cleaned up air, water, and food supplies. Greed is costly and injurious.

► We ignore the lessons of history and herstory in many fields. “We’ve always done it this way” is increasingly expensive in lives and money.

We ignore 212+ books on the AMA HHS MD 1838 to present war against Alternative Medicine, reporting on the use of Fascist methods to suppress science in health, healing, prevention, safety, and education. This war damages people and budgets. HHS and MD's fail to use the Eleven Elements of the New Scientific Method, and four key Design of Experiment Tools often needed to be scientific MD's still suppress Herbal Medicine, Vegetarian Diet Healing and Prevention, the role of the mind in health and illness, NLP stress elimination, failing to use training needed to reduce MD and health system's gullibility.

► People, establishments, governments, even educators are designed inherently gullible.

► Advertising sells as Cultural Conditioning proved to be hypnotic in character, creating very gullible management, grads, educators, and politicians. This is very costly to people,

Our babies and children suffer and die unnecessarily because we are failing to address the actual basic causes of problems. We ignore prevention for all problems. We complain about "Health Care" costs, yet promote malnutrition! Our geniuses are proven right in identifying 22 uncorrected errors in education, and by our

cultures, and ecologies, further impairing humanities' very poor chances of long term survival. Our geniuses findings in many fields prove that our managements are ignoring the forefront of science, knowledge, and the many lessons of history. This criminal negligence may require new laws. Negligence in media, education, and governments results in rape, violence, suicide, murder, pollution, RICO, theft by deception, criminal malfeasance, manslaughter, overpopulation, starvation, and increasing the rate of ecological destruction. These are all very serious ongoing crimes.

► Governments fail to use the actual teachings of Mohammad and Christ in dealing with right wing violent Muslims and right wing violent Christians. They still ignore sociology research on Cultural Psychology and the effects of language, culture, and history on world view.

▶ Human survival is increasingly endangered. We aren't using well proven info that will enable creating violence free schools, cultures, and world. ▶ Nine Peaceful, non violent cultures people created have been well studied. Our best universities, media, governments, corporations, and non profits have all failed to examine the evidence of our interrelated major systems errors and blow the whistle. Humanity seems insistent on self destruction. We ignore the actual basic causes of problems and our geniuses solutions today as in the past. We work

▶ We Are Still Deep in the Dark Ages Scientifically and Sociologically. Educational failures create management and staff in all of our establishments that prove quite unable to use critical thinking tools, lacking the knowledge to address the actual basic causes of our many problems, or even to notice that basic causes of problems exist. Films, TV, Media teach violence, ignoring research that Cultural Conditioning is Hypnotic in Character. Results:

possibility of humanity enjoying a comfortably survivable planet and future. Most will starve.

on symptoms, not interrelated causes.

▶ We ignore history, sociology, science, weather changes, ecology, and the implications of Major Paradigm Shifts. Physics research eliminated mechanistic world views by 1963. Physics proved we and our world are an Interrelated Fully Integrated MultiDimensional Holographic SubSystem of our multiDimensional Holographic Universe SubSystem.

We reap violence. The many important lessons of history, herstory, sociology, and science are ignored or are very poorly taught.

▶ We are a tribal race with all the inherent inherited beliefs and habits of ancient tribes still designed in to humanity. Historians wrote 428 books about establishments shooting innovators and whistle blowers, today also. The Many Lessons of History are ignored.

President George W. Bush's actions in creating a right wing cabinet that lacks the education to deal with science and history is very damaging to our country. Bush is involved in actual crimes, murder, genocide, and in promoting manslaughter by attempting to force women to die in pregnancy or childbirth. We have no birth control methods that always work. Abortion is ten times safer than pregnancy and birth. His stopping USA backing of birth control and abortion for world population control will continue the Republican and religious groups patterns of acting to increase populations in an overcrowded world that can't support them. This illegal policy of promoting Genocide has directly resulted in the ongoing destruction of ecological systems at an increasing rate, causing millions to starve. Population pressures are a major factor in violence and wars. These actions kill millions more directly. Nineteen million have starved since 1870. Actions against birth control and abortion directly killed Nine+ Million. Experts predict One+ Billion will starve by 2100, Six Billion by 2140 with no oil for agriculture, far worse crop weather, ocean levels 10' higher by 2140 reducing crop land. These attitudes and actions are unscientific, failing to note the

urgent need for regulations and laws to protect citizens, ecological systems, and business from greed and the tremendous changes in weather, loss of many resources, with no oil before 2100. All fossil fuels will go very rapidly after oil.

➤➤➤ Politicians and hired officials have no immunity for aiding manslaughter and genocide. All individuals, groups, non profits, and religions involved in any way must be tried under USA and International Law, and found guilty for these ongoing murders and genocide. Lies about homosexuality are illegal and deadly.

➤ Hired and elected officials are criminally liable for starting wars on false info, killing and injuring military and civilians.

➤ Long term planning for survival of humanity and business requires a careful study of the long term effects of all actions, systems, and weather cycles. ➤ Business, governments, educators, and media must be taught all of humanities' needs, systems interrelationships, and be required to operate for the benefit of humanity, ecological systems, and long term resource management for human and ecological survival.

➤ Our grads still lack an understanding of History, Herstory, Science Paradigm Shifts and their implications, Science, long term planning, the Interrelationships of Causes, Effects, and

Actions on Survival and on Creating Disasters.

► We must plan ahead for 100 thousand years instead of days, or humanity has little chance of surviving.

► Major publicity about what geniuses have learned and how damaging these anti people, anti ecology, and anti survival actions have been would result in reeducating some right wing politicians, media, educators, and world leaders.

We need to bring criminal charges against all aiding and promoting disaster for individuals, cultures, babies, children, adults, and ecologies.

It is urgent to create governments that base all actions on the forefront of science and knowledge, and stop treating women as non people, forcing them out of productive lives into early death in childbirth or into the 18 years of

► Civil Rights and Human Rights are violated by our failures to teach people how to understand self: who they are, how to relax completely under all circumstances, how to be harmonious with self, others, and world, how to eliminate the learned reactions that cause us to internalize stress, how to heal mental and physical traumas of any nature, healing fear, anger, loss, depression, all of the elements of mind body health, how to be very creative,

responsibility and slavery of birth and childcare.

We need their abilities and genius in all areas of society. Women have proven to be far more effective in seeing the entire system, planning for future needs, and addressing all of the needs of people instead of power. If you want a job done right, hire and promote women. Studies of Matriarchal Cultures found them more effective at working with entire systems to meet the needs of families, ecologies, + Planning Ahead.

