Dear Political Leaders, Educators, Corporations, Foundations, Donors, & Media,

Suppression Of Whistle Blowers & Geniuses Info Is Costly & Injurious. Regulations stopped crimes.

►►Albert Einstein “Reality is merely an illusion, albeit a very persistent one.” Physics agrees.

►Geniuses Research & Tools For Human Survival Will Solve & Prevent Problems, Reducing Costs!

Examine How/Why Political Parties & Establishments Fail To Note & Use Our Geniuses Info

Challenge ►Address Class Violations of Civil Rights In Ongoing Discrimination Against Geniuses

►Agriculture Solutions In Radionic & Tower Devices ►Info Suppressed by Scientific Illiteracy!

Study Thomas Oliphant's “Utter Incompetents”, Ego & Ideology In The Age Of Bush, Arrianna Huffington “Right Is Wrong” Editor Huffington Post, USA hijacked by the Right. On actions of USA against people and cultures. Borrowing money to give away and fight wars Injuries People.

►218 books on wars 1631-2008 damage done by errors, costs. There are 106+ books on USA

actions against people, ecology, budgets, security+ Got even worse from 2000-2008.

►►► Physics proved Earth and all we encounter are Holographic MultiDimensional SubSystems.

All US governments have acted against all citizens, only a little less against the wealthy.

USA management ignores University research that can reduce costs & waste, solve problems, and stop frauds. Studies of NASA, DOD, CIA, FBI, State Dept, & Government Cultures prove them Very Resistant to badly needed changes and to Science. FBI is unable to consider research proving MD crimes, Safety Training to protect agents, improve abilities, increase awareness of danger, error, best action. FBI key management and 3 agents suppressed evidence by ignoring it. They lied to courts, said tests of lead bullets could prove they came from the same box. One batch of lead makes thousands of boxes. There is no measurable difference

►► The 2008 financial debacle was caused by key government and corporate management's inability to study and use the lessons of History in Why Regulations Were Created. People act for greed, for emotional reasons, ignoring peoples and societies needs. Human Wolves seek prey in all cultures. Education errors aid in creating wolves in USA. No ethical educated person will propose deregulation. All financial, health care, and power messes were predicable. History records this always happens without

twixt smelter batches. FBI was proven wrong in 2007. Lies to itself, employees, and everyone on safety, security, health, stress, prevention, +.

► Act Ethically. Help Women, Children, Families, Girls, Agriculture, Education, Budgets, Safety, Cultures, ecological systems, and Long Term Human Survival.

DoD, VA, and government officials refuse to consider the world's research that proves we can solve Regeneration in six to seven years for within \$95 million. Three Projects in Europe grew fingers back on young kids.

laws and regulations protecting people. All who warned government and media were discounted and ignored. I knew each of these actions are proven to cause disasters. All involved violated deceptive practices and other laws. All 'Best' universities goofed. Examine how business, science, graduate schools, all departments and education managements are unable to learn from past very damaging debacles, and ignore the forefront of research in many fields today. MBA's flunked science, sociology, history,

education, and history of regulations. Why???

➤Geniuses Info Enables Countering & Removing Right Wing Destructive Officials & Groups.➤Proposal-Apply Sociology Forefront and all of Science to Heal Cultures, Ecological Systems, & World. Use All of Sociology, Science, Knowledge, and all of the Lessons Of History to Solve Problems & Aid People

Republican victories were caused by Democrats, their backers, media, and educators proving unable to examine and report on info from those who studied the major damage done by Bush, Republican's, Cabinet, and Congress's actual errors, omissions, and fantasies that resulted in major crimes and damage to our people, ecological systems, and our world. Leaders, staff, and campaign people carefully avoided publicizing the many unethical and illegal actions against people, errors, and crimes in finance, health, education, safety, the damage to viability of the USA and our planet. Why are Cause Effect Relationships, Cost Benefit Analysis, and Long Term Planning for Human Ecological Survival still ignored? Stop Political

➤Media failures to report honestly aids this debacle. Media refuses or are literally unable to actually expose all parties and government management's many falsehoods,

campaigns repeatedly violating the deceptive practices act and laws against slander. Examine "What We've Lost" Graydon Carter 2005 and "Utter Incompetents" Ego & Ideology in the Age Of Bush-Thomas Oliphant 2008+"Right Is Wrong" Arianna Huffington, "Going To War" Russ Hoyle "How Misinformation, Disinformation, & Arrogance Led America Into Iraq", "The Dark Side" Jane Mayer The Inside Story How the War Against Terror Turned into a War Against America's Ideals; "The Pornography of Power" How Defense Hawks Hijacked 9/11 & Weakened America.

Republican Tanya Melich wrote "The Republican War Against Women" still true.

➤Politicians all give false witness. Republicans prove far worse then Democrats in causing damage. Both err badly in ignoring research.

➤➤➤Errors, goofs, and crimes are placed under Secret or Executive Privilege to cover up fraud, goofs, and actions against people and budgets, and to enrich buddies. Pass Laws making all such coverups major felonies.

coverups, corruption, Five Types of Vested Interest payoffs, pressures, distortions, greed, arrogance, stupidity, ignorance, and the Good Old Boys interrelationships and actions that are

causing serious injury to our people, nation, and many others.►Reporting as True Info Science Proved False Sells Out & Injures People.

►GIGO'd Data Is Very Costly. Basic errors, omissions, and fantasies in education, 22 studied, Fourteen in Formal Ed, Eight in Informal Ed, and major Cultural Blind Spots are the root causes of people's failures to notice errors and ask the hard questions needed to determine if politicians are representing only Vested Interests, or the actual needs of people, ecological systems, culture, and survival. Citizens, Viability of the USA, and long term human and ecological survival are badly damaged when neither politicians, their parties, media, corporations, or educators are even able to notice, understand, read, or act on world wide research, Cultural Blind Spot info and Whistle Blowing. Proof of 35 Cultural Errors, Omissions, and Fantasies. Governments ignore Science and Sociology. Grads created almost all problems in our culture. Many important decisions are made on info long proven false, very badly GIGO'd.

