COVERUPS ILLEGAL IN GOVERNMENT, EDUCATION, MEDIA, & CORPORATIONS

Call Re: [www.serendipityassn.org](http://www.serendipityassn.org) 180+ articles on 35 Cultural Errors, Omissions, Fantasies.

Governments, Educators, Corporations, Media, Non Profits, all of our establishments still follow the ancient human habit of believing that establishments and authorities wouldn’t make major errors, or, much less, continue to go along with establishment’s information long after it has been proven false. There are 428 books by historians on how human governments and establishments

shoot down the whistle blowers and innovators, today as in the past, acting against people, environments, and long term human survival by going along with establishments, the Good Old Boys, in the face of evidence that they are seriously and very damaging wrong.

▶▶▶ Sociology research proved that Cultural Conditioning is Hypnotic In Character. ▶ That is why advertising sells. ▶ Only 4.6% of humans can even consider new info that conflicts with their basic beliefs, their mind set. Results: Cultures, governments, and individuals, given new info that conflicts with their mind set, system of beliefs, hide it, ignore it, discard it, distort it, falsify it, actually create false info to buttress

their position. This creates Major Crimes, Criminal Negligence, Errors, Omissions, Actual Fantasies, Three Types of Power Seeking, and Five Types of Greed by governments, educators, media, and key establishments. Results: Ongoing manslaughter, theft by deception in firms, health, non food sales, governments, mortgages, stock, deregulation, and genocide, and an increasing rate of destruction of Earths

Environment on which all life depends. These events continue to be the most damaging terrorism in USA history. These many crimes have been thoroughly studied. We know how and why they continue to happen, yet fail to correct the basic interrelated causes. Nine cultures have been studied that were free of violence, rape, and most other problems. Matriarchal cultures have proven to be far more effective at meeting the needs of people, ecologies, and planning ahead for future needs. We have the information and abilities to create sane societies that plan ahead for

We are far past the possibility of comfortable human and ecological survival, yet still act to make our situation far worse. Dr Milton Sauer, biology professor at UCSD, wrote in 1994 that Earth can only support 500 million in the 2100's. I also wrote this in 1998. Why? We will have no oil for agriculture. "They" aren't making any more. Recent research on weather changes found that crop weather will be far worse than experts expected in 2002. The current much faster melting of polar ice will raise ocean levels far more than the 5' recently predicted by 2100, perhaps 15', with 20' probable by 2130 or sooner. Read "With Speed And Violence" by Fred Pearce, 4/07, and the 12/07

long term human and ecological survival, yet fail to correct even the most obvious problems. Even Geniuses info is discounted and ignored in almost all fields when it conflicts with Mind Set. This is very damaging discrimination, costly to all. We take two to hundreds of generations to get new conflicting with beliefs info into our establishments. Governments classify info Top Secret when it indicates that government people made serious errors and/or committed or aided actual crimes.

Bali Indonesia world conference report. Note the chronology of past climate changes, and the research proving That Drastic Changes in Weather Patterns Happen in Ten Years When Trigger Points Are Reached. We must plan for sudden drastic changes in weather, not gradual changes. We forget the dust bowl caused by six years of drought in the 1930's, and the much longer droughts in many past centuries. Many cultures disappeared when water was gone. The Sahara was a thriving verdant green area for life from 11,000 years ago to 5500 years ago, when the climate slipped suddenly to drought. Desertification cycles from Africa to South America. There have been many droughts in western North

America, one from 1200 to 900 BC. Only 16,000 years ago there was 400 years of drought on three continents. We have failed to learn from weather history that changes have repeatedly destroyed human cultures. Weather changes now started will be far worse than most in eons. The percentage of Earth's land area stricken by serious drought has more than doubled since the 1970's, and is increasing. Only a thousand years ago the much smaller warming period caused western America's droughts of 200 to 400 years. We face far worse now. Examine the forefront of science research in each field involved in human ecological survival, very interrelated.

►It Is Far past Urgent to Reduce All Human Populations Over 93%, and to do this very rapidly. ►Our educator's complete failure to teach human dependence on agriculture, the urgent need to protect crop land from building and other destruction, the history of

►The rate of increase of CO<sup>2</sup> dissolving in oceans and lakes is increasing the acidity. ►Phytoplankton, the food chain base for all fish, will no longer be able to form their exoskeletons by 2300 or sooner, . There will be no more fish. This major emergency requires emergency action. All vehicles must be hybrid now. Cease

weather changes, their abruptness, their effect on humans, farms, and ecologies, and the urgent need to plan ahead, to keep in perspective the interrelatedness of humans, cultures, crops, ecologies, and weather patterns is extremely criminal. We Increase Populations and Build on Irreplaceable Crop Land, AS IF More Is Being Created. "They" aren't making any more farm land or oil.