We fail to teach Active Listening, relationship care and development. We ignore research on communities, tribal cultures, and small group interaction.

playful, artistic, and musical.

► We even ignore the many biology and zoology studies of species sexuality that prove that all species are designed with homosexuals, bisexuals, and some nonsexual. ► “Biological Exuberance” Bruce Bagemihl 1999, reports that 450 species Zoologists studied had homosexual elements. Jesus said nothing against homosexuals. The Bible was written, rewritten, expanded 2 to 4 times, and translated in

homophobic cultures. Homosexuality is proven by scientists to be inherent, designed in to all species, our Creators design of 7.3% of humans. Sociology studies of accepting cultures show that this group is very valuable in non bigoted societies, and even in ours.

► False info causes a four times greater rate of

These many educational and cultural failures are causative factors in all family and cultural problems, suicide, violence, rape, murder, crime, drug addiction, accidents, failure of parenting, marriages, and relationships, ecological destruction, and a complete inability to even think in terms of long term planning, to realize it's value and use it. We have the tools to eliminate suicide and violence. We can prevent all suicide, violence, and murder. The four times greater suicide rate of gay youth, and violence against gays is caused by failures to tell the truth about sexuality studies of all species, and the sociology studies proving homosexuals extremely valuable in all cultures, even more in accepting ones.

► It is very illegal to not allow gay and lesbian marriage under USA Constitution Equal Rights, First Amendment Separation Of Church & State, and laws of most western cultures.

suicide of homosexual youth when they learn that God designed them homosexual. Lies result in violence against and murder of any suspected of being homosexual. Aiding and promoting murder and suicide is illegal. Bring charges.

► We have well developed methods of teaching kids and adults how to be in touch with and heal their feelings. Educators act unethically and illegally as criminal coconspirators as they cause suicide, violence, and murder by not correcting 14 obvious errors, omissions, and fantasies. Why fail to teach everyone the ten ways to get free and stay free of stress internalization? Use Imagery Visualization NLP modalities to permanently eliminate stress internalization from any cause in three to ten hours. Use Serge King's "Imagineering For Health".

► Art, music, rhythmic dance and movement Aid Learning and Increase Creativity. Educational Kinesthiology aids right left brain integration. This dramatically improves reading ability for 85%, eliminates dyslexia, increases creativity, and even reduces violence. Hawaii public schools and 600+ private schools say this works. These tools are ignored, not used, or not

given adequate emphasis.

► We ignore eight tools that create and improve right left brain integration. ► Holistic Health heals all problems with learning and mind body health, even neurological damage, anger, and inherent violent tendencies. Humans have created many very peaceful, nonviolent, caring, and effective cultures. These have been studied.

► We have well developed tools in the soft sciences that enable identifying antisocial individuals and all of the basic causes of violence, rape, suicide, crime, and all other antisocial and destructive behavior, even heal or prevent marriage problems. ► Transpersonal Therapists do better with these tools. Problems are caused by childhood mistreatment, bullying, learned reactions, subconscious programs, brain design and wiring, brain chemistry, genetics, glandular imbalances, and allergies affecting brain chemistry. Prevention is Best, Cheaper.

► Holistic Health and Sociology research have developed the information to create systems that will identify and heal the basic causes of each of our mental, physical, social, and societal problems.

► An optimum training program will

► We know how people learn to develop cultures that are peaceful. Nine cultures studied were free of violence. This can be done in all cultures. This will be far easier and much cheaper than any of the alternatives.

enable almost all teachers to identify troubled kids, bullies, rapists, and perpetrators of any nature. Let's address major issues still neglected by our best universities. Decisions are being made based on a flawed data base that geniuses in many fields have proven false. Our decision makers lack the info or intelligence to make fully informed and most effective decisions, or listen only to Vested Interests who pay cash.

► It's urgent to arrange for all educators, decision makers, and leaders to gain a full understanding of our world with very complete workshops presenting an integrated systems overview of the cutting edge of our geniuses findings at the forefront of science and human knowledge, Sociology Cultural Psychology studies of humanities' psychological discount of innovation and geniuses throughout human

history, the Vested Interest Syndrome, and the massive distortions and outright falsehoods in history books that are written by the winners.

Decisions made on GIGO'd data are increasingly more costly to lives and budgets.

► Separation of Church and State did not mean to stop teaching religion, but to not establish a state religion. Our founders would be horrified by our not teaching all religions in all schools. We can't teach history, sociology, current events and science accurately and honestly without teaching the effects and interrelationships of religion with people, institutions, and all aspects of each culture. This holds true in all cultures, even ours. Sane education requires teaching about all religions, how and why they developed and how they affected people and cultures, how false info in religions led to killing herbalists and healers as witches, to killing homosexuals, killing women with tubal pregnancies, destroying ecologies, the inherent tribal nature of humanity, and what physics and others sciences have learned that clearly proves that our MultiDimensional Holographic Planet and Universe Design is recreated, a Hologram flickering in and out of existence, gone during the time it takes for a

► US military spent \$195,618,237 on top secret Psychic Research thru 12/31/01. They failed to use good project design, discounted and ignored the results. DoD Brass stopped this research in 3-17-02. This is an accurate scientific description of all life and matter in our universe.

People are inherently tribal, and need to be part of a small community. Let's build

their findings. Study the implications of a Nobel prize winner in Physics reporting "Our Universe and Us Are Naught but Mind Stuff". Many University professors have studied and written about each of these areas.

Let's heal all people of anger, hurts, self image problems, lack of confidence, stage fright, insecurities, and fears that lead to divorce, child abandonment, violence, murder, and suicide. Holistic Health can identify and heal all victims and perpetrators: power seekers, greedy, rapists, sexual predators, pedophiles, violent, criminals, etc.

► People feeling unloved as children seek power as a substitute for love in: Military and Police-83%; Governments-79%, Business-76%, and 87%-94% in crime, violence, rape, and gangs. People feeling unloved are more prone to greed, crime, drugs, rape, violence, war, and suicide. They tend to create most of the problems in all families, cultures, ecological systems, and world. They start wars. Even these people can be healed, and the creation of more problem causing people can be prevented.

communities in all cities, towns, villages, and neighborhoods. Small group interactions have

been studied, and small communities found far more viable than large communities. Villages

Data summarizing our geniuses research shows criminal negligence in education, corporations, media, and government in addressing safety, security, education, crime, community development, health, agriculture, ecology, housing, human survival, world peace, prevention of all problems, and in meeting all human needs. ► All problems in our culture and world were created by grads who did exactly what was needed to create the problems. Someone from 'Out There' didn't come in to cause them. ► We know how to identify all outcasts, all people with antisocial and violent tendencies, and heal all of them. Wolf mothers discipline cubs that are too rough with their litter mates. If they don't change their destructive behavior they are killed as defective. ► Energy healing will identify and heal the genetic errors causing this behavior in humans and other animals.

