Solutions In Science, Sociology, + the Many Lessons Of History & Herstory

Why We Urgently Need Intellectual Audits is clearly shown by research on the forefront of science, knowledge, sociology, and the lessons of history. Act ethically. Study and publicize the effects of greed, arrogance, ignorance, cultural blind spots, 19 education errors, 35 cultural errors, omissions, and fantasies identified by geniuses, and the Cultural Psychology research info on the Vested Interest Syndrome proving that only 4.6% of people are even able to consider new to them info that conflicts with their mind set. Help establish media, government, and education policies to check references and examine evidence of errors, omissions, and fantasies. Correct all serious errors of fact and science. Tell all of the truth. Tell the whole story. Investigate who disagrees with establishments, why they disagree, and examine the evidence. They are often right. Make sure establishments info hasn’t been proven false or distorted by research and experience. Use the history and sociology studies in 438+ books on the suppression of major ideas and research throughout human history, today as in the past. Corporations have done intellectual audits, but missed the damage done by basic false assumptions in their culture. GIGO is costly.

Cultural Blind ‘spots keep us from using geniuses info in planning, research, decisions, and actions. A major sellout of military and others by Government, DoD, CIA, FBI, and media is their refusal to even consider scientific research info from us and others on training for

They ignore research on the Cultural Psychology and History of Islamic Societies, why Regeneration research will succeed now, how Holistic Health has already proven able to heal all victims of war, accidents, illness, mind body traumas of any nature, even Gulf War Syndrome. Science explains why these tools work, and why we can develop devices to eliminate nuclear radiation and other toxins from wastes and areas, heal damage to people's minds and bodies, create new power sources from the underlying structure of matter in 60 years for under \$1.5 trillion with an Oak Ridge type project with today's sciences, and correct all of the actual causes of crime, war, rape, and

Let's discuss major issues still neglected by our best universities. I joined MENSA, studied electronics, physics, and other sciences in school, read widely in many fields: Cultural Psychology, Sociology, History, and the fascinating stories of major human errors throughout human history. I had 53 books critiquing education before I gave away 1,500, only 4000 nonfiction books now. I ask that you personally check out references on fraud in the health field and the nineteen educational errors involved in our ignoring this and many other major errors. All problems in our culture were created by the actions and omissions of 'educated' people. Somebody "Out There" didn't step in and create our difficulties. Our establishments still address symptoms instead of all of the basic causes of problems as interrelated systems. The 1838 to present war against Alternative Medicine is reported in 212+ books. Congress was paid 82 years under the table by MD's. There are five types of payoffs. I have the illusion that when world leaders find out that Holistic Health can cure almost all problems except political stupidity, we can correct all nineteen errors in education. This will enable the development of fully sane societies before we self destruct. Current overpopulation is destroying ecological systems, and will doom billions to starvation as weather cycles continue hotter and colder. This has eliminated humanities' chance of comfortable survival, and is made far worse by the end of oil by 2100. We are not addressing these problems.

It is important to bring together humanities' geniuses in each field who are knowledgeable about the forefront of science, systems, human knowledge, habits, and the ignored lessons of history and sociology. Let’s discuss human errors, basic needs for education reform, the tremendous advantages of a broadly educated citizenry that actually understands the lessons of history, cause effect relationships, their world as a MultiDimensional Holographic SubSystem, and the many changes and actions needed to create survivable societies and a world with sound ecological systems. Creating true small communities in all city and rural areas will help people. ►We are far past the point of achieving comfortable survival for humanity and our ecological system that is the foundation for life. Pictures from satellites show an increasing rate of destruction of ecological systems. Examine what is needed to reduce world populations 93% to avoid starving six billion people 2100 to 2400. We fail to take the actions needed to correct the actual basic causes of the seven major disasters facing humanity. We are learning how urgent it is to plan and act for long range human survival. We still act to make our future far worse.