►►Why destroy irreplaceable food sources? Prof Milton Sauer, UCSD Biology Dept, wrote in 1994 that Earth can only support 500,000 after 2100, the population of 1200 AD , with drastic weather changes and no oil for crops. Agriculture output will be drastically reduced with no oil and worse weather. We starve 1 B by 2100, six billion 2140 unless we drastically reduce people.

Our worlds best leaders turn a blind eye to the many disasters facing all humans and our interdependent ecologies.

production of all cars that can't get 50 mpg, with no sales of trucks or vans to any that can't prove a business need for such vehicles. Require that all personal and business vehicles be redesigned for maximum milage and safety, and be hybrid or better NOW. Any vehicle made now will be driven for 40+ years, not just a few. Why ignore obvious

disasters? Is greed far more important than people, ecologies, and survival for humanity?

➤➤ We do use oil for Agriculture!

Research reports possible solutions and partial offsets. ➤ There is a high probability of creating new power sources from the underlying structure of matter with a new Oak Ridge type project advancing the forefront of science for sixty years, spending \$1.5 trillion. This requires developing the next two to three levels of scientific knowledge. This is feasible when research addresses our Holographic SubSystem effectively, releasing the mechanistic illusion. Profit from many New Discoveries and Spin Offs will pay for this. ➤ All research must use All Eleven Elements of the New Scientific Method required by physics proof that the Universe is a

Read “Education Scientific Method”, “Agriculture”, and 190+ articles on web, no home page, full file names in index, 4<sup>th</sup> on list, incomplete. ➤ [www.serendipityassn.org](http://www.serendipityassn.org) .

A British group demonstrated that cumulus clouds could be made to disappear. Others have duplicated this. Physics explains why we can solve weather control. There are 639+ books by scientists, 86+ by Physicists, explaining why all we encounter is a

MultiDimensional Holographic SubSystem. Everything is a Completely Integrated Holographic SubSystem of this Universe. This enables solving problems and creating devices that aren't feasible from a mechanistic viewpoint. Electronics created tunnel diodes in 1948, only explainable by Quantum Physics. Wouldn't work IF system was mechanistic. Mechanistic world views were proven false since 1963. Research will be far more successful when we use all of the forefront of science and knowledge for all projects, use all of the full creativity enhancement training proven to drastically increase the rate of invention and the possibilities of breakthrough discoveries, and quit assuming that the world views of the middle ages are correct.

➤ Call re evidence sources, references, ideas, and critique. ➤ Help our “How To Make the World Work Project”. It's Broke.

Hologram that we and everything are an integrated part of, clarifying why and how we can solve new power sources, why we can gain control over weather, and why we may be able to solve elimination of any toxin, poison, and even nuclear waste radiation from

P 5 of 5 GOVERNMENTS & ESTABLISHMENTS MANY ERRORS, CRIMES, & GENOCIDE  
any area or object.

➤It is theoretically possible to eliminate radiation from materials, people, and areas. These research projects are very urgent, yet not started. Energy Healing, validated by 42 studies, will heal radiation victims and almost all problems now, with 53 studies proving viruses and bacteria are eliminated. Netherlands—75% of MD’s work with Energy Healers. Holistic Health is validated by 25 studies, will save 80%+, heal “MD Incurables”. yet the MD war against Alternative Medicine that paid Congress 82 years cash under the table to eliminate their competition keeps us from using the forefront of science in Health Care. Scientific research

and experience has developed the foundation needed to make these projects feasible now using the forefront of all of today’s science and knowledge working with our Completely Integrated, Holographic SubSystem. We fail to fix 22 errors in education. When fixed, we will create sane, non violent cultures. Many other new research projects are also needed. See our project proposals, evidence sources, and info on web ➤ [www.serendipityassn.org](http://www.serendipityassn.org).

It’s far past time to apply all of science to all research and projects of any nature, and to all education, corporate, and government systems.

➤It is very urgent to plan ahead for Eons in all that we do AS IF We Will Live on Our Very Small Planet Earth for many Eons. We act as if humans will only be here for weeks. We only encounter and work with Holographic SubSystems that are completely integrated elements of our MultiDimensional Holographic Universe. ➤When we work with parts of a system, we get unforeseeable results.

➤➤➤ Science applies to everything, even us, our ecology, planet and long term survival.

Sincerely,

Dr Douglas C. Hemstreet PhD