Humans have the knowledge to create nonviolent, crime free, rape free, cooperative,

peaceful, creative, playful, happy, successful cultures in all nations. Let's do it now.

► The 98+ studies of training that increases intuitive awareness of danger, error, and best action would enable women, children, and schools to avoid rape, violence, murder, accidents, and kidnaping. Teach all girls and women Yoga, Tai Chi, Aikido, and Meditation. Two years of training and a small woman or girl can't be attacked successfully by five men, and will avoid danger, accidents, and errors in life and in work. This training tremendously increases people's intuitive awareness of best action, error, and danger, increasing creativity and the rate of invention. Girls, women, and guys can identify and avoid all dangerous men, women, and situations. This enhances safety, families, cultural flow, community, success, and improves self confidence. When all are trained, accidents and errors will drop 98% to 99.7%, and violence will almost disappear. Stress free people tend to be nonviolent.

address the five ways people learn, and to teach,

experientially when feasible, ten+ ways for kids and adults to eliminate stress internalization permanently, understanding self, others, and the Holographic world we are an integrated part of, how to relax and be in tune with self and universe, how alcohol, drugs, and non foods affect body mind systems, increasing illness, accidents, violence, and the rate of aging and wrinkling, how bodies work or fail, how Natural Healing System Vegetarian Diet Healing and Prevention aids health and learning effectiveness, reduces illness 76% to 83%, birth defects 27% to 43%, and saves 56% to 68% on health costs, why we urgently need to replace physical competitive spectator sports with intellectual competition and cooperative community building activities and games, placing emphasis on participant and cooperative sports and activities, the record of sports heroes and teams using violence and rape against women, the extreme damage done to children and adults by establishing cliques and ‘worship’ of sports and other clique ‘heroes’ and groups that exclude others, the negative effects of exclusion on mind and health, the urgent need for everyone to feel accepted, secure, cared for, and part of a group, a caring community, how

people learn or fail to learn and why, all five ways of learning that must be integrated in education, how to parent, active listening, child rearing, small group interaction, community building, why families and each individual need to be part of a warm caring community to function effectively, that we are all inherently designed as tribal peoples, and how this affects us. Study How cultures work or fail to work to meet the needs of people, ecologies, societies, and human ecological survival. All need a full understanding of the urgency of a very complete, accurate education for personal, family, cultural, and racial survival.

► Teach, promote, and use all ten methods of eliminating and being permanently free of stress. These failures to use all of the forefront of science and human knowledge are unethical and seem clearly illegal, as they result in psychological putdowns, discounting people, preventable birth defects and murders, school shootings, violence, rape, drug addiction, crime, greed for power and/or money, ecological destruction, malnutrition, health problems, ecology destruction, wars, and other disasters. Why not correct all of the actual basic interrelated causes of all human problems and

disasters??? We know how to do this.

► Victims heal all mental traumas without exception using NeuroLinguistic Programing Imagery therapy, almost always within 3 to 10 hours, one appointment. Some can learn to heal themselves by persistently using the Imagery Visualization NeuroLinguistic Programming concepts taught in hundreds of books.

Most can use the books to heal each other without the experts. Healing minds is faster and more effective with the Applied Physics of Energy Medicine included to correct all distortions in the Life Energy Field, or Aura.. This combination enables healing the most difficult cases in one or two days, and enables healing almost all of the perpetrators. All students and faculty need a six week intensive workshop covering these issues.

► Education boards, management, and educators must be required to pass exams on the forefront of science, history, sociology, systems, and education. Decisions made on GIGO'd info are costly. Laws must require all involved in errors, losses, and fraud be held criminally liable. These many tools aid learning and teaching.

►All management and faculty need this training now. Require all teachers, students, management, and school boards to use all ten ways to be free of the internalization of stress. All will do far better in learning, teaching, and life.

Teen birth rate will plummet when we teach with films, experiential and other tools the actual birth experience and show both good and very disastrous outcomes. Require visits to the centers taking care of children with birth defects. Teach how and why mothers still die in pregnancy and childbirth, that horrendous birth defects occur, and a much clearer picture of all that is involved in taking responsibility for the growth and development of babies and children. Babies Need Love, Caring, Breast Feeding, and Optimum Vegetarian Nutrition from Conception. Nutrition needs optimization at least a year before conception. Cow's milk has the wrong molecular structure for our babies, and lacks immunization elements. ►Breast feeding creates bonding and the sense of love and security babies need. Show breast feeding on TV often. Demystify breasts. Breasts are not sexy, but designed to feed babies. Any action that reduce breast feeding acts against the health

of babies and children for their lifetime, increasing illness and death rates. All such actions are criminal in their effects, killing 0.026% of babies and kids. Nestles killed 2130+ babies by getting women with no money for formula and no clean water into bottle feeding. Charge FCC and all involved with manslaughter in government, media, nonprofits, and religions. Mothers that feel unloved can't meet babies needs. Show vivid films giving everyone a very clear understanding of the worst case possibilities of poverty, learning problems, brain and physical disabilities, illness care, malnutrition effects, and the proven dangers of the 'Great American Diet' causing both health problems and birth defects. Include books on the Diseases of Civilization and the six+ studies of cultures lacking these diseases. Teach the importance for health, babies, children, ecology, and human survival of all using Natural Healing System Vegetarian Diet Prevention, and ten tools for permanent stress removal and prevention. Stop teaching malnutrition in cafeterias, vending machines, classes, media, and food marketing. Teach Natural Healing System Vegetarian Diet Prevention, why this increases breast milk

nutrition, improves fetus health, and why this reduces Birth Defects and Illness Rates considerably. Tell of studies of Downs Syndrome babies developing normally if they get very high levels of extra nutrients from birth. Resources include Naturopathic Medicine and Oriental Medicine Associations and schools, Natural Healing System oriented associations, and groups. Locate the best books: Dr Paul Bragg-ND. Dr Norman W. Walker ND, and many newer books. Eliminate milk, meat, white flour, white rice, sugar. Use soybean dishes, sprout beans before cooking. Use calcium enriched soy milk. ►Soy Vanilla, Trader Joe's, is very tasty. Use vegetables, fresh greens, and a variety of whole grains. Sprouted seven grain breads are even more nutritious. We use too much wheat, increasing allergies. Use well balanced vegetarian diets, herbs, B12 and nutrients. Visit nursing homes, teach how and

►Birth control methods still fail. Forcing any girl or woman to bear a child is clearly attempted murder as some will die in pregnancy and childbirth. Abortion is ten times safer than birth and pregnancy. Failure to promote drastic population reduction with the use of abortion

why poor diets plus mental attitudes and emotions make people become suffering patients. Teach how overpopulation is destroying ecological systems at an increasing rate, reducing fresh water and ground water drastically, and why this crowding directly increases starvation, violence, war, crime, and ecological destruction, drastically reducing any possibility of long term human ecology survival.

