IF you check references and examine evidence this time, this info will enable applying all of the many lessons of science, history, sociology, cultural and social psychology to prevent and solve problems. Our governments act illegally against babies, children, women, men, ecology, and science throughout history and today. Humans continue to destroy Earth's environment even more rapidly. We are wiping out our increasingly very slim chance of survival. Help make long term human survival the first order of business for corporations,

educators, government's, and agriculture.

▶▶ Stop building on farm land. "They" aren't making any more. Weather cycle studies and experience show we need to plan for long droughts, more storms, and too wet conditions. Coastal areas will need massive desalinization plants for drinking water and for crops this century. Mountain snows are far smaller than previously. ▶ Long term planning, massive changes in habits, and reducing populations 93% are all very urgent for environmentally sustainable survival. Farms need priority on

HHS, and CDC lack an understanding of physics, so they discount the devices and ignore both research evidence and farmers experience.

Physics proved our universe is a MultiDimensional Holographic SubSystem. Everything on Earth is a Completely Integrated Holographic SubSystem of our universe. My education was physics, electronics, with wide ranging studies in most Sciences, Sociology, and History, . I examine information and

evidence very carefully. I check references. Geniuses keep proving that what we absolutely know is so is false. New info gets ignored for 2 to 100's of generations when it conflicts with beliefs. Mind Set takes precedence over science. Mainstream establishments make serious errors. ►► Research in Physics and other sciences indicate that it may be feasible to develop Radionic Systems to cover the world from one location. They have been Computerized by some firms to save time. This automates finding the correct frequencies for a new pest, virus, bacteria, fungus, or mold, to quickly and easily eliminate any biowarfare agent, to use many frequencies rapidly to cover many problems. The handbooks list known frequencies needed for any pest, viruses, bacteria, fungus, and mold.

Researchers, farmers, and USN proved that Radionics eliminates any pest, virus, bacteria, mold, or fungus in a large target area. They will eliminate imported and native pests, viruses, bacteria, fungus, and molds from any area. They can be programmed to increase soil fertility. Dear Governments, Agriculture, Forestry, Water Management, DOD, + Investigation Management,

For all Directors and Committees,

I offer you info and services. Help create Sane Societies & A Peaceful World.

We propose workshops on the Forefront of Science and Human Knowledge, the many lessons of History and Suppression of Innovation, Holistic Health, Safety, Security, How Cultures Work or Fail to Work to Meet the Needs of Children, Adults, Ecological Systems, and Human Survival, and the Sociology Cultural Psychology research on the Vested Interest Syndrome. In studying physics and other sciences I learned that to properly consider new to me info that seemed unlikely, it was necessary to examine the evidence, check references, and talk with those who have studied and are working with the new information. Scientific Research requires using all of the world's knowledge as a foundation, and very carefully examining all info that establishments tend to discount or hide.

There Are Eleven Elements of the New Scientific Method required by Quantum Physics. When we only use four, ignoring physics and systems research, we are quite unscientific. Add Four Design of Experiment Elements often needed to be fully scientific. Study why we ignore science forefront.

► Radionic Devices Offer Proven Solutions to BioWarfare, Agriculture, Education, & Research.

Examine and apply Physics proof that Reality Is a MultiDimensional Holographic SubSystem.

I grew up on grandmothers fruit farm. My dad was Traverse City Michigan County Agriculture Extension Director and the first District Horticulture Supervisor of ten counties

in the United States. My scientific education taught to deal with facts, not assumptions and information that research long proved false.