►►►Bush has acted as if he is God. The actual record of Bush and his administration made public will make likely a demonstration of the Bible's story of the **Burning Bush**. Ordering 23 agencies and government groups to

falsify research and reports is clearly very illegal. He gave the order and it was followed by all agencies and cabinet, even HHS, Labor, EPA, DoD, State Dept, CIA, FBI, Homeland (In)Security, FDA, and all others. Only two people quit. The falsified info damages babies, children, adults, ecologies, business, and USA viability and survival. ►Impeaching Bush and many others for conspiracy, criminal actions, and manslaughter seems feasible. These actions against education, environment, agriculture, military personnel, children, women, gays, lesbians, and long term human survival continue to get worse. Bush made up info to start a war against Iraq to show his dad he could do it better. This killed many in DoD, many others, decreased security, and bankrupted the USA, decreasing people's income and quality of life.

►►►Politicians, government management, and staffs have no immunity for aiding and abetting manslaughter. Can the laws against aiding and abetting manslaughter of military, gays, lesbians, children, and women be applied to all politicians, staff, and government employees now? Can the Deceptive Practices Act also be applied? How can we get our laws applied to stop major crimes, manslaughter, and waste? Training that reduces accidents and errors 98%-99.7%, 25 studies validating Holistic Health

Healing and Regeneration Modalities, and even Cultural Psychology Research on Islamic societies is ignored and withheld from Military, State Department, Congress, and Citizens. Holistic Health will heal all war and other injuries, illness, even birth defects and genetic anomalies. Use all of science to solve problems.

►Physics explains how/why Laser OmniOrb Devices will aid Regeneration when used with a group of advanced Energy Healers. Holographic Physics applies to Babies, Kids, Women, Men, Health, Safety, Security, Education, Agriculture, R & D, Long Term Human Ecological Survival, and Earth +++.

Instrumentation shows Auras, Acupuncture Points, Meridian Lines, and Chakras. We ignore major research and devices. Study why. Talk with the American Holistic Medical Association, Oriental Medicine Association, and others.

►►Researchers, even in Safety, Health, HHS, Education, and Agriculture still fail to use all Eleven Elements of the New Scientific Method Physics requires, or even study and apply Holistic Health Systems research proven valid by 25 studies and experience. HHS & MD's fail to use training that reduces errors and accidents 98% to 99.7%, and ignore NLP stress

►The Union Of Concerned Scientists, web page has a 49 page 3/04 and a 33 page 7/04 report on the Bush administration ordering major government agencies to falsify research and reports in many fields. HHS removed condoms and birth control info, replacing them with abstinence for preventing pregnancy and STD's. This approach is well proven to increase problems. ►Reports are falsified on pollution, environmental destruction, trade, the actual cost of trade imbalances, the tremendous social cost of spending and giving away borrowed money,, damaging USA, labor statistics, the costs to society of fiscal problems and exporting jobs, agriculture, weather changes, ecological damage, starvation, violence, war caused by overpopulation and greed, and many other information areas falsified by 23 agencies. Only two people quit. All followed Bush's orders.

removal. These failures kill people. Acting on false info from Vested Interests AS IF it's true is costly and deadly.

►Failures to recognize and correct the actual basic causes of 9/11 and many other debacles damages all citizens. DoD, security agencies, State Department, and Congress still ignore how people's inherent psychological

discount of new info that conflicts with Mind Set, 'Good Old Boy' habits, Institutional Cultures, and Cultural Blind Spots affect trade, security, health, crops, education, and survival.

► Government failure to use sociology research on the Cultural Psychology of Islam and other societies-costly and deadly. Bush's rush to war violated NATO, other international agreements, destroyed budgets, children, adults, and cultures. "Bush At War" Bob Woodward 2002.

► Borrowing money for foreign aid, and to fight a war he started just to show his dad he could do it better has proven very damaging to our society and to people. His actions against soldiers, veterans, women, babies, children, and men are injurious to many. ► Anti women actions have gotten far worse every year. We fail to tell victims, women and children that NeuroLinguistic Programming Imagery will heal stress internalization for all victims in one 3-10 hour day, rape, war, loss, fire, accidents.

► We need ammunition to reform governments and the private sector. Let's clean house completely and correct all of the actual basic causes of problems as elements of completely interrelated subsystems.

►►► Apply all Eleven Elements of the New Scientific Method Required by Physics Today,

► There are many Impeachable Offenses, and major violations of the US Constitution, First Amendment, and many other US Laws. Why ignore manslaughter and other crimes?

► IF Rewards with life and job protection, new job, relocation, education, and anything else they need to speak out were offered for Whistle Blowers, they will come up with needed info to enable learning where all the bodies are buried. Rewards will attract Whistle Blowers in Military Contractors, R & D, DoD, CIA, FBI, Homeland Security, State Department, HHS, Corporations, Power Firms, Agriculture, Forestry, Congress, Universities, and all other areas of USA, state, corporate, and local governments. People fear losing jobs, security, promotions, and future employment, so fail to report crimes, errors, omissions, fantasies and coverups.

Four Design of Experiment Elements often needed to be scientific, and Systems Research. Plan ahead. ► Encourage Whistle Blowing! What IF Our Geniuses Are Right? ► An Honest Evaluation of these summaries of geniuses research requires reading SA articles.

➤ Check Evidence-References. Use newsletters to seek info and feedback from the many aware of problems and solutions.

➤➤➤ Myth Conceptions are a poor foundation for planning, decisions, research, and actions.