►Teach why we are very far past the point of any chance of achieving comfortable racial survival. ►Teach weather change effects on farming and water supplies, how plant proteins take 1/32nd of the water needed for animal protein production. We must reduce populations drastically or starve six billion. Earth can support only 500 million from the 2100's on. Dr Milton Searle, UCSD Biology, reports this since 1984. I wrote this in 1998. Crops use water.

and the most effective birth control methods is genocide of One+ Billion who will starve this century and Six Billion who will starve by 2140 Overpopulation destroys ecological systems more rapidly yearly. Satellite photos show this. These actions are very unethical and illegal.

Reduce populations 93%, or murder billions.

I've learned that our geniuses are usually right, and often ignored for generations when findings conflict with establishment's Mind Set. I'm a member of Mensa, studied electronics, physics, most other sciences, and read widely in many fields: most Sciences, Sociology, Cultural Psychology, History, the fascinating stories of major human errors and the suppression of innovation and new ideas throughout human history in science also. I had 53 books critiquing education, gave away 3000 on moving, only 1400 now. I ran Hemstreet Consultants for many years dealing with corporate people problems in research, science, engineering, and associated management. I almost completed the solution to a 417 watt hour per pound battery after 23 projects failed, but fire burned our first model. ►Physics indicates we may be able to improve Radionic Devices to cover the world from one location, eliminating any pest, virus, bacteria, fungus, mold at any distance with a different frequency for each item. We seek \$90 million to solve this within seven years

►►►Physics indicates that we may solve the creation of new power sources from the underlying structure of matter within 60 years and \$1.8 trillion using all of today's sciences in

an Oak Ridge type project. We can solve weather control, regeneration, anti gravity, toxic elimination, neutralize nuclear radiation, and solve problems unsolvable with mechanistic system illusions, but IF we apply all of science, use all elements of the new scientific method, and address the actual design of our Holographic SubSystem, much is feasible.

I've studied cultural errors since age eight. I read Shakespeare at 7, Toynbee's History of the World at eight, and had a small town librarian that bought every non fiction book I suggested.

► My expertise is in finding Geniuses in each field, bringing together info that establishments ignored, and that is needed for effectively identifying and defining all of the causative elements of each problem. Then we can solve or prevent all of the actual basic causes of problems instead of addressing only symptoms for another ten thousand years. This inherent habit fails to eliminate the causes of problems.

Since 1970 I've studied the world's knowledge of Holistic Health from India, Orient, Europe, and Americas. I was a victim from age 9 to 12 of two bullies, brothers, who chased me, beat me, repeatedly threatened me,

tied me up, tortured me, and promised to kill me and burn the house down if I told anyone. I believed them and never told anyone. I eventually suppressed most memories before 15. Teachers lacked the training to notice this problem that damaged at least five kids. I learned recently that the bullies were badly beaten by their dad daily. I took refuge in books and studied widely. Requiring training in Transpersonal Psychology, Yoga, Tai Chi, and Meditation for all teachers will increase their intuitive awareness of all problems troubling children, and enable them to identify the bullies. NeuroLinguistic Programming Imagery will heal both victims and perpetrators. Add the Applied Physics of Energy Medicine for resistant cases. Add Aikido to increase safety. These tools used effectively and persistently will heal sexual predators, rapists, pedophiles, violent, bullies, criminals, genetic errors, swindlers, politicians, and all brain mind body system disturbances. We can heal fetuses, babies, children, adults, helping everyone greatly.

► We can use all of science and knowledge to create sane societies. Correcting all 22 errors in education world wide will be the major factor in creating world peace.

I ask that you personally check out references on deadly fraud and negligence in the fields of health, safety, education, government, agriculture, security, DoD, business, and media. Examine the fourteen errors in formal education, eight in informal education, that result in our grads creating all of our problems. These massive errors caused us to ignore many Natural Healing System Diet Preventive Health Care studies that show savings of 56% to 68% with 76% to 83% less illness, 25 studies validating Holistic Health with 87% to 92% savings, 76%-83% less illness, 42 studies of the Applied Physics of Energy Healing since 1956 showing almost all problems heal, 53 lab studies of Energy Medicine since 1947 finding that viruses and bacteria disappear, 32 studies showing 98% to 99.7% less accidents, with 96% to 99% less errors on the job and in life in 38 studies, and Radionic Devices proven ability to eliminate any insect pest, parasite, virus,

bacteria, fungus, mold in the target area, using a different frequency for each item. Science explains how and why they are so effective in 639 books, 86 by Physicists.

There are many studies on training that increases intuitive awareness of best action, error, and danger while increasing creativity and the rate of invention; and on tools that identify and heal the violent and the victim. Rapists, pedophiles, and other perpetrators can be healed. ► Reference books have 1783+ major errors still ignored by even our best encyclopedias, universities, media, corporations, governments, and cultures. ► We continue to teach AS IF information is so when it's long been proven in error, distorted, or even completely false! Humans have always done this in almost all cultures. The history of science is the suppression of new info that conflicts with establishments Mind Set. We still shoot Blowers.

of humans, and fail to note that this is our Creators design of our world. "Biological Exuberance" 1999 by Bruce Bagemihl reports on homosexuality studied by Zoologists in 450+ species. Reports I've seen since 1948. Studies

of accepting cultures find that homosexuals are extremely valuable in these cultures and in ours. Education failures directly cause violence against, and murder of any thought to be homosexuals, killing their self image, injuring their will to live, and causing a four time greater suicide rate of youth when they learn they were born homosexual. This is God's design of 7.3% of humans, of all species. Our educators, government, and media are directly responsible for acting as criminal coconspirators. Civil Rights and Constitutional Laws apply. Laws requires that all homosexuals be allowed to marry, and be treated fully and fairly as humans and citizens in all areas of our culture. We still fail to teach anti discrimination attitudes in dealing with all who are different in any way. An Ohio school did. These failures have resulted in the massive destruction of hope, of lives, suicide, rape, violence, many murders, and wars. Educational, government, media, and religious systems are ethically and legally guilty of causing beatings, murder, suicide, rape,

People that don't internalize stress tend to be nonviolent, healthier, more creative, and far more effective in life. We fail to teach how to

violence, crime, and drug addicts by going along with info and methods long proven false, and by failing to teach people how to be themselves as a stress free balanced person in harmony with self, others, society, other cultures, ecologies, and world.