Consider that scientific research on systems proved that you get unforeseeable results when you work with part of a system. Physics proved we and Earth are Completely Integrated MultiDimensional Holographic Sub Systems. Science keeps proving wrong what we absolutely know is so! Sociology info will help everyone understand how and why humanity ignores major bodies of research and experience that will solve and prevent most of our

problems. "Not Invented Here" is inherent in many languages and cultures. 1 report cover-ups of major proportions and illegal actions by our establishments, caused by establishment brainwashing, scientific illiteracy, cultural lag, greed, fear, ignorance, arrogance, stupidity, humanities' inherent habit of going along with the "Good Old Boys", the Vested Interest Syndrome, 22 education errors, omissions, fantasies, five types of payoffs, and plain

incompetence. ► Cultural Conditioning is proven to be hypnotic in character. The AMA MD system's 1838 to present war against Alternative Medicine kept us from using science in health care, health research, and prevention. ► Our laws hold professionals liable for damages due to failure to use the state of the art, even if they don't know it. The legal bond of implied good faith, fair dealing, and the Deceptive Practices Act applies to these actions. This has been violated in many fields.

► Radionic Devices were validated by a 1984 US Navy research project, 16,000 farmers, and Appropriate Technology Transfer for Rural Areas. We and many others repeatedly gave Agriculture leaders the information on how and why Galen Hieronymus's 1940 to 1957 breakthrough invention of Radionic Devices eliminates the need for agriculture poisons and antibiotics. We seek grants of \$96 million to improve Radionic Devices, and expand range.

► Radionic Devices eliminate all insect pests, bacteria, viruses, prions, fungus, and molds they are programmed for from the target

► Farms are very dangerous places. Why ignore studies showing 98% to 99.7% less accidents and errors in the 32 study groups, and 25 Studies Validating Holistic Health as a System? In 1997 the President's Health Committee 23 person study of Holistic Health report "Holistic Health Is Valid, Integrate Holistic Health to Save Lives, Suffering, and Billions".

► This study was suppressed. I talked with the Health Committee Director.

area. They use a different frequency for each item. They will eliminate beetles, other insects, and infections that damage or destroy forest trees. Get the computerized models to save time.

►► Radionic Devices enable curing all infections caused by prions, viruses, bacteria, fungus, and molds by eliminating the infectious agents in the target area. They eliminate parasites. They can be programmed to improve soil fertility, increasing plant and soil health without fertilizer. Live soils create much more nutritious crops. Why these types of devices and other phenomena work has been explained in

books by 639+ scientists, 86+ by physicists. Science applies to research, agriculture, health, safety, education and long term human ecological systems survival..

Energy Medicine is Applied Physics, is Spiritual Healing. Physicists explain why the eight methods of Energy Healing, taught under 183+ names, will heal all damage, injuries, illness, genetic errors, to people and animals. I turned a breach baby with energy healing. Birth defects have been healed. In the Netherlands as 75% of MD's work with Energy Healers, Applied Physics, validated by 42 studies.

►The 42 studies validating that the Applied Physics of Energy Healing heals all problems, with 53 studies proving that viruses and bacteria are eliminated. Radionics will reduce farm costs 17%-22%, and with all of Holistic Health reduce health care costs 80%+, 56% to 68% with Natural Healing System Vegetarian Diet Prevention, 37+ studies, and with 76%-83% less illness.

►There are 32 studies proving that training in Yoga, Tai Chi, Meditation, and Aikido reduces accidents 98% to 99.7% and 38+ studies show this reduces errors 96% to 99%. Studies have been in

►►Our agriculture departments flunked physics proof that Earth is a Holographic SubSystem. They've lied to the courts, telling them that they

US literature since 1938, yet are still ignored. These tools will save money and lives. Why no response or action? Agriculture and forestry accident rates are high. Failures to notice and use the forefront of science and knowledge are illegal and unethical when they result in deaths.

►Even FBI and CIA agents ignored this easily verified information. These coverups require action by Justice Department, States Attorneys, and UN. Start investigations! I offer you the information, reeducation workshops, and consulting services you desperately need to change government and agriculture management's inability to understand that science applies to all we do, and that Physics applies to Agriculture, Forestry, Health, Research, Creativity Enhancement, Error Reduction, Stress Removal, Violence, Safety, Awareness of Danger, World Peace, Homeland Security, and Long Term Human Survival. We can heal victims stress in one 3-10 hour day with NLP, healing almost all perpetrators within ten days. Energy Healing enables healing all mind problems. Perhaps even Congress's problems with using Mind?