IF you check references and examine evidence this time, Geniuses info will enable applying all of the lessons of science, history, sociology, cultural and social psychology to prevent and solve problems. Governments act illegally against children, women, men, ecology, science, and human survival throughout history, today as in the past. We ignore photos from space and much other overwhelming evidence of this destruction, and the eight

Earth’s oil is gone by 2100. Weather cycles alone require reducing population below 1.5 billion. ➤ How many people can Earth support with No Oil for Agriculture, Food Transport, and Food Processing, with Weather Changes Reducing Crop Production Drastically? Perhaps 500 million if we do everything right!

major disasters facing humanity.

➤➤ Help make long term human survival the first order of business for leaders, corporations, educators, governments, and all people.

Humans continue to destroy Earth’s environment more rapidly each year. We are completely interdependent with Earth’s Ecologies. Yet we are still wiping out our very slim remaining chances of survival. We are already very far past the point of comfortable survival for people and ecologies. Earth can support only 500 million with no oil for farming and massive weather changes reducing crops.

Study actions that destroy ecologies and very large numbers of kids and adults.

Help stop Government, HHS, Media, Educators, Leaders, Corporations, Religions, and AARP from aiding ongoing violations of Civil Rights and Human Rights in MD health care, HHS, DoD, security, education, health, and safety.

Biology Professor Milton Searle, UCSD, wrote this in 1994. I noted oil loss, wrote this in 1998.

➤➤➤ Phytoplankton will be destroyed by increasing levels of CO₂ in oceans. This is the food chain base for fish. Oceanographic research predicts danger point by 2280. These are the most urgent emergencies of eight major

disasters facing humanity. Plan ahead??? Or starve billions very soon. Anti abortion anti birth control anti population reduction killed half of the 19 million starved since 1893, and will kill one+ billion by 2100. Anti abortion is genocide of six+ billion by 2200, as we lack sure birth control methods. Women still die in pregnancy and child birth, 1 in 9 to 1 in 27000. Anti abortion is manslaughter of these women.

►Regeneration is proven feasible. We seek grants for a major R & D regeneration project for all lost body parts. We will bring together devices, Pyradyne's Laser OmniOrb, with 163 times the energy of a standard pyramid and the Applied Physics of Energy Healing to eliminate imbalances in Life Energy Fields, Auras.

Pyramids speed plant growth and healing three times. Instrumentation shows Acupuncture Points, Meridian Lines, and Chakras.

►We can now use the forefront of today's science working with people Physics proved to be Holograms to regenerate all lost limbs, hands, feet, breasts, spines, sex organs, heal brain damage, genital mutilation, and even correct or prevent all genetic anomalies and birth defects. This is solvable in seven years for \$95 million max.

►Why did political staffs fail to check

Abortion is ten times safer then pregnancy and birth. Birth control isn't fail safe and is not even available to most women in our world. Many in USA can't afford it, or don't because of many religion's falsehoods, lies, deceit, and trickery. Bush Stopped USA Work on Population Control. This Is Genocide of Billions. Bring charges against all involved.

our info on production Medallion Devices that eliminate Jet Lag, Tower Devices that make plants and animals healthier and calmer, reducing birth defects 98.4%, Radionic Devices proven to eliminate all pests, viruses, bacteria, fungus, or mold in the target area, eliminating the need to use fertilizers, saving farmers 17% to 22%+, and Pyradyne's Laser OmniOrb, a tool to aid regeneration and bioresearch? Scientists wrote 639+ books, 86+ by Physicists, explaining life energy systems, biomagnetics, biophysics, psychic events, and how current physics findings are involved in and explain phenomena. DoD spent \$195 Million on Psychic research, six+ projects at Duke U, one by SRI-SAIC + 2. Why discount, ignore, and suppress major research in science?

Cultures goof. What we eat affects health and mind. We ignore the obvious, even 37+

Natural Vegetarian Diet Healing & Prevention studies proving 56% to 68% savings with 76% to 83% less illness in the many study groups, the 25 studies validating Holistic Health with savings of 80%+, and the proven ability to cure all problems, most people. Stress Internalization from any cause is permanently gone in three to ten hours using Imagery NeuroLinguistic Programming, Kennedy U +. ►All people on stress disability can be healed in one or two days, five to ten hours. Why not tell victims

►►►►This is a serious offer of info and the services you need to offset badly flawed data bases. All involved in government and business need very through workshops on all that our Geniuses have learned in all fields today. We ask that you check the references, info, and evidence humanity has produced on our geniuses studies, research, and discoveries. Solve budget and social problems by applying all that humanity has learned to correct all of the actual basic interrelated causes of each of our many problem. Learn why our graduates still create problems and work on symptoms, instead of preventing and solving them by addressing all of the basic causes. It's Far Cheaper and Far More Effective to Correct All of the Basic Causes of Our Many, Often

how to heal all stress problems???

►Amateurs can use book info. "Imagining For Health" Serge King, and others to apply Imagery work with each other to heal mind traumas without professionals.

Traumatic events create hypnotic programs in 92% of victims. ►Counseling works poorly on these hypnotic programs. De Hypnotize traumas with NLP Imagery. Add Energy Healing for resistant cases.

Interrelated Problems. Management and staffs lack the education to note that our MD system is unscientifically based on a special case viewpoint of reality, the very false assumption 'Reality Is Mechanistic'. Physics proved this quite wrong. ►►►Our Reality is a Completely Integrated MultiDimensional Holographic SubSystem of a MultiDimensional Holographic Universe SubSystem. It's frequency is 438.69783291 cycles per nanosecond. People described scientifically are MultiDimensional Mind Body Energy Field Spirit Holographic SubSystems. Instrumentation shows Acupuncture Points, Meridian Lines, and Chakras. ►1% can see Auras, 5% of kids, 63% can learn to see Auras. ►Kirilian Photography takes photos of Auras.