►► Major establishments continue acting as criminal coconspirators with murder, suicide, violence, crime, and rape. We can teach all students and adults how to heal subconscious feelings and how to prevent the internalization of stress from any cause. Discrimination of almost all geniuses is rampant. The ongoing bigotry against geniuses in our culture and our world damages babies, students, adults, ecologies, and all cultures. ► All religions and non profits giving false info on health care, abortion, birth control, and homosexuality must lose their IRS tax exemption. They act illegally in aiding starvation, manslaughter, rape, and violence. Charge all involved in these many murderous, destructive crimes.

These errors, omissions, and fantasies kept educators, media firms, and governments from: teaching how to increase the rate of invention, even for engineers and scientists, from using all eleven elements of the new scientific method physics requires,, learning how to be free of error, stress, and accidents; from saving billions and lives with Natural Healing System Vegetarian Diet

insults. I was badly hurt! All problems in our culture were created by actions and omissions of 'educated' people. Management, School Boards, Management, and NonProfits need the ability to pass a test proving an understanding of all education research, systems research, the lessons of history and sociology, and all of our geniuses info at the forefront of science and human knowledge as an interrelated system.

► Establishments still address the symptoms of problems instead of the actual basic causes of problems. They ignore our geniuses findings in almost all important areas of knowledge when new info requires changing habits of thinking.

Prevention-76%-83% less illness, and complete Holistic Health Care Systems costing 80% less, not using training that drops error and accident rates 98% to 99.7%, and from healing victims of rape, violence, accidents, fire, loss, war, childhood putdowns and disasters, crimes, and other traumas in three to ten hours, one day, using NeuroLinguistic Programming.

Transpersonal Therapists are more effective at this. We can drastically reduce and eventually eliminate crime, violence, rape, alcohol, drugs,

greed, etc by correcting all of the basic causes. We have the knowledge to do this effectively. This is the only effective approach, and is far cheaper. Working on the symptoms of problems doesn't eliminate the problem. All teachers and grads need better info and experiential learning environments in: active listening, marriage, parenting, interpersonal relationships, ethics, stress, health, BioNutrition, sensuality, sexuality, birth, birth defects, rape prevention, war and violence prevention, identifying subconscious problems, causes, and cures; the actual design of biological systems from Cells to the entire Holographic Mind Body Energy Field Spirit SubSystem that is a completely interrelated and integrated part of our MultiDimensional Holographic Universe, how the mind affects and is involved in the re-creation of this system 438.697381293 times per nanosecond, that babies and children are not small adults, how children develop and how each learns or fails to learn from birth through each stage of life and why, how brain development changes at 12 and 17, reducing abilities to deal with life for 1.2-1.6 years, a full understanding of all societies and the basic causes of all human problems throughout

history and today. Learn why and how humanity did develop nine+ cultures free of violence, rape, and murder, and how we can accomplish this here and throughout our world IF we deal with all of the actual basic causes, all of the system interrelationships of each problem, and the actual needs of all fetuses, babies, children, adults, cultures, ecological systems, and long term human and ecological survival. We ignore cultural psychology, history, science, and sociology research.

► We fail to learn the lessons of history and herstory. Examine the tremendous damage today of our many failures to plan ahead for eons and work with the whole system. We fail to use our geniuses knowledge, and to make decisions based on studies of all of the interrelated long term effects of our actions.

► We act AS IF we will not be here more than a few years. ► We have no place to move humanity to, even if we create true space drives.

Sociology Cultural Psychology Research on the Vested Interest Syndrome examines inherent human gullibility, finds that only 4.6% can even consider new to them concepts that disagree with mind sets. Establishment Brainwashing works as well today as it has throughout history. That's why advertising sells.

► There are at least 1,163+ histories telling of the suppression of innovation and dissent throughout human history. We continue to do this today as in the past, with far greater destruction of humans and ecologies.

► My calls to universities and written proposals to MICH State U, MIT, Stanford U, Harvard, Yale, Boards of UC & CA State U, UC Davis, SDSU President, and to UCSD Chancellor and Medical School Director were discounted and ignored. We appealed to the SDSU Foundation to help correct major critical thinking errors at KPBS that were involved with them going along with producers and PBS giving false, distorted, or woefully incomplete info to the public on health, safety, agriculture, education, defense, war, rape, violence, loss, and other problems.

► The Foundation deputy director promised to give our proposal to each of the board members. He breached his verbal contract with me. He talked with his director instead. They had SDSU attorney Juanita L. Brents order KPBS management and key people to give her all the summaries of geniuses info we gave six key people. All six gave her our whistle blowing info. None had checked any evidence or references. Read her letter to me. This shows a complete lack of concern for employees, budgets, and violated Civil Rights and Human Rights Laws. This resulted in financial loss, unnecessary suffering and unnecessary, very

avoidable, early death of employees, board, students, and people everywhere. ►►Results: Damage to Serendipity Association's fund raising, PR abilities, and to me.

Our geniuses info on cultural errors, omissions, and fantasies show a history of actions against people in our USA as in most cultures. ►►I ask your personal help in Whistle Blowing on these important areas dealing with many errors and cultural blind spots. My Civil Rights were violated, and my ability to get funds for a nonprofit to address these issues has been badly curtailed by their continued falsehoods. ►When even PBS gives information in important areas that has been proven false by massive bodies of research, it is hard to raise startup funds on a limited start up budget. Donors tend to believe that cultures don't make major errors. Brain Washing and Big Lies work.

When I kept asking for an appointment with Superintendent Bersin, the legal director wrote me not to contact anyone there, or they would call the police. This violated Civil Rights Law. San Diego Unified school board staff acted illegally in refusing to take messages for Board on Education Reform. They still ignore research proving that whole words is a poor approach to teach reading. Three hours daily of Phonics in early years is far more successful.

requires that the New Scientific Method must

have Eleven Elements, with four design of experiment tools often necessary to be scientific. These require bringing together all that is known, building new research on a scientifically valid very complete and solid data base foundation, and examining carefully all data that disagrees with the establishments. It's often right. Effective research in any field must consider the entire system, all subsystems, their interrelationships, and the implications of all people and equipment involved in any research being a MultiDimensional Holographic Fully Interrelated, Integrated SubSystem of our Multidimensional Holographic Universe

Our best universities are graduating engineers, scientists, and others unaware of Paradigm Shifts created by 46+ scientific discoveries, their implications, how they apply to all that we do, research on cycles, training that increases creativity and invention rates, of Eleven Elements of the New Scientific Method Required by Physics 2,000 AD, Four Design of Experiment Tools, how to reduce error rates on the job and in life 96% to 99%, reducing accidents 98% to 99.7%. They were not created by others from "Out There". Our grads created them all. ► We still ignore Prevention on all problems. We ignore geniuses problem definitions and diagnosis, even well proven science and system based solutions.

