➤ SCIENTIFIC METHOD--REDEFINED IN TERMS OF 21st CENTURY SCIENCE

The basic four or five elements of the scientific method are very simple, but we have failed to examine them carefully in terms of the forefront of today’s knowledge of science and humanity.

Inherent False Assumptions, Research In Physics, Science, & Sociology Make These Five Inadequate!.

1 State the problem. Examine all of the parameters, systems, and interrelationships involved.

2 Make observations. Examine the system and all of it’s elements very carefully.

3 Format hypothesis. Make sure you are taking into account all elements of problem and system.

4 Do the experiment. Work with All of the Elements involved in the entire system.

5 Draw a conclusion. Carefully examine all of the interrelated data.

➤ These are only the Basic Foundation for an Urgently Needed New 11 Element Scientific Method:

➤➤➤ Eleven Plus Elements of the New Scientific Method Are Required By Physics Proof That Earth, Us, & All We Deal With Is a Completely Integrated MultiDimensional Holographic SubSystem of our MultiDimensional Holographic Universe. This Basic Information Is Still Missing In Scientific Education & Practice Today. ➤ Our best universities ignore 35 Cultural Errors, Omissions, Fantasies, Cause Effect, Cost Benefit Analysis, Problem Prevention. Examine missed opportunities, damage, and losses when information on the actual design of the entire subsystem is ignored. Science anyone???

Systems Research proved that when we work with part of a system, we get unforeseeable results. Experts found the data valid in all nine projects. DoD failed to use it, and didn't study experts experience or findings. Uneducated brass discounted info and cancelled research 3-02.

►We Act AS If our world and ourselves are far different then science has proven both to be. ►This meets the definition of clinical insanity. No sane race would do what humanity does. Decisions made on the basis of false info, fantasy, and greed are proven even more destructive to humanity and ecological systems each year. We ignore weather change research. Why? IF we are very lucky, Earth may support 1.5 billion in the near future just on weather cycle changes. No mountain snow melt for water supplies. Desalination plants are urgent for both coasts and other areas. Droughts increase. We will seldom have water from mountain snow melt. We ignore drought pattern histories and studies.

►Examine why simple cause effect studies, cost benefit analysis, interrelationships, sociology, science, the many lessons of history, and long term planning for survival are ignored. Our world system is far too complex to allow any uneducated decision makers and uneducated, careless staff. Science, ethics, and sanity requires urgent planning for long term ecological and human survival.

►Help get everyone using all Eleven Basic Elements of the New Scientific Method, Four Design of Experiment Elements Often Needed to Be Fully Scientific, to think in terms of Whole Systems, Science, Cause Effects, Cost Benefit Analysis, and plan for long term human and ecological survival. Our continuing to keep and apply our present destructive habits destroys ecologies, cultures, and humanity more each year. We use the wealth of nations and planet for destruction of people, crop land, cultures, natural and irreplaceable resources, ecologies, and our future. It is proven very destructive to create people and cultures lacking any basic understanding of reality. We fail to identify and correct fourteen errors, omissions, and fantasies in formal education, and eight in informal education. Leaders, Sociologists, Educators, Engineers, Scientists, and Software people aren't taught the Eleven Elements of the New Scientific Method required by our Holographic Universe, how to use Creativity Enhancement + Error Reduction Education to

►►►►We Have Completely Destroyed Any Possibility of Comfortable Long Term Human Survival. We continue to increase the same actions that have severely damaged human and ecological survival. Why continue this ongoing war against planet Earth? Examine why and how we continue to act to destroy resources, ecologies, and much of humanity. ►IF actions fail to work, people habitually do more of what is proven ineffective. ►It Still Doesn't Work.

We fail to teach all of the forefront of science, or even a clear entire systems overview, to scientists, researchers, engineers, educators, media, publishers, film producers, leaders, staffs,

and citizens. The history of science in 231+ books shows that science establishments almost always suppress any new information conflicting with habits of thinking.

► Tremendous legal liabilities and massive destruction are created by leaders increasingly deadly failures to teach and use all of the forefront of science, sociology, history, and knowledge which requires working with the entire Integrated MultiDimensional Holographic SubSystem Reality that we and all

we encounter are a completely interrelated integrated element of this system.

Science and Survival, anyone???

► Why do our “Best” Universities and Educators ignore 37+ vegetarian diet healing and prevention health studies savings of 56%-68% with 76%-83% less illness, 25 studies validating Holistic Health savings 70%-80%, permanent stress removal within ten hours using NeuroLinguistic Programming Imagery, as counseling won’t work on hypnotic programs created in 92% of victims, cost benefit analysis, cause effect studies on all plans and actions, safety training-32 studies, and physics proof that Earth and people is an integrated Holographic SubSystem.