►Systems Research proved that you get unforeseeable results if you work with part of a system. Our geniuses many discoveries keep proving wrong what we absolutely know is so. This requires mandatory workshops, urgent for all politicians, advisors, staffs, leaders, researchers, boards, and management on the forefront of science and knowledge, sociology info on why we ignore new info for many generations when it conflicts with our mind set, and their legal liabilities for all actions that aid manslaughter by ignoring and often actively suppressing research and discoveries. What “We Absolutely Know Is So” takes precedence over any scientific knowledge. New research keeps proving previous concepts wrong. There are sociology studies and 428 history books on this inherent human habit of ignoring new to us info for many generations. “Not Invented Here” “Always Done It This Way” takes precedence over science. Most humans given new info conflicting with their belief system know that “It can’t possibly be so”, so they don’t need to even consider examining this “obviously false” new to them info. We even ignore safety and error reduction training! Only 4.6% of people can even consider new info that conflicts with Mind Set. GIGO in all data bases is expensive in terms of lives, money, and human survival.

►Governmental pleasing Special Interests is very destructive to our citizens, nation, and world. ►Geniuses info gets ignored for two to hundreds of generations, as only 4.6% of humans can even consider new info conflicting with Mind Sets. Sociology Cultural Psychology calls this the Vested Interest Syndrome. ►►Establishments and individuals given new to them info that conflicts with their Mind Set Ignore It, Discard It, Distort It, Hide It, or Even Create False Data to Buttress Their Position. This inherent human reaction causes Cultural Blind Spots and Cultural Lag. ►Sociology Research proved that Cultural Conditioning is hypnotic in character. This Is Why Advertising Sells. Media, Government, and educators ignore the forefront of science and knowledge that will solve or prevent our many problems. “Not Invented Here” takes precedence over scientifically proven information. ►Almost all of our problems were created by our grads, not “Outsiders”. Somebody “Out There” didn’t come in and create our many problems. We did it ourselves. ►►We continue to work on symptoms, rather than the actual basic causes of problems as interrelated subsystems. ►We can work on symptoms for ten thousand years, and still have the same problems. ►Act AS IF children, women, men, ecology,

and long term human survival are important.

All 190+ articles on SA Web are needed to evaluate and apply geniuses info.

We propose reorganizing our priorities and actions in favor of babies, children, women, ecological systems, and feasible long term human survival. We are far past the point of achieving comfortable survival for humanity. Our failure to plan ahead has already increased populations past the point of ecological return. Our planet can support far less than one billion with no oil, and weather change studies proving that good crop growing weather is becoming rarer. ►► We are past the end of 265 years of exceptionally good crop weather. Greater food availability aided overpopulation. We are out of fresh water and have vastly overburdened our agriculture resources. We still ignore long term planning. We even ignore major long term weather change research proving major damage to crop resources. This warming trend that started about 960 AD and drastically speeded up with the industrial age may continue for 36,000 years, with some cycles. There was 400 years drought on three continents only 16,000

Challenge. Be the first to correct major mismanagement and internal fraud caused by Cultural Blind Spots Serendipity Association addresses all 35 cultural errors, omissions, and

years ago. Many Civilizations disappeared when water supplies failed. Plan for the obvious: Cycles between increasing droughts, areas with far too much water, worsening storm levels, substantially higher ocean levels, reduction of farm land and crops, and ice ages every 12,000 to 31,000 years. It is most urgent to plan ahead for 100,000 years or Eons in all we do. The needs of people, ecologies, the short and long term weather change effects on them as interrelated systems, and the effects of no oil by 2100 must be given precedence in all planning, production, and actions. Agriculture must have priority over any other water use. Stop allowing water for lawns. Act to eliminate crimes, rape, violence, and terrorists. Democrats lost many elections by not verifying geniuses proven findings in many fields. Geniuses discoveries completely applied enable addressing problem causes, solving problems, saving lives and trillions of dollars. We can correct most of the actual basic causes of all of our interrelated systemic problems, yet we don't even try. Plan ahead. ►► Nine non violent cultures have been studied. These Studies Are ignored.

fantasies geniuses identified. Correct these to increase the possibilities of long term human survival and make World Peace feasible.

This is imperative for survival!!!

►Media, government, educators, non profits, think tanks, and corporate management have proven unable to consider info that conflicts with their mind set. ►When Media Report Establishments False Info as If it Is True, It's Far Worse Than Making up Stories Study our many articles detailing the effects of Cultural Psychology's Vested Interest Syndrome Research proving that humans are designed inherently gullible. Geniuses Identify 35 Cultural Errors, Omissions, and Fantasies. Examine the effects of Vested Interest Pressures, Distortion, False Assumptions, Cultural Blind Spots, Greed, Arrogance, Ignorance, Stupidity, Anger, Hate, the Good Old Boys Network, Discrimination Against Geniuses, plus! This is made far worse by failures to correct 22 errors, omissions, and fantasies in Education. ►Media prints info as true, literally unable to notice establishment's info is proven skewed and/or completely false. Media seems to lack the high intelligence and breadth of knowledge required to notice establishment errors, omissions, and fantasies. They discount and discard new to them info on major errors and fraud. Our best media fail to check references, study evidence, and examine research proving that establishments are giving them info in many fields AS IF it Is True When

it Has Long Been Proven False. We ignore the lessons of history, herstory, science, sociology, and systems. Regulation history shows that all rules were necessary to stop major crimes by business and industry stealing massive amounts of money and ignoring safety foe people. Deregulated, crooks stole people blind again. Fast bucks more important then people. Drug promotion by MD's and Pharmaceutical firms kills many, still suppressing science and herbs in health. Costs are lives, money, cultural viability, and damage to board members and employees who suffer and die unnecessarily. Results: Major Losses and Ethical Violations.

►Is media legally liable to employees, owners, and audiences for aiding proven coverups, going along with Vested Interests, consistently reporting information in major fields that research has long proven false AS IF it must be true??? How can they miss the costs and damage of borrowing money to fight wars, and to borrow for foreign aid???