► We are wasting 80%+ of our health care money because governments, Health & Human

Services, Pharmaceutical Firms, Corporations, Media, even Educators went along with the MD Vested Interest 1838 to present War Against Alternative Medicine. This is reported in 212+ books that show Fascism was and is used to suppress science in health. MD's still lose their licenses and have their clinics closed for daring to work with any aspect of Holistic Health. This has created a climate of fear for progressive medical professionals. ►► We suppress science and innovation in education, still failing to deal with the five ways people actually learn, stress

I've talked with eight attorneys who say everyone has a winnable lawsuit against their MD "health care" systems, that MD illness care systems violate Civil Rights and Human Rights, and that their ongoing 1838 to present MD war against Alternative Medicine meets the legal definition of RICO, is Theft by Deception, Criminal Malfeasance, and Manslaughter. violence, and war. We are failing to address these problems. Science will develop weapons within this century that will make nuclear bombs seem to be popguns. Biological weapons can destroy us now. Normal genetic mutation of infections could create new diseases far more dangerous than any humans ever experienced. This makes it more urgent to develop sane nonviolent societies. Half of the Worlds' Oil Is Gone by 2038, All by 2100, yet we increase use. 'They' ain't making no more! We still waste fossil fuels as if supplies are unlimited.

Plan Ahead??? The smallest meteor of the seven that hit Jupiter recently would wipe out all life on Earth. We are completely ignoring eight major racial and ecological emergencies.

We have the knowledge to eliminate cheating, white collar and all other crimes, rape, violence, war, poverty, learning disabilities, starvation, social problems, drug addictions, and unethical educators, firms, and governments that act against people, ecology, and survival.

We have the info to heal all human and ecological systems. Let's use it now. Failure to act is increasingly damaging each day. All decisions made and actions taken must require very long term planning .for human and

ecological survival over 100,000 years.

►Help stop the ongoing war against human and ecological survival.

►Ocean CO₂ rose from 315 ppm in 1958 to 377 ppm in 2004, after being stable for 400,000 years until industrialization in the 1800's. This will destroy phytoplankton's ability to form shells with calcium as it continues to increase. They feed the zooplankton that feed fish. This will wipe out the foundation for the ocean's food chain. The current rate of increase of CO₂ will result in fish being substantially gone in the relativity near future, 2300's?. ►It is most urgent to genetically redesign phytoplankton for highCO₂ levels. Atmospheric CO₂ is still increasing rapidly. This dissolves in oceans, lakes, and streams. ►Thawing Tundra releases massive volumes of methane, increasing Earth's warming much faster.

►Do the genetic redesign needed for coral to survive at higher and lower ocean temperatures.

It's urgent to bring together our geniuses in all fields who are knowledgeable about systems, the forefront of science and human knowledge, weather changes, solar cycles, ecology, geological, and population studies showing emergencies, geological cycles,

tectonic plate shifts, the full implications of each of the 46+discoveries that created them.

Paradigm Shifts and the full implications of

Run workshops and symposiums addressing all of our cultural blind spots and show how these have aided the development of cultures that continue to create more problems at an increasing rate, instead of solving and preventing them. Teach all how cultures work or fail to work to meet the needs of people and ecological systems, and the actual effects of violence, war, and waste on people and planet. Such symposiums could well develop optimum approaches to apply systems research to the design, development, and implementation of the

Add evidence reports and reference checks to our material verifying that all of this info is well validated by scientific research. Give this to all board members, all professional personnel, and all related associations. Ask them to identify and correct all of the errors, omissions, and fantasies in departments, education systems, management, and data bases. ►Scientific design for effective Research & Development projects requires that all information and people conflicting with

many projects needed to start eliminating all of the basic causes of humanities many interrelated problems. It's urgent to use all of science.

►►►We are very far past the point of being able to achieve even slightly comfortable human and ecological survival. Only by working with all of Earth, people, and ecologies as Holographic SubSystem can we reduce, even eliminate, the extreme damage to Earth, people, and crops. Will humans apply science??? Or continue to choose ecological destruction???

establishments must be examined very carefully, not discounted. It is often right. ►Develop management controls, training methods, and guidelines to avoid cultural errors and blind spots in the future. ►Report on all of the actual costs of making decisions on a GIGO'd data base, and the damages incurred. Cease short term planning. ►Plan ahead for 100 thousand years, or Eons. This will increase the possibility of humanity actually having a future. We are already very far past the point of comfortable

survivable for humanity and Earth's ecological systems.

I propose programs, speakers, and workshops dealing with today's suppression of and ignoring of research, innovation, and our Geniuses information that would solve and prevent the problems that affect women, babies, children, men, families, crops, ecologies, and survival adversely in our culture and world. Washington State proved that we still have many errors in education when they required insurers to cover part of Holistic Health, still ignoring the studies that fully integrating it into all health care systems would save 80%+ of costs, saving suffering and many lives. The 25 studies validating Holistic Health are backed by 896 studies of the elements of Alternative Medicine that come together to form a complete Holistic Health program. University studies of the Applied Physics of Energy Medicine, 42 since 1956, show that it heals problems because bodies, plants, and planet are Holographic Energy Structures flickering in and out of existence. We and all we deal with are Holograms. Energy Healing Is Applied Physics, with 53 studies proving Energy Healing eliminates any Virus and Bacteria. Radionic

Devices do this also. Physics and other research prove this and explain why. Instrumentation shows Acupuncture Points, Energy Meridian Lines, and Chakras. Eight classes of Energy Healing methods are taught under 183 names. Scientifically well proven healing tools include methods of healing all mental physical problems in almost all people, even genetic anomalies. Correct subconscious programs with NeuroLinguistic Programming Imagery and Energy Healing to eliminate both the actual effects and the basic causes of violence, rape, crime, greed, arrogance, and perhaps even stupidity. We continue to fail advising victims how effective these tools are in permanently healing all mind body traumas of any nature, except political stupidity.

