"May You Live in Interesting Times" is an ancient Chinese curse. History is written about disasters, wars, and other destructive events. Times of peace and plenty go unrecorded. Humans fail to use the Forefront of Science and Knowledge in any field. We Ignore the many Lessons of History, Sociology, & Science! WHAT IF Our Geniuses Are Right??? Why Not Act AS IF They Are??

World Peace--World Holistic Health--Human Survival--Reform All 22 Errors In Education.

Stress Removal, Holistic Health Healing Safety, Security+ ➤Prevention Is Far Cheaper. ➤Stop The Ongoing Destruction Of Earth's Ecological Systems & Humanities' Ever Fainter Chances Of Survival. We are far past the point of being able to achieve comfortable survival. ➤Vested Interest Government's destroy children, women, men, & societies. ➤Humans failed Intellectual Sports. Government, DoD, 7 Admirals, Generals, 11 Inspector Generals proved unable to consider scientific research and the forefront of science. ➤Why ignore the tremendous costs of borrowing money to give away, or waste on boondoggles and wars?

Let's correct all of the actual basic causes of our many Very Interrelated Problems. Our summary of Geniuses info in most fields will enable solving or preventing almost all problems. Reduce accidents and errors 98% to 99.7%, use all of Holistic Health to heal all problems, most people, victims, and even heal

our many predators.

➤Solve Regeneration Within Seven Years, eliminate most disasters, violence, rape, starvation, crime, +. Develop sane, non violent cultures. Nine non violent cultures were studied

Boston police require Aikido. ► DoD, Pilots, Drivers Licensing, and Bicyclists ignore safety tools. We fail to teach kids safety. After dark accidents for bikes and street crossing find 90% in in dark clothes, invisible.

IF you work with part of a system, you get unforeseeable results. We can work with entire Holographic SubSystems. We even fail to notice major elements and interrelationships of our systems, the many lessons of history and herstory, sociology, geology, weather cycles, and what happens when science keeps proving quite wrong "What We Absolutely Know Is So". crop production drastically? Perhaps 500 million at the most if we do everything right.

►Promote using all Eleven Elements of the New Scientific Method and Four Design of Experiment tools. Work with Entire Integrated Holographic SubSystems. ►Establishments Suppress Innovation & Research Throughout History & Today, Still Shooting the Whistle Blowers. ►Why do people habitually believe that Science is wrong? How do we change these destructive habits? This is very urgent.

►Ocean's CO₂ increased to 377 ppm from 200 ppm since 1958. This continued increase will destroy phytoplankton, the food chain foundation for fish. No fish at some point, 2300's? Can genetic research redesign phytoplankton to survive with increased CO₂ in oceans and lakes???

►Challenge-Use all of our Geniuses Info to correct all Interrelated Actual Basic Causes of Problems.

►Food production reduction by weather cycles plus overpopulation is the most urgent emergency of the eight major disasters facing humanity. Plan ahead??? Or starve billions very soon? Anti abortion anti birth control killed half of the 18 million starved since 1893, and will kill 1+ billion this century, six billion by 2200. The Gulf Stream is slowing now, and may stop bringing warmth to Atlantic basin agriculture by 2400?, drastically reducing crop yields for all Atlantic basin countries. ►Crops are reduced drastically by weather cycles creating far worse crop conditions than Earth has had for eons. This is made far more disastrous with no oil for agriculture by 2100.

►Plan for No Oil after 2100. ►Farms Use Oil. Earth's Oil Is Gone by 2100. Weather cycles alone require reducing population below 2 billion. ►How many people can Earth support with no oil for agriculture, food transport, and food processing, with weather cycles reducing

Melting of tundra far more rapidly than expected, releasing vast stores of Methane, may create a feedback loop, melting tundra at increasing rates, speeding global warming. This has the potential of complete catastrophe for most life on Earth. This cycle happened twice before, destroying most life on Earth. This methane release feedback loop speeding Earth's heating may be irreversible if it continues at its present rate of increase. Plan to reduce it.

► An ancient Chinese curse "May You Live in Interesting Times" applies today. History records wars, turmoil, troubles, and disasters, not peaceful times.

The failures of government to eliminate all greenhouse gases will murder 1+ billion by 2100, six billion by 2200, perhaps almost all life on Earth. Violates Civil and Human Rights.

► Glacier and polar ice melting will raise ocean levels 9.6' - 11' + by 2100, 22' by 2200.

► Anti abortion is genocide of billions, as we lack sure birth control methods, none for poor cultures. Violation of Civil and Human Rights.

Women die in pregnancy and child birth in all cultures, one in nine to one in 2,700.

► Anti abortion is manslaughter of many

Cultural Psychology research on the Vested Interest Syndrome proved that only 4.6% can consider new to them info that conflicts

women. This violates their Civil Rights. Abortion is ten times safer than pregnancy and birth. Overpopulation starves 1+ billion by 2100.. ► All religions, non profits, governments, and people acting against rapid population reduction in any way are involved in genocide of humanity. Catholic's and other religions fail to Husband the Earth, killing many, and promoting genocide.

►► Breast feeding improves health of babies, children, and adults. Any action mystifying breasts reduces breast feeding and kills some babies, kids, and adults. We breast feed 40+. DeMystify Breasts. European Sunbathing areas, parks are topless. They breast feed 98%

► CO₂ Increasing in Oceans may destroy Phytoplankton by 2400. They are the Foundation for the Ocean Food Chain. ► URGENT Need-- Genetic Redesign of Phytoplankton for High CO₂ environments!!! ..► EARTH in 2100's can support only 500 million, if we are very lucky, with No Oil for Agriculture, Weather Cycle Changes, No Fish in 300 years. ► Starve 6 Billion by 2200 or Reduce All Populations 93% Very Rapidly. Which will we do???

▶▶▶▶▶ Scientists report “An Oak Ridge type project with today’s sciences can develop new power sources from the underlying structure of matter”. I estimate \$1.5 trillion max & 60+ years to solve this and many other projects. Start now.

▶ When we approach all projects as MultiDimensional Holographic Sub Systems that we are integrated with, we can accomplish

much that seems unlikely when we fail to address the actual design of our world and ourselves. This will improve R & D, Health, Safety, Security, Agriculture, Education, Homes, World Peace, Long Term Human and Ecological Survival, maybe even reform Governments. Let’s teach why we must plan ahead for 100,000 years and address all actual basic causes of our many interrelated problems. Add Critical Thinking. Use Wisdom to Act Ethically and Effectively. ▶ Why continue to act to destroy Humanity and Earth’s Ecological Systems???

▶ Why ignore Holographic Physics and research indicating solutions: new power sources, eliminate radiation, toxins, pollutants, control weather, solve regeneration and many other problems?

Humans developed the info and abilities to create warm, caring, effective communities in all cultures. Let’s do it now. ▶▶▶ Volunteer–Help Change Our World! Join Us. Save Lives & Suffering–Require Holistic Health Integration, Safety Training, & Rebuild Ecological Systems.

▶ PLAN AHEAD for Long Term Human Survival. Require all straw bale construction with fireproof exteriors, triple glazed windows, solar panels, and lowest possible energy use. Stop destruction by Vested Interests acting against the best interests of cultures, people, families, children, and Mother Earth. We have no place to move humanity to, yet we increase the rate of destruction of ecological systems and people, even build on crop land.

Tundra is melting at a rapidly increasing rate, releasing massive amounts of Methane, a far worse greenhouse gas than any other. A bacteria in rice fields creates and releases methane. ▶ Genetic redesign of people for empathy, intelligence, social cooperation, and long term planning is urgent.