►►► "If I say it three times, it is so" is a poor way to run a world. ►Printing establishment's false info as if it's true is far worse and far more damaging then making up stories, yet media do this without bothering to check research proving establishments are off in a wrong direction again, or yet! Sociology Cultural Psych research

reports on all of the factors involved in why and how this happens.

Using all of our geniuses' info at the forefront of science and knowledge will enable us to reduce accidents and errors 98% to 99.7%, increase the rate of invention and breakthrough discoveries, reduce health care costs 80%, gain 56% to 68% savings by using Natural Healing System Vegetarian Prevention & Healing Diet studies, reducing illness rates 76% to 83%, Save Lives, Prevent Suffering.

Prevent crime, violence, drug use, rape, murder, suicide, and health problems, permanently eliminate: stress internalization, obesity, and health problems using complete Holistic Health Systems for prevention, diagnosis, and healing. Education reform will aid us to eliminate the need to use pesticides, increase the health of plants and animals in any area, create world peace, address eight major emergencies facing humanity, and improve humanities very slim possibility of any long term survival for people and ecologies We can heal most with birth defects. We can prevent genetic a errors of any nature. We can Create New Energy Sources from the Underlying Structure of Matter using research based on today's physics and all sciences, solve within 60 years, \$1.8 Trillion.

Good business practices are still being

ignored by governments. Business and weather cycles have been studied, yet both are ignored. No surplus money exists until all problems in our culture and world are solved, needed city and state maintenance and replacements are done, all debts are paid, and money set aside yearly for replacement of infrastructure. Debts are left unpaid only if money can be invested safely to earn greater interest then is paid on debts. Unpaid debts affect USA viability, wealth, security, dollar value, and citizens adversely. ► Spending or donating borrowed money we don't have has very real costs. Trade imbalances and offshore loans result in shifting ownership of US property and stocks off shore. This has social and monetary costs. The USA is damaged by our exporting jobs offshore. If we require a level playing field for imports, we will improve all of our peoples lives. ► All firms doing any business in the USA or located here must be required to meet the best possible standards for safety, health protection, health care, work conditions, environmental protection, food safety, living wages, stock holder protection, and freedom from excessive executive salaries, bonuses, and theft, or not be allowed to do business in any form in the USA. Corporations earned money must benefit the culture, workers, and stockholders, and be protected from any

skimming by owners, board, or management. Corporate info to employees and public must be accurate, or all business, trade, and professional licenses cancelled. ►Business decisions and actions must be based on improving ecologies,

Foreign aid has been stolen much of the time. Aid to dictator run countries enriched dictators and their cronies, not the people that need help. Give undeveloped nations the “How to Solve and Prevent Problems and Ways To Create Viable Successful Cultures Training” needed to grow successful survivable cultures. ►All societies urgently need to learn how to prevent and solve their many interrelated problems. We can use trade and aid to stop the violations of Civil Rights and Human Rights of women, children, babies, and men world wide. It is urgent to make it clearly illegal for any of our leaders or elected officials to use US taxpayers or business money to aid dictators in any way. Our leaders backed Cuba’s dictator, acting against Cuba’s people, after Castro’s revolution. IF we’d backed Cuba’s people, Cuba would be a democracy.

►Place very heavy penalties on any elected, appointed, or hired officials and staff who aid actions against people and budgets in any way. This Is Mandatory to achieve honest governments.

slowing global warming, and aiding long term human survival. ►Have all developed nations require this for everyone in their country and all of their trade partners.

IF Not Held Responsible, they fail to examine info proving errors, and continue to act to aid Vested Interests and cronies. Buddy Buddy.

►►Require death penalties for any citizen, religion, organization, or any official, elected, appointed, or hired who promote manslaughter of women and genocide by acting against birth control, abortion, or rapid population reduction.

We have developed no failure proof birth control methods. Developing cultures have no birth control for most people. Overpopulation has already starved 19 million since 1894, 9+million directly because politicians and religions kept us out of international population control. Billions will starve in the near future unless we rapidly reduce populations 93% to meet the actual human capacity of our very small planet Earth. Long term security require these actions. Rapid destruction of ecological systems by overpopulation and very limited water supplies destroys security for all of humanity. ►This promotes starvation, violence, war, and drastically reduces long term human survivability.

▶▶▶ We can require laws penalizing men in all countries involved in sexual mutilation or slavery of women and children, or allow them no trade with any of the productive nations. Make penalties fit the crimes. Require that all men involved lose inches off their penis. Our failure to act results in our supporting these actions. Turning a blind eye to the actual causes of these actions makes all productive nations coconspirators, part of these ongoing crimes against women, children, and the many other social problems created by greed, arrogance, short sightedness, and education failures.

▶ Humans are a subsystem acting as a parasitic infestation to our planet. We live on a problem plagued Island Earth headed for destruction. Overpopulation destroys ecological systems rapidly. Photos from space show this is getting worse. Humanity has outgrown both food and water supplies. Over 56% lack potable water.

▶ Soy bean protein uses 1/32 as much water as growing animals for protein, is more nutritious, and has anticancer properties.

Tofu is best, more nutritious and easily used.

▶ It is far cheaper and more effective to notice and correct the actual basic causes of all problems then to work on symptoms. We can work on symptoms forever without solving or

preventing any of our many problems.

▶▶ It is far past time to correct all of the actual causes of problems.

Our geniuses discoveries can be used to reform all political parties, and even reeducate Republicans and others to enable sane government. Complete truth on actions against the best interests of children, women, men, and our USA will remove most politicians from office. Right Wing, Vested Interest ordered, and greed based policies are proven to have damaged citizens, business, budgets, ecology, and long term human ecological survival.

Bush and Cheney are anti women, anti children, anti family, and anti small business, taking five types of payoffs to make their buddies richer, destroying many businesses. This injures US society. Many government policies act against the long range interests of businesses, families, and citizens. Bush is directly involved in genocide of millions in getting us back out of international birth and population control. Bush violated Separation of Church and State. Of the 18 million starved since 1894, 9 million died directly because Republicans and others kept us out of world population control. Both parties goof.

