Dear Board, Officers, and Inspector General,

The first firms to correct cultural errors that cost money and lives will gain much free, favorable publicity, save money, and improve sales. Address education errors, Physics requiring eleven elements of a new scientific method, health care fraud wasting 80% of health dollars.

➤➤➤Hard drive data security is important for business, education, R & D, and everyone. Gain sales by promoting for all customers Raid Computers, as hard drives are guaranteed to fail twixt minutes to six years. Loss of work and student info is costly, yet none promote Raid mother boards and two drives. Publicize Readability for all media, the advantages of ergonomic keyboards, roller ball mice to avoid wrist, hand, health problems. ➤Advise optimum monitor size, 22"? 25"? 30"?. Is 30" advantageous: writing articles, internet, web page, web research???

Offer info and CD stress removal training and error reduction training to eliminate costly errors. People internalizing stress cause 72% of the accidents, make 93% of the errors in Firms & Life.

These proposed actions will gain publicity and increase sales by meeting people's needs.

ability to see each color and to perceive under all conditions is thoroughly studied. Printing Research on Readability finds that dark brown ink on light tan paper is the most readable. I have a book on printing that is printed that way, eliminating white paper glare. Any print on a dark background is hard or impossible to read. Red, light orange, salmon are far worse. Learn why ads, book jackets, articles, software, and ads are often unreadable without bright light and a magnifying glass. This reduces book sales, ad effectiveness, article communication, and the usability of software. ►Why does Microsoft install with a gray background? Most XP background color choices are far too dark for print readability. Why make software very hard to use or to evaluate for purchase? Help fix these massive, ongoing, clinically insane errors.

►Examine why HP didn’t use their tremendous engineering design reputation in instrumentation to market their excellent computer products. Many engineers and scientists specified their instruments. They were the best in the industry for many years.

Errors are expensive and annoying. There are 32+ recent studies of training methods that increase intuitive awareness of error, best action, and danger, in US literature since 1938. This training will reduce errors and accidents for computer users and researchers 96% to 99.7%, reduce software development costs 5%+, reduce bugs, errors, increase the rate of invention, the possibility

of breakthrough discoveries, and improve R & D and products in all fields. Study groups doing Yoga, Meditation, Tai Chi, and Aikido had 98% to 99.7% less accidents, 96% to 99% less errors on the job and in life. Yoga is a basic foundation. Help get this training required for all drivers, students, kids, software developers, sales, tech reps, R & D, pilots, and ATC. This aids learning, and will reduce violence in schools and cultures. People that do not internalize stress will tend to be non violent, and are far less likely to be bullies, criminals, rapists, or violent.

Kennedy U and other schools teach Imagery NeuroLinguistic Programing to permanently eliminate the actual basic causes of stress internalization in only three to ten hours in almost all cases. Transpersonal Psychology increases effectiveness, aiding security.

All victims of childhood trauma, violence, torture, war, rape, torture, accident, fire, crime, losses, and other disasters heal completely and quickly with NLP. We can heal most perpetrators with Holistic Health. Kennedy U has Holistic Health degrees. Add intensive work with Energy Healing for difficult cases.

There are ten+ methods to get free and stay free of stress. They are all proven effective.

Achieve freedom of stress, increase creativity, awareness of best action, error, and danger, reduce accidents and errors 96% to 99.7%. This reduces software development costs 5%-11%+, improves research results in all fields, and reduces costs in many areas.

►► Improve education by correcting all 22 errors, omissions, fantasies. Gain better hires.