have checked all alternatives to spraying pesticides, when they failed to investigate the scientific studies and experience proving Radionic Devices very

effective. They actively suppress Radionic info. Radionics works with Eloptic Energy structures involved in the basic design and operation of our MultiDimensional Holographic Universe SubSystem. ►► Acres USA has published articles on these devices. There are seven+ manufacturers, one in England. Research in modern physics and other sciences explains them. There are 639 books by scientists, 86 by physicists, explaining the phenomena involved in these devices, in the Applied Physics of Energy Healing, validated by 42 studies, and in Pyradyne Inc's devices. Talk with some of the 16,000+ farmers using these devices. Ask the USA military to declassify and release the studies by military on nine+ psychic research projects, six by Duke U, which studied devices also, validating C. Galen Hieronymus's 1940-1957 invention of Radionic Devices. ► Appropriate Technology Transfer For Rural Areas reports Radionics valid-800-346-9140 CT Fayetteville, Arkansas. They have 17 different divisions with much info on better ways to farm. They are funded by a grant from the USDA Rural Business Cooperative Service. ► Eliminating all poisons from bees environment will improve the health of bees, beekeepers, and farmers. Radionic Devices will

eliminate any mite, pest, fungus, mold, or infections injuring bees health.

George Kuepper was ATTRA's expert on Radionics. ► Radionic devices were validated by a 1984 USN research project, 16,000+ farmers, and Appropriate Technology Transfer For Rural Areas, 800-346-9140. George sent me his 52 page article on Radionics. ► Available 2008 George Kuepper E mail info@ics-intl.com his International Certification Services Inc, Organic Certification. 301 5th Ave SE Medina ND 58467 701-486-3578. Agriculture and forestry management, USDA, DoD, HHS, and CDC lack an understanding of physics, so they discount the devices. Ag 'experts' ignore research evidence, physics, and farmers experience. ►►► Call farmers, manufacturers, associations, and researchers, that work with and study these devices.

We seek ideas, aid, partners, and funds to research and produce improved Radionic devices. Research in physics shows that it's feasible to develop improvements that will

extend range and enhance use. We can use Holistic Health and Energy Healing info to improve operator training. ►Physics indicates that we may develop Radionic Devices to get world coverage from one location. Solve these projects for \$95 million in six years. ►It is urgent to develop devices to eliminate toxins in food and water. Improve humanities increasingly slimmer chances of survival by using the forefront of science to reduce our energy requirements, improve food quality, drop our farm costs substantially, 17%-22%, and improve health. Correct our major errors in agriculture, safety, education, nutrition, and health. The forefront of Holistic Health and Natural Healing System Vegetarian Diet research shows clearly that agriculture bulletins on nutrition and health include much incomplete, false, and distorted data. They ignore many studies of Herbs, and Natural Healing System Vegetarian Diet Prevention reporting 56% to 68% savings, with 76% to 83% less illness in study groups. They ignore 25 studies validating Holistic Health, the American Holistic Medical Association, A.H. Veterinarian Association, scientific research in many fields.

►Vegetarian diets with whole grains improve health, longevity, and stamina. White bread is proven to cause two illnesses, and is a factor in hundreds. ►We are not designed to eat meat. Meat is a major factor in health problems, increasing heart trouble, diabetes, cancer, stress, and violence. ►Soy beans require 32% less water, are a much better, more complete protein source, and have anti cancer properties. Sprout 3 quarts of soy beans, add lots of onions. Cooks up 20 quarts. Mix in a #10 can of tomato paste after cooking to avoid scorching. Freeze. Buy from oriental restaurant suppliers and others who have 20 Oz Tofu at better prices. Tofu has nutritional advantages. ►Growing soy bean protein will reduce water use. Raising animals for Meat requires 32 times more water for each kilo of protein. ►Learn why there are books on the Diseases of Civilization. Study. Agriculture “experts’ ignored devices speeding plant and tree growth 3-8+ times. Pyramids speed plant growth and healing three times. The 2003 Laser OmniOrb from Pyradyne Inc, LA. has 163 times the energy output of a standard pyramid, Valuable tools for research, education, to speed healing, plant growth, and

lab cultures. Research may make it feasible to develop devices that will cover vast areas of our planet. Aid grants to research new products that will speed plant and tree growth, improve soil health for large farms, and for forestry.