►► Experts state that one billion+ will starve by 2100. Weather change studies show that the planet may be able to support 1.5 billion before 2100 with oil, if we are very lucky. ► With all oil gone before 2100, 500 million is all that's feasible, the population in the 1200's, IF we rebuild the ecological systems that enabled people's survival then. Earth's ecology is being destroyed more rapidly each year by the current overpopulation. No method of birth control is foolproof. Families must be restricted to far less than one child until we have reduced all populations to be fully in balance with planetary ecological systems, water supplies, food production, and weather changes. US needs 94% less people. Require by law far less than one child families until this is achieved. We lack failure free birth control. Abortion is mandatory to protect women's lives, human survival, and ecological systems. Any actions

The Office Of Special Counsel proved in 2002 that weld inspections and faulty work has been the norm on five of seven Navy repair centers for thirty years. Records were falsified, and people involved were promoted instead of charged. The first whistle blower in 1983 was ignored. The second, professional welder Kristen Shott, Naval Air Base, North Island,

against birth control promotion and abortion is murder of those women who still die in childbirth, one in 27000 with good nutrition and prenatal care, 1 in 900 inner city with no prenatal care in USA, to 1 in 9 in countries with poor diets and no care. This is literally genocide of Humanity.► Reduce world populations below one billion soon, or starve one billion+ by 2100, and kill over six billion+ by starvation by 2200. We Must Reduce People 93% +!!!

Earths' ecological systems are being substantially destroyed. No religion's founders taught "Destroy ecologies and starve people". "Be fruitful and multiply" was written when Earth was quite empty of people and most died young. "Husband the Earth" needs attention.

► God is still endeavoring to teach humanity. Any species that overpopulates it's habitat dies back.

San Diego, was given an award in March, 2003. She has a college degree-welding engineering. She was still being harassed by her management.

► It's urgent to create a well protected whistle blowing and trouble shooting group and promote her and other Whistle Blowers into it. Require her firm to pay her full retirement

benefits now plus damages for aiding this continuing harassment. Eliminate Harassment of Whistle Blowers Anywhere.

► Hold boards and management fully liable in

Our political climate is designed to discourage and suppress Whistle Blowing at all levels. Nine admirals, generals, DOD, IG's, CIA, FBI, State Department and elected officials have covered up, by ignoring, the well proven data we sent them that would improve safety, security, performance, contracts, world effectiveness, negotiations, planning, health care, health problem prevention, and reduce costs. Very expensive and even obvious errors are still ignored now. Create far more effective methods and implement an optimum systems approach for all areas of R & D, contract work, compliance, and inspections. ►► Use all of the forefront of science. Apply all Eleven Elements of the New Scientific Method that are usually ignored. HHS fails to use the old four effectively, caught up in the proven illusion that people are mechanistic systems. The actual

Robber Baron actions were supposedly outlawed by the 1940's. We continue to be damaged by power firms and other businesses con games, far worse in military contracts. DoD

all businesses and governments for actions against people, health, and survival.

basic causes of these crimes that killed and injured sailors are involved in all of our problems. The basic factors in all such events are not being addressed, studied, or corrected, even by DOD, security and safety agencies, State Department, and Congress. Check our security data. It's valid. Redesign all establishments to require optimization of whistle blowing on all failures to use the state of the art, any suppression of info, errors, waste, negligence, fraud, and actual crimes. Include much worse penalties for classifying info as Secret or Executive Privilege to hide goofs, crimes. Add tremendous penalties for all involved in covering up problems or suppressing solutions. Make this a major felony. This is urgently needed to gain honest governments, educators, corporations, non profit associations, and for everyone

goofs are deadly and costly. These seem illegal under the Deceptive Practices Act. Offering massive rewards and better jobs or job protection, relocation, and life protection would

bring together the evidence of conspiracy by firms and politicians in the fields of power, agriculture, transportation, health, safety, education, DoD, and many other fields. A “Good Old Boy” government is expensive and destructive. ➤➤Fraud and Waste injures businesses, citizens, and long term survival. Publicize studies showing the damage done to business, families, women, children, babies, family and corporate budgets, economic systems, and US Security. We can no longer afford any government or party to be run by Vested Interest Pressures, distortions, lies, greed, arrogance, payoffs, and outright stupidity. This completely eliminates long term planning for our actual current and forecasted long term needs. Why continue to act against long term human and ecological survival? Use all of science to plan ahead for 100 thousand years +. Create True Democracy, which requires well educated citizens taught to think clearly. Clear thinking in any field requires a very accurate, very complete, GIGO Free information foundation.

We fail to teach the ongoing history and results of these many wars against people, even ignore 212+ books on the ongoing war against science in health care showing the ongoing use

Examine the history of regulation in power and other areas. No one who looked at that history and current needs would have considered deregulation of power or much else. This power budget theft disaster was very predictable. This seems to be RICO, Yet Rewards for Whistle Blowers weren’t offered. Our culture has many disasters because we went along with Vested Interests without noting that the info they gave politicians and media was false, distorted, self seeking, and venal. Greed, power seeking, and arrogance still take precedence over human needs. Study the research on why this happens. Regulations happen because establishments stole from customers and stockholders, poisoned people, created unsafe work places, acting against people. ➤Our very sanitized histories cloud many actual events of greed, power seeking, and actions against people that continue today as throughout human history. Study 428 books by historians about establishments shooting innovators and whistle blowers, today also.

of Fascism to suppress Alternative Medicine. Our lack of accurate info on what happened, why it happened, and the many actions against people and ecologies that are still going on in

many fields drastically reduces our ability to correct the actual causes of each problem, and prevent the many problems that plague us. Humanity's actions are driven by arrogance, greed, Good Old Boys Network, and Vested Interests. This makes them far worse. ►Leaders aid Vested Interests to continue actions that speed Global Warming. It's Urgent to treat Earth's damage as a major emergency. Stop making any cars that get less than 50 mpg