Energy Medicine Is Applied Physics, and has proven able to redesign genetics, heal brain damage and biological system errors involved as causative factors with violence, crime, anti social behavior, and other problems, heal all learning disabilities and even social disabilities. These tools will heal sexual problems, rapists pedophiles, and all other predators.

NeuroLinguistic Programming and Transpersonal Psychology heal the minds of

victims of violence, torture, rape, psychological violence, fire, accidents, war, and loss in three to ten hours in most cases. Employees and students have been raped, injured, or suffered losses of people, family, friends, homes, and property.

I completely healed a rape victim in only seven hours, one day, with NLP Imagery, when six years of therapists hadn't helped. Counseling won't work on the 92% of victims when traumatic events created hypnotic programs in their minds. ►I taught a bright 12 year old girl how to use these tools in 1 hour. She healed herself in only two days of her six years of continuous sadness since her mother died, using "Imagineering For Health" Serge King, as a workbook. Survivors, women, men, children, all victims need this info. Why suppress it???

►Humanity developed and studied nine+ cultures that were free of violence. Matriarchal cultures and others valuing women and children have always met the needs of people and survival far more effectively. They create people that are artistic, musical, playful, creative, caring, effective, nonviolent, and plan ahead far better. We can do this in all cultures. This is far cheaper than any alternative.

I challenge you to go over the evidence sources and references with me, check them carefully, add a report on results, and advise each member of the board, all management, and each association related to education, universities, corporate, and government management of their errors, crimes, and waste. Examine the evidence in each area. Help get all schools and universities to correct all twenty two errors in education, fourteen in Formal Ed, eight in Informal Ed. Stress internalization interferes with teaching and learning. Only when all education systems teach all that Geniuses have learned to prevent and/or correct all problems will we be able to develop completely sane societies and create a survivable world.

►Our best universities were brainwashed by cultural conditioning, so they went along with Vested Interests, arrogance, greed, fraud, deceit, stupidity, major crimes, and human's habits of psychologically discounting any new to them info, ignoring cause effect research, science, long term planning needs and prevention in all problem areas, and even the complete inter relatedness of all knowledge. Artificial walls between education departments

damage schools, grads, and cultures. ►The most important areas of problem prevention, health, violence, rape, education, war, land use, ecology, agriculture, community development, housing, creating ergonomically designed fire proof homes in well designed living spaces, low power usage design, safety, security, weather

The failure to note that the ongoing war against Alternative Medicine is suppressing healing modalities that would save 80%+ of our illness care dollars, thousands of lives each day, and end unnecessary suffering for millions adds more evidence that brainwashing works, that Cultural Conditioning Is Hypnotic in Character, and that we have massive errors in education systems. ►Over 215+ books on the War Against Alternative Medicine are still being ignored. Learn why. Cancer is 99.8% curable, 95% preventable. Breast Cancer is 100% curable. Mind affects body, as the body is part of the mind according to physics. Science of Consciousness research agrees. Research proved that thinking is done in the energy field, Aura, with the brain acting as a transponder, a receiver transmitter. Study “Mind As Healer, Mind As Slayer”. Everything is Mind Stuff!!!

changes, cultural cycles, and long term human and ecological survival are still not taught well or addressed. We Are An Integrated SubSystem of Earth’s Planetary Ecological Holographic Sub System. ►We act as viruses against Earth’s ecological systems and each other.

►Teach all how to correct vision, hearing and other problems with Imagery concepts used in Meditation 1.5+ hours consecutively daily. See Web “Health Vision Correction”. Use “Imagineering For Health” by Serge King as a work book. People have grown taller using Imagery. Women have grown small breasts larger, large breasts smaller with Imagery. I worked with one at 52 who was flat chested at 40, then learned to use Imagery in Meditation to grow B size breasts in 16 months. A man was a quadriplegic for four years, used Imagery for 2.3 years, and healed his spine. I healed a painful slipped disc on me in 15 days. Systems research finds that we must work with the whole system or we will get unforeseeable results. We keep ignoring major bodies of research. Physics, Science of Consciousness, and other sciences find that “People are a

Holographic Mind Body Energy Field Spirit System that is indivisible, a completely integrated subsystem of Earth's Holographic MultiDimensional SubSystem". Reality is literally Mind Stuff. Paradigm Shift implications and 46+ scientific discoveries that created them affect all fields of research and all areas of life, planning, and long term survival.

US Law would seem to make it illegal to make decisions and take or omit actions when this behavior results in violence, suffering, and death. Investigate whether all of our institutions, media, educators,, management, religions, governments, and industry can be held criminally and/or civilly liable as coconspirators for their part in creating an anti people culture that aids and abets violence, murder, environmental and food supply poisoning and

We still teach revisionist history, instead of accurately teaching the actions of our governments and establishments against people throughout our history and today. History books are always written by the winners, reflecting bias and distortions instead of depicting accurately the actual events from the perspective of all sides of each event. Our histories are

destruction, promotion and sales of non foods that cause health problems and death, discrimination against women, children, babies, homosexuals, any that seem different from norms, and an unscientific 'Illness Care' system that has proven unable to examine major scientific research or even notice human experience. We allow advertising and promotion of tobacco and alcohol, proven addictive and poisonous. This seems illegal. Pharmaceutical ads promote pills that address symptoms, ignoring actual causes. This pill habit leads to hard drugs. Teaching to reach for pills to feel better promotes hard drugs.

These many failures continue to kill people unnecessarily early daily, and cause unnecessary suffering for millions more.

sanitized, rewritten by the Establishments, Winners, Vested Interests, and Powerful.

This increases our rate of making disastrous decisions based on false premises, and increases their number and the damage done. ►The many very important lessons of history and herstory are not taught well, or at all. IF an action worked in a past culture, it will probably work

now. IF it didn't work then, it won't work now.

Geniuses have studied why humanity

doesn't use the forefront of information that would enable preventing and solving problems.

►“The 2,000% Solution: Free Your Organization from Stalled Thinking To Achieve Exponential Success” clarifies the issues of complacency, procrastination, apathy, ignorance, and stalls that keep all organizations operating way below their actual achievable potential. Habits are ingrained cultural conditioning, which is proven hypnotic in character, one of four factors that cause people to forfeit the best use of their time. The two basic foundations of all stalls are: “We’ve Always Done It This Way’ the inherent habit of humanity to ignore any info disagreeing with their mind set; and our leaders complete lack of a systemic knowledge of, understanding of, and integration of the forefront of all sciences and human knowledge in all fields, acting with false info on our Completely Integrated Indivisible MultiDimensional Holographic SubSystem of an Integrated MultiDimensional Holographic Universe SubSystem. Science, Anyone???