I propose workshops for boards and all key people to acquaint them with the forefront of scientific research in each of these interrelated fields that affect all areas of agriculture and forestry: safety, planning, production, genetic research, nutrition, food distribution, and health. Optimizing and using these tools will enable far more effective new food plant development, improving food plant's effects on health enhancement, and plant's resistance to salinity, drought, hot, cold, and wet weather. Genetic plant improvement research will benefit greatly by using the research tools and training that increase the rate

We ignore climate projections of 31,000+ years of warmer weather. This will include cycles, with periods substantially drier, much wetter, hotter, and, maybe, colder. This current warming trend started in 940AD, speeded up in 1780. There will be new ice ages in 25000 to

of invention, and by using all Eleven Elements of the New Scientific Method required by today's sciences. Researchers will deal far more effectively with our entire MultiDimensional Holographic SubSystem using all we know about working with and changing the characteristics of any element of our Holographic Universe. Research in physics and systems applies to plants, animals, weather, water sources, and our entire planet Earth. Physics research indicates we may successfully develop Fire Damping Devices, that we can solve Weather Control. An Oak Ridge type project with today's physics may find new power sources from the underlying structure of matter within sixty years and \$1.7 trillion, developing the next two levels of science.

The spin offs will pay for it.

90,000 years. Our planet can only support about 500 million if we are very lucky. All resources are limited. Water tables are disastrously low in the Americas and in all continents. Droughts and floods will both be far worse in future centuries and far more widespread.

Overpopulation is destroying ecological systems more rapidly each year, and starved nineteen million since 1894, nine million+ as politicians and religions kept USA out of international population control. Experts predict One+ Billion will starve by 2100. Six Billion+ will starve by 2140 unless we rapidly reduce all populations 93%. Disinformation and deliberate waste is fraud. It creates events killing millions now, and will kill billions later. This is Genocide of Humanity! Our very small planet Earth has very limited and very overextended

This psychological discounting and ignoring of major bodies of scientific data, greed, ignorance, and arrogance are a major factor in these many thefts by deception. We are ignoring the lessons of the suppression of innovation throughout history, Sociology Cultural Psychology research on the Vested Interest Syndrome, major scientific research in many fields, design of experiment, Eleven Elements of the New Scientific Method, mind set bias effects on research and evidence evaluation, greed, ignorance, stupidity, and arrogance. ►Our agriculture ‘experts’ are

resources. Genocide is illegal.

We are out of oil by 2100. All other fossil fuels will be gone soon after. The Bible says to “Husband the Earth”! Earth had few people when one wrote “Be fruitful and multiply”, which doesn’t apply to an overcrowded very small Earth. The Creator is teaching us to Reduce Populations rapidly and cherish ecological systems. We fail to listen. Why pick massive starvation and ecological destruction???

making eleven+ very expensive basic errors, violating the Deceptive Practices Act in still lying to farmers about need to spray. Radionics eliminates use of sprays and fertilizers.. Failure to use all of the Forefront of Science info is extremely expensive. ►►Scientific Knowledge increased 140 times in 30 years! Science keeps proving wrong ‘what we absolutely know is so’! We are still the same people that took 56 years to adopt Dr Lister's Asepsis discovery after ostracizing Dr Lister for daring to say “Asepsis is important”. We still discount phonics. We fail to correct 22 errors in education, 14 in formal

Ed. Why ignore stress as a factor in teaching and learning, and ten ways to get teachers and students free of stress??? We fail to learn the lessons of history and herstory, ignoring 428 books by historians on establishments shooting Innovators and Whistle Blowers. We don't plan ahead for a survivable future for humanity and all life forms on Earth. We are interrelated, interwoven with all life as a interdependent earth ecological system. We are very far past any possibility of comfortable human ecological system survival. We still increase the rate of ecological destruction more rapidly each year..