New Electric Power Source research based on today's physics will find new sources of power from the underlying structure of matter. ►Discoveries in physics and other sciences indicate that an Oak Ridge type research project may solve this and have many valuable spinoffs that will pay for it. Articles and letters, 16, in Journal's, Physics, and other literature have said this seems feasible. We seek help to create a research syndicate of firms and nations to solve this and other problems. Power source solutions may be found within 40-60 years and \$1.8 Trillion. ►Physics research has completely obsoleted many of our old concepts of reality and science. Nuclear power was developed with 1938 physics. We were still neophytes at science then, and still have much to learn and apply. Physics based

by 2012. Require 60-70 mpg by 2018, then 80 mpg by 2030. ►Stop all low quality and unnecessary manufacturing using fuels.

►CO₂ dissolving in oceans increases acidity. This will stop phytoplankton from making exoskeletons, eliminating the food chain base for fish by 2280+. Why continue actions that will eliminate all life in our lakes and oceans???

research using the forefront of all sciences and Eleven Elements of the New Scientific Method, enables developing devices that will neutralize all toxic and nuclear wastes, control weather, eliminate fires at a distance, and solve many problems mechanistic thinking can't consider. ►Forestry needs these devices. Science today indicates that these projects are feasible. We still ignore that half of all of the world's oil is gone soon, production decreasing from 2032, all gone by 2100. Reserves were exaggerated. We are increasing the use of all fossil fuels. USA's use of oil is 45% Gasoline. All vehicles must be hybrids with maximum mpg. Require 40 mpg minimum by 2011, 50 mpg by 2015, 60 mpg by 2022, 70 mpg by 2030. We must act to stop all fuel waste. "They" aren't making any more oil. Science proved that any unnecessary use of oil,

gas, and coal must be ended. No single use products or carbon credits. Make no frivolous, unnecessary, or any junk products. Cost benefit analysis must include social costs and all impacts on people and long term human ecological survival. ►We must save oil for lubrication. We must develop new power sources soon. We can no longer afford the toys

►Research in physics, other sciences, and experience in Britain, India, and world, indicates that it's feasible to develop devices and trained groups that will be successful with weather control. Fire elimination at a distance is feasible. Humanity will be gone if we fail to solve all of our many basic interrelated problems. It's extremely urgent to plan all of our actions considering long term results over one hundred thousand years in terms of human and ecological survival, instead of plans for a few months. Greed, arrogance, and ignorance!

Reeducating all people so they are able to apply intelligence, wisdom, the forefront of science and knowledge, and long term planning to all decisions is urgent. We must require that all key management, Boards of Education, Corporate Boards, Media, all Leaders, all Politicians, staffs, and Non Profits be able to pass an exam on the forefront of science and

of war, any unneeded activity that uses fuel, or any junk or unneeded manufacturing. Require high quality products. Stop making throwaway products and the immense waste of discards. Both Agriculture and Manufacturing use fuel. Ag must have priority for fuel and water.

human knowledge, sociology, the lessons of history, weather changes, planetary ecology as a completely interrelated closed system including people and all life, applying systems research and understanding systems characteristics and all interrelationships.

Complete Illiteracy in science, systems research, sociology, cultural psychology, history, and interrelationships is increasingly expensive. This is rapidly destroying ecological systems, starving millions now, billions soon. Our planet is designed for one billion at most, but with No Oil, 500 million maximum. Any actions against very rapid world population reduction constitutes genocide of billions of people.

►This warming trend started 960-1600 AD, and will continue for thirty six thousand + years, with cycles hotter, sometimes colder during many centuries. Arctic ice melting will cool the

gulf stream. Atlantic basin warming may? cease. Ice ages will happen every 16,000 to 70,000 years. Ocean levels will rise 10' by 2132, 20'+ by 2246. ►We fail to act and plan AS IF we will be here for 100,000 years. We ignore Earth's history. ►Why continue actions that have already completely destroyed humanity's chances of comfortable survival?

►►Our geniuses have identified 35 cultural errors, omissions, and fantasies. Education books report 22 errors in education, fourteen in formal, eight in informal education. Studying these led me to start a non profit to address the actual basic causes of all problems, instead of just the symptoms. My education is in electronics and physics with wide ranging studies in most areas of science, history, and sociology. I'm in Mensa, read since age 3. The US government, DOD, Security, Public Safety, State, Interior, all departments, corporations, and educators need all of our geniuses information.

►Holistic Health has been validated by 25 studies, well proven to heal most people with injuries, illness, and birth defects, saving 80% of our Illness Care dollars. ►We lack a Health Care System. ►Illness care Is Not Health Care. ►►Instrumentation shows Acupuncture Points, Meridian Lines, and Chakras. Bodies

and all matter are proven to be energy that flickers in and out of existence. Everything we deal with including us is a Hologram. Netherlands MD's, 74% work with Energy Healers, which is Applied Physics, validated by 42 studies, with 53 studies proving Energy Medicine eliminates all viruses, bacteria, and fungus. Radionic Devices do also.

►►►Well designed very complete Holistic Health Center Systems can work with all problems without exception, all stress, vision, injuries, illness, birth defects, all genetic anomalies, on almost all people on a free if not successful basis, regardless of the severity of the problem. This has been proven by the world's research and experience when five key Alternative Medicine healing modalities combine as complete Holistic Health Systems.

►The info on safety training and sociology's cultural psychology research on all cultures we gave General Colin Powell, DoD's Joint Chief of Staff and FBI agent Moss in July 1992, and to many since, would have enabled Military, FBI, and CIA to catch and prevent moles, and prevent most attacks and sabotage. They failed to examine evidence and check references. We sent info to a new agent and to eight at headquarters in 2001. It is still ignored. Why? ►►►An FBI Senior Advisory Special Agent-Financial

Crimes reports they ignored his info on changes needed. Are quite unable to consider new ideas.