Examine the research on systems of belief and their effects in all times and cultures. Common bad habits include:

The Disbelief stall. People can't accept or even consider new to them info or technology that disagrees with their mind set. Habits, hypnotized into people, override scientific approaches in the face of evidence.

The Misconception stall. Operational beliefs based on untrue concepts. Bright employees learn this, are ignored, become disillusioned, then complacent, or leave.

The Unattractiveness stall. Ideas dealing with boring, mundane, or unattractive areas are ignored, just not dealt with.

The Communications stall. Messages are often not perfectly understood. Ideas are not

►► The roadblocks to redesigning systems for optimum effectiveness in all endeavors have been studied by geniuses. Workable approaches to succeed in changing any establishment have been developed. The most successful organization is performing below it's actual achievable potential. Correcting Cultural Blind Spots and lifting the general haze of indifference and ignorance from employees, management, and board of directors' eyes can result in massively greater establishment effectiveness, even in schools, governments,

implemented because of poor communications caused by different world views and lack of knowledge the presenter takes for granted.

"Everybody Knows the basic concepts needed to enable understanding this" is often not so.

Learn and use at all levels General Semantics, Active Listening, and Group Interaction research. Study today's literature in each field.

► Bureaucratic stalls. Streamlining required paper work and levels of approval is often necessary before ideas can be implemented.

► Procrastination stalls. Procrastinators believe that problems will solve themselves or go away. Not true. Intelligent action is always required.

corporations, and media. Our education, government, and social systems are negatively effective in most areas. Their failure to know, understand, and apply the forefront of science, knowledge, the actual state of the art in all fields costs all societies money and lives.

► Bringing together all of the powerful ideas and knowledge both from within systems and from the entire world can create the solutions educators, governments, corporations, families, and societies desperately need. Unless this is done very soon all of humanity face an

increasing rate of disasters that bids well to destroy most of humanity and its ecological foundation. Use foresight.

►► Call me about where to gather the evidence, research sources, references, how to verify it, Blind Spots in all Cultures and in All Systems of Education, Science, Governments, Corporations, Even in Our Best Universities, ignoring the increasingly urgent need to deal with all of the actual basic causes of each of our problems as an integrated part of an interrelated integrated sub system. Human Resources goofs worst of all. ► Do the obvious. Ask employees and students about their experience with stress removal, energy healing, auras, herbs, other Holistic Health elements and systems, and their knowledge of and experience with other cultural errors. Teach them how to correct Vision with Imagery and ask for feed back. See Health Vision and Health Sports articles on SA Web.

Implement a Natural Healing System Vegetarian Diet Prevention program to save 56% to 68% of health costs, reducing illness 76%-83%. Implement health problem prevention using the methods developed in safety training. Examine the obvious. Why do even the best Engineering and Science departments fail to

teach how to increase the rate of invention, the possibilities of breakthrough discoveries, the implications of Paradigm Shifts and the Seven Element Scientific Method on decisions, actions, and research and development in all fields? Creativity Enhancement is taught in art and music.

► Why ignore ten ways of becoming permanently free of stress? ► NeuroLinguistic Programing Imagery accomplishes this permanently in three to ten hours, one long day!

►►► We ignore two areas of physics and articles since 1987 indicating that an Oak Ridge type research project done with today's physics and other sciences will succeed in developing new sources of power from the underlying structure of matter within forty to sixty years, 1.6 trillion \$-Euros. This will require developing the next two levels of science. We took 1938 physics and developed nuclear bombs and power. We still ignore research on why we need to develop new power sources very soon, as our worlds oil and gas supplies are half gone by 2038, all gone before 2100.

Our best schools still ignore the effects of the mind on R & D in all fields, that physics proves that the experimenter is part of the experiment,

that belief systems, even subconscious beliefs, affect the results even in hard science areas, all eleven elements of the new scientific method, the effects of subconscious bias, and the actual design of the entire interrelated MultiDimensional Holographic Completely Integrated SubSystem on outcomes. They lack

►MD ‘Illness Care’ Systems aren’t Health Care. Correcting all of the basic causes of all mental physical societal health problems is far more effective, considerably more permanent, and much cheaper. Prevention is far cheaper in money, social costs, and human costs. “A Complaint Against Medical Tyranny As Practiced In The USA: American Medical Genocide” 42 pages was sent the UN Center For Human Rights at Geneva in 1984. Copies were sent to 450 in media, government, educators, and others. Brain washing works. No one examined the evidence, research, and references. Obtain a copy and read it carefully. The non profit that developed this could have added thousands of pages covering how Fascist methods are used to suppress science in health, how our governments were bought with payments under the table for 82 years and by

info on the 37+ studies of Natural Healing System Vegetarian Diet Prevention finding 56% to 68% lower health care costs, with illnesses reduced 76% to 83%. Apply Science to all systems, people, education, safety, long term human ecological survival, and planet Earth.

brainwashing to eliminate all MD competition, how they still take five types of payoffs, and how seemingly illegal court cases were brought against 981 MD’s and against others working with Alternative Medicine, 483 MD’s lost licenses. Talk with some of the attorneys who represented them. I did. Successful Alternative Medicine practices were closed, even with no complaints from clients. Herbal cures have been suppressed by the MD Mafia. Our antitrust laws are still violated. When the AMA was found guilty of conspiracy, antitrust, and restraint of trade in 1987, governments, educators and all firms should have looked carefully at the results, the ongoing antitrust actions, and other crimes. Examine the combination of brainwashing, management and cultural illiteracy in: science, ignorance of paradigm shifts, sociology, and history. We are ignoring

cause effect research, Eleven Elements of the New Scientific Method that are needed to optimize truly scientific research, and the lack of training in critical thinking that aided these disasters. Science requires that we work with the entire MultiDimensional Holographic SubSystem, designing research projects to benefit from physics and other research in our Holographic World. Our geniuses are still discounted as they have been throughout history. The proposal info sent to institutions, corporations governments, applies to all Universities, K thru 12, and preschool. All professors, teachers, and leaders must gain a very clear understanding of critical thinking, Cause and Effect in a MultiDimensional Holographic SubSystem, Cost Benefit Analysis, Cause Effect Relationships, the urgent need for a very accurate data base for decisions and action, the damaging effects of false assumptions, damages to long term human survival, and all that our geniuses have learned at the forefront of science, knowledge, and systems. Include stress removal, active listening, and training to increase the intuitive awareness of people and surroundings. All students must graduate with this knowledge. Decisions made on the foundation of information that has long been proven distorted, incomplete, or completely false are increasingly expensive and very damaging to cultures and to human and ecological survival.