► Thefts of the basic viability of Earth's ecological systems is more disastrous each year. Our farmers and citizens need the best tools and info we can give them for all areas of their lives. Tell them how to reduce accidents 98% to 99.7%, save 80%+ on health care, and heal or prevent most of the problems our MD's say are incurable. Most Alternative Healing, Herbal, Naturopathic, and Oriental Medicine schools teach how to cure arthritis, diabetes, cataracts, and other problems using Biological Medicine, Bio-Nutrition, Herbs, and Energy healing. They use Science instead of Fantasy! Most Public

Health grads know this works, 8 of 11 I talked with knew that arthritis and diabetes are curable. We ignore allergy info:: cows milk 93%, wheat 2%, meat 100%, hydrogenated oils 100%. Sugars have been proven to be very bad for us. Whole grains are urgent. All animal milk is mucus forming, and should not be drunk after weaning from breast milk. ► Mother's milk creates healthier babies, children, and adults, reducing illness and fatalities. ►►► Any actions that reduce breast feeding will kill some babies, children, and adults. Act to demystify breasts. Follow Europe's habit All sunbathing areas are topless, so 98% are breast feed. Babies are healthier. USA only 40% breast fed. Stop all media sexualizing breast. Breasts aren't sexy. Studies of life energies show a tremendous life energy flow at nipples, so nursing babies get a life energy flow which helps with health, bonding and attunement with mother, and aids stress removal. Cows milk interferes with early childhood development. The nutrient design is not correct for humans, creates overweight babies lacking immunities and health..

Breech babies can be turned with energy healing. I did this once. Birth defects, genetic

anomalies of any nature, can be prevented before or healed after conception, identified and healed using very intensive Energy Medicine and all elements of Holistic Health after conception or after birth. This is easier earlier, but feasible later.

The Tower Device makes plants and animals healthier and calmer for a 2500 acre radius. They reduce birth defects in all animals, bees, and plants. Energy Medicine works with the physics of bodies, which are Holograms, recreated 438.69783 cycles per nanosecond. This enables changing genetic designs, eliminates all birth defects, injuries, and illness. Physics proved that this works because we, Earth, and everything are Holographic Energy SubSystems that are indeterminate, mind stuff. A Nobel Prize winner Physicist says "Everything is Mind Stuff". Instrumentation shows Acupuncture Points, Meridian Lines, and Chakras. Kirilian Photos show the Aura. One % of adults, 5% of kids, can see Auras.

We must shift to soy and grain based milk. We tolerate goats milk somewhat better

than cows milk. Both are mucus forming. We are designed for no milk after weaning. Mothers milk is far better, improving health for life. Promote breast feeding and de mystify breasts, which are not sexy. Breasts are designed to feed babies. What is sexy in people is personality, eyes, face, intent, and chemistry, whether they click with us. Add Intelligence.

►Tax white flour and white rice \$15.00 per pound to aid health. Meat eaters digestive systems and teeth are different. We are omnivores, but basically designed as vegetarians. We improve health, increase stamina, and reduce illness 76% to 83% on well balanced Vegetarian Diets with vitamins including B12. ►Soy beans are a much better balanced protein source than meats, produce far more protein per acre than meat using 1/32nd less water, and are far less destructive to ecological systems. Better nutrition with anti cancer properties is needed. Soy milk, tofu, soy beans have anti cancer properties. Add Omega 3 fish oil, E, multi mineral vitamins to aid health.

Rebuild soils and shift to organic farming.

Farming that doesn't continuously improve soil

health and fertility is unethical and destructive. Organic produce from rich live soils improves health and longevity. Plan ahead for a hundred thousand years in our use and treatment of agriculture land. 'They' aren't making any more. It is urgent to protect all viable farm land. Build cities, homes, business, and factories only on non agriculture territory. Require all homes and buildings to be straw bale construction, fireproof, triple glazed windows, automatic steel shutters with APC universal power supply battery to close automatically for fire and storms, which can eliminate wired power, solar powered, low energy use, low maintenance, and ergonomic designs. Humans ignore important info in many fields. We are still a pre-scientific culture! We still ignore 56% to 68% savings on illness costs, 76% to 83% less illness, increase in stamina, proved feasible by 37+ studies of Natural Healing System Vegetarian Diet Prevention. Examine why we ignore Medical Anthropology and Sociology research. The 25 studies validating Holistic Health Systems research show 80%+ savings and the ability to cure all problems! These tools will prevent 76% to 83% of illness, reducing birth defects

dramatically. Holistic Health, Energy Healing, and BioNutrition can eliminate all birth defects.