►► Sociology Cultural Psychology studies of Islamic Cultures and of all other societies include the effects of language, education, religion, culture, and environment on attitudes, actions, and emotions. ► Sociology data

The inherent designed in “Not Invented Here” habits of all humans are increasingly damaging and expensive. Traumatic events and loss create hypnotic patterns in 92% of victims. Kennedy U Orinda CA grants MS and PhD’s in NeuroLinguistic Programing and Holistic Health. NLP permanently eliminates stress internalization within ten hours in most cases, one day. Holistic Health, Energy Healing, and Transpersonal Psychology have tools to improve abilities to work effectively with elements of our Holographic Universe. These abilities make catching all anti US agents, counter intelligence operatives, potential defectors, insurgents, bombers, and dangerous shipments feasible. Our State Department and Military Proposals would have improved effectiveness, cut costs, and prevented most bombings and accidents. None examined the evidence. Nine IG’s, DOD’s IG & Joint Chiefs, two Generals, seven Admirals, military staffs,

and many politicians had our data.

All failed to act on proven health care fraud or on safety training that would have prevented almost all accidents, the sub vs ship sinking, plane crashes, vehicle crashes, and friendly fire. Proven MD crimes are ignored.

►► Safety Training will drastically reduce war and highway injuries, casualties, health care and security errors. Hospital Officers, General Colin Powell, Admiral Ruehe, Admiral Fargo, and many others refused to talk with us or to even investigate obvious errors under their command. Military requires that officers notified of crimes and errors examine the evidence. Criminal negligence is involved in these ongoing failures to examine and use The State Of The Art in problem solution and prevention, safety, accident prevention, security, R & D, error reduction, health and healing care, illness prevention, and education.

Studies of groups doing Yoga, Tai Chi, Qi Gong, Aikido, and Meditation have 98% to 99.7% less accidents, with 96% to 99% less errors on jobs or in life. ► Add Energy Healing to do even better. All security personnel, management, DOD, FBI, CIA people, media, politicians, and medical management that have been given Geniuses info by us or others have deliberately suppressed info proving mismanagement, training errors, and the major ongoing RICO by the MD Pharmaceutical HHS Complex War against Alternative Medicine. MD's are skills for drugs.

I advised them that, in 1987, AMA was found guilty of conspiracy, restraint of trade, and anti trust, 11 MD groups settled out of court. The USA was charged with American Medical Genocide and Conspiracy. This was sent to the UN Human Rights Commission 1984,+450 key people and groups. They all failed to examine the evidence and check references. Political offices sent me form letters, completely ignoring our proposals and Whistle Blowing. Many didn't respond at all. Government seems to have a deliberate policy to suppress Whistle Blower's info. All agents, politicians, staffs, and management involved should be tried for aiding theft by deception, manslaughter, RICO, conspiracy, and espionage against USA and the

free world. ►►► No government elected or hired officials have any immunity for aiding manslaughter in any way. Staffs are also liable.

► USDA, State Agriculture, HHS, CDC, and DoD still ignore Appropriate Technology Transfer For Rural Areas, funded by USDA. They had George Kuepper, Radionic expert, reporting on scientific proof that pesticides and fertilizers haven't been needed since the 1957 final design of Radionic Devices. ► George Kuepper is now at Kerr Center For Sustainable Agriculture, mailbox@kerrcenter.com PO Box 588, Poteau OK 74953. Get his 52 page article on events and manufacturers in Radionic Devices and Towers. ► The Tower Device is a standing wave device that makes plants and animals calmer and healthier in a 2,500+ acre area, reducing Birth Defects 98.4%. Place these in all cities, embassies, military bases, and ships. Radionic Devices are programmed to eliminate any insect pest, virus, bacteria, fungus, and mold in the target area, and to improve soil fertility. Now made by seven firms. USN research validated Radionic's ability to eliminate pests in 1984. Study scientific research.

► 16,000 farmers, scientists, USN in 1984, ATTRA, seven manufacturers, and Acres USA report that Radionics works, using a different frequency for each item. Yet they are still

Help save farmers lives, + 17% to 22% of farm budgets. ►►Poisons Kill Farmers and Bees. Radionic & Tower Devices will stop Bee Colony Collapse. No poisons, Towers make Bees, plants, and animals healthy, reduce birth defects 98.4%.

Home and work place design can be required to use all of the state of the art. Optimum building codes are well researched. We already have the info to require low maintenance home and building design with improvements using psychotronic devices, modular, ergonomic, very low maintenance designs, straw bale construction, triple glazed windows, fireproof exteriors with steel shutters closing automatically in fire and storms, solar panels, lowest possible energy use, low voltage wiring for switches, full frequency lighting, and effective optimization of all structures using all of Geniuses information.

Why not use all of the State of the Art? Scientists wrote 639+ books, 76 by Physicists, explaining pyramid energy, energy healing, mind effects, psychic phenomena, and Paradigm Shift Implications in terms of today's science. Health & Human Services is ignoring Eleven Elements of the New Scientific Method Required by today's Physics proof that people are Holographic SubSystems, systems research, Natural Healing System Vegetarian Prevention and Healing Diets, and immense amounts of Holistic Health research and experience. India integrated Holistic Health into medical schools,

We still ignore

crime prevention and proven methods of healing criminal habits and tendencies. We fail to use education in prisons to teach how to build a new life, or to use Holistic Healing tools that eliminate criminal mind sets. Governments act as criminal coconspirators to create criminals and cause recidivism. We can dehypnotize the patterns of behavior and thinking involved in violence, rape, pedophilia, and crime. Energy healing will speed this, and even correct genetic errors and brain wiring involved in destructive and criminal behavior..