Buggy and incompatible software costs business and countries billions of man hours and dollars. Downloads with no or inadequate info on purpose, value, and megabytes waste time and drive space. I challenge the industry

Total costs to societies, corporations, families, children, to all people, of our failing to use all

Holistic Health has now been proven valid by 25 studies in 19 countries. The German study is through. India integrated Holistic Health into all medical schools-1992, and is slowly moving it into the entire health system. Our USA failure to integrate Holistic Health is illegal, violating both Human Rights and Civil Rights, and is killing thousands unnecessarily early daily. India and the Netherlands have been more effective in evaluating Energy Healing, which works with the body as a Holographic Energy System that physics proved flickers in and out of existence. There are 42 university studies since 1956 agreeing that Energy Medicine is effective on all mental physical health problems without exception, on almost all people, when effective healers are persistent. There are 53 studies since 1947 finding that Energy Healers eliminate all viruses, bacteria, prions, mold, and fungus. The Netherlands licensed Energy Healers in 1947. all 22 errors in education, 14 in formal education, 8 in informal education. We seek equipment, offices, funds, and staff to raise the millions needed for effective action. It will take \$180+ trillion spent by many groups and countries to achieve worldwide success and peace in all cultures within 150 years, improving human and ecological survival. This is now increasingly very unlikely. The Past Is Prologue. History indicates long term human survival is doubtful.

Science has passed us by, proving wrong what we absolutely know to be so in many fields. ► Discoveries in science will soon enable developing weapons systems that will make nuclear bombs seem like popguns. Warming cycle studies prove that our planet can only support one billion people if we are lucky. We cut population levels 93% rapidly, or destroy all ecological systems and starve billions. Water tables, river and lake levels are dropping in many areas. Less than 45% of people have safe potable water. Earth's ice

We even ignore research in physics showing possibilities of New Power Sources. Nuclear power was developed with 1938 physics. An Oak Ridge type project based on today's sciences may well solve our power needs and develop valuable spinoffs. Articles in science journals show that we may be able to develop new power sources from the underlying structure of multidimensional holographic matter. This can be done within 60 years for under \$1.8 trillion. Genetic research can enable growing oil for lubrication, but weather cycles, climate changes and food needs show we can't spare

caps are melting faster. Mountain snow melt is less each year. ►► Current overpopulation levels are destroying ecological systems at an increasing rate, increasing stress, violence, war, and starvation. One half of the world's oil is gone by 2036, all by 2100. 'They' aren't making any more. ► We use oil for crops. Without oil, Earth can support only 500 million maximum. It is far past time to plan ahead for 100,000 years.

crop land to grow fuel. Develop fuel source plants that grow in deserts, oceans, and salty soils. Physics research offers clear possibilities of removing all greenhouse gases from our atmosphere and removing all toxins from all environments. Physics indicates that we can control weather and dampen fires with devices and trained people now. Devices to neutralize nuclear and toxic wastes seem very feasible. We seek grants and partners for 53+ projects. Only IF we use all of today's sciences can we solve how to prevent the many disasters facing humanity and Earth.

We are so scientifically illiterate that we aren't backing needed research in many fields, even long term human survival.

►► We Are Very Far past the Point of Achieving Comfortable Human Survival.

Major Research is needed to bring together all of the world's herbs and evaluate their effectiveness individually and together. We can develop more effective formulas

combining herbs from all cultures.

We can eliminate over 90% of pharmaceuticals and 85% of Allopathic Medicine with well designed Holistic Health Systems. Using all of science on any problem as an integrated system is far more effective and far cheaper. Prevention On Any Problem Is Always Far Less Costly.

We must plan ahead for one hundred thousand years for human and ecological survival, instead of a few days. Our complete failure to plan for long term human and ecological needs is disastrous.

We ask your recommendations for our board and advisory board. Call me about evidence sources and references in each field. Use all of the forefront of science and knowledge to aid your firm's effectiveness. Use Imagery NLP Stress Removal and Stress Prevention. Examine the depth and breadth of our many expensive failures to recognize and use our geniuses many discoveries.

Let us begin helping people, cultures, and business with the forefront of science and human knowledge. We either create sane effective peaceful survivable societies, or continue our headlong rush to destruction, ensuring a very troubled future for the few survivors.

Why continue this rush to destroy Earth's ecologies and to destroy Homo Sapiens???