Our Health Enhancement writeup on Web needs to be optimized and expanded for all in food and agriculture. ► Sane cultures would use prevention on all problems. We fail to apply preventive methods on major problems :health, safety, errors, fire, rape, crime, war, violence +.

► Psychotronic Radionic devices are manufactured by 7 firms. The original firm was Advanced Sciences R & D, Founder C. Galen Hieronymus, the inventor of Radionics. Two Associations in USA & Britain deal with this type of devices: info from Psychotronics Association & Journal, 262-742-4790, PO Box 45, Elkhorn, WI 53121, Borderland Sciences Research Association Journal. Pres. Tom Brown, 707/986-7211, PO Box 429 Garberville CA 95440. Call these now! The Uckako Radionic device studied by the US Navy in 1984 proved successful in eliminating pests Radionic Devices can be programmed to improve soil health and fertility, eliminating fertilizer needs. Organic farming improves soil and plant health. We ask you to check evidence and references, talk with some of the 16,000+

farmers that are using these tools, and bring the forefront of science into all agriculture systems in the Americas and all of our world. I've talked with farmers and researchers using these. All with buildings, zoos, parks, crops, and people need Radionic Devices and Towers.

Let's go over the info, evidence sources, and references on web. Our geniuses info is needed by all farmers, parents, kids, babies, women, men, business, researchers, educators, investors, decision makers, building managers, and governments. The Health and Safety info will save lives, suffering, and trillions of dollars. The evidence shows major crimes against all babies, children, women, men, firms, and budgets. The overpopulation ecology water supply weather cycle crop land info is urgently needed for long term planning. Fresh water is in short supply worldwide, with over 54% lacking potable water. Earth can feed 500 million people, if we are very lucky, as planet Earth goes through warming and eventually cooling cycles and ice ages. Ecology systems are being

Natural Healing System Vegetarian Diet Prevention studies find they save 56% to 68%

rapidly destroyed by overpopulation now. Over 19 million people have starved since 1894. The primary cause is overpopulation, expanding beyond the very slim ecological niche that supports humans. Many cultures disappeared when droughts hit them. Predictions are one+ billion will starve in this century, six billion by 2140 with no oil for agriculture and weather changes. Republican's 100 year campaign against birth control and abortion was the direct cause of starving eight+ million. These actions are Genocide. Any nation, religion, group or person not aiding maximum application of birth control and abortion to drop population levels 93% rapidly is involved in genocide of billions, and the murder of the many women who still die in pregnancy and childbirth. They aid the rapid destruction of Earth's ecological systems, and they ignore God's teachings. Major crimes. We are told to Husband the Earth. Instead, we rapidly destroy the once flourishing ecological systems that all life depends on.

on health care costs, reduce illness 76% to 83%, reduce agriculture water use 64%, improve

stamina, reduce wrinkles, and decrease aging rates. This also helps relieve ecological pressures. Growing soy beans and other high quality plant proteins takes only 1/32 as much water and energy then meat animals. Please help correct these errors, aid all farmers, improve safety, tell everyone Holistic Health heals all

'MD Incurable' health problems, helps improve our food supplies, improves our increasingly slim probability of human survival, and helps save our environment!

► Help stop the costly and injurious ignoring and suppression of major scientific research.

Let's set up demonstrations in each of these fields. It is way past time to fully apply the forefront of science and knowledge to all that we do. We already are far past the point of comfortable human survival. Why continue to destroy our already slight remaining chances of survival? We still increase the rate of destruction more each year. Space photos of Earth show this.
