Speaker & Workshop Proposals

I’m Doug .C. Hemstreet, born 1-26-27, grew up in Shelby Michigan til 7, then Traverse City Mich and my Grandmother’s 400 acre apple and cherry farm near Bellaire. Michigan. Dad, Carl Hemstreet, was the first county agent in the USA to become a Ten County Horticulture Specialist. Education was one year teachers college at Central Michigan, then Michigan State, agriculture and many odds and ends. After 3 ½ years, I shifted to Valpraiso Technical Institute for electronics. Took a job with a firm doing search, recruiting and placement of science and engineering personnel in Chicago, 1957, then started Hemstreet Consultants in 1959. ►I’m a member of Mensa, reading since three. Our 14,000 population town’s librarian bought every nonfiction book I suggested from age nine on. I’ve studied widely in most fields. I have 4,000 books in my non fiction library. My PhD’s in Metaphysics.

►Hemstreet Consultants did science and engineering personnel search, recruiting, and placement. I developed expertise in using my science knowledge to locate exceptionally talented people. I studied most areas of science, sociology, history, got into some interesting physics classes of U of Chicago. In 1978 I got into the first of four accidents giving me much time to study widely. I’ve studied Holistic Health since 1970, used the Applied Physics of Energy Healing to recover eyesight in a blind eye, learned that Bodies Are Part of the Mind, fixed a slipped disk on self in 15 days using Imagery. Science proved that thinking is done in the life energy field, Aura. The brain is a transponder, a receiver transmitter. “Mind As Healer, Mind As Slayer” Dr Ken Pelletier, MD.

►Whistle Blowing! WHAT IF Our Geniuses Are Right?

An honest Evaluation of these summaries of geniuses research requires reading our key documents.

►”A Basic Cultural Urgent Problems, GIGO Data Bases”, Fix, Education, Libraries, Peace, Media, Media Ethics, Scientific Method, Risk, Agriculture, Govt, Safety, Security, ACLU, Military, Health Enhancement References +.Examine our 120+ documents-CD, Web. Check Evidence, References.

►Radionic Devices Offer Proven Solutions to BioWarfare, Agriculture, Education, & Research.

Examine and apply Physics proof that Reality Is a MultiDimensional Holographic SubSystem.

PROGRAMS TALKS WORKSHOPS

Geniuses keep proving quite wrong what establishments and cultures are absolutely sure is true. We take two to hundreds of generations to adopt any new info conflicting with establishments mind set in any culture. I started Serendipity Association to address 35 cultural errors, omissions, and fantasies geniuses identify in human cultures. Cultural Psychology proved that Cultural Conditioning is hypnotic in character. Establishments, given new info that conflicts with their mind set, hide, discard, distort, falsify the new to them data to buttress their position. This is the Vested Interests Syndrome. There are studies and history books on people's psychological discount habits. It proves increasingly costly to continue failing to learn the lessons of history, herstory, and science.

► There are twelve errors in formal education, seven in informal education. Our grads created most or all of the problems in our culture, and many in the world. We work on symptoms while ignoring the actual basic causes of problems, and that they are all interrelated parts of a system. We expect to use the impact on leaders of falsified info in health to fix all 19 errors in education.

►► Physics and other sciences proved that we are a completely integrated part of a MultiDimensional Holographic Universe, Planet, and People Sub System. This offers solutions and opportunities for research that the mechanistic world view misses. Reality is far different then we assume it is. Our many false assumptions are destroying our future far more each year. A fully sane race would prevent problems, correct all basic causes of problems as interrelated systems, and cease causing problems while ignoring sociology, history, science, prevention, and solutions.

► Talks, workshops, and programs cover an overview of cultural errors, omissions, and fantasies, why they continue in the face of massive evidence to the contrary, and the tremendous costs in lives, wealth, and ecological damage affecting human survival. We ignore seven urgent emergencies affecting people and human survival. ► Weather cycle studies prove that the planet can support less then two billion in the near future. With no oil for agriculture, food transportation, and food processing after 2100, we must reduce populations to the level of 1200 AD, 500 million. Or we starve 6+ billion by 2400. Studies indicate that 70 to 130+ million will starve by 2100, up from the 18 million that starved in the last 120 years. Religions Act to Starve People. They promote overpopulation that has starved may, and will starve billions in the near future. We destroy Earth.

Governments suppress info on the 25 studies validating Holistic Health, with savings of 87% to 92% using a complete fully integrated Holistic Health Training, Healing, Prevention, and Insurance System. Eight attorneys told me that all have a winnable lawsuit against the MD system for RICO, theft by deception, criminal malfeasance, and manslaughter for their 1838 to present campaign to eliminate competition. MD's paid Congress for 82 years to be put in charge. They still get MD licenses cancelled, 483 by 2000, for successfully using Alternative Medicine modalities. This creates a climate of fear for those few that realize Holistic Health is valid. Kills MD's that Holistic Health will heal. Our demo project works with all mind body problems, almost all people, on a Free If Not Healed Basis. When healed, we ask volunteer time to help fix our world, and a donation.

► Physics explains energy healing, psychic phenomena, and why we can probably solve the problems of weather control, toxic and nuclear waste conversion or neutralization, anti gravity, and human survival. ► We can develop new power sources from the underlying structure of matter within 60 years and 1.5 trillion dollars using all of science in an Oak Ridge type project. Spinoffs will be valuable enough to pay for the project.

We fail to teach systems thinking, creativity enhancement for science, engineering, and software development, and the implications of our Holographic SubSystem. This will reduce R & D costs about 5% and improve the output by increasing intuitive awareness of errors, best action, and danger. This works because we are an integrated part of our Holographic Sub System. Physics explains spatial relationship abilities, safety, and security proposals. Holographic Physics opens many new R & D possibilities for products and problem solving. The forefront of science info will attract far more students to study all areas of science, solving our extreme lack of scientists. We need to reeducate all grads in the forefront of science and knowledge bring science to bear on all problems.

►► The Paradigm Shifts created by 46 scientific discoveries eliminating the mechanistic world view, and the implications of each discovery that did this since 1780 is info needed by all, yet we fail to teach this urgently needed data. This omission is very costly and damaging. This Holographic Universe requires Seven Elements of the Scientific Method, with Four Design of Experiment Elements needed for Research to be Scientific.

We ignore the damage and costs in failing to graduate all with an understanding of the lessons of history, science, sociology, systems research, and the urgency of long term planning in all areas

of human activity. We lack awareness of the immense GIGO problems in almost all of our information sources. Encyclopedia's have thousands of errors, still failing to understand that science applies to everything, even people, animals, and ecologies.

► Talks and programs will teach how to correct Vision using Imagery 1½+ hours daily in Meditation, eliminate stress and even many other mind body problem permanently with Imagery NeuroLinguistic Programming. Most can use the concepts in books, "Imagineering For Health" Serge King, to heal each other of stress, and correct vision in five days, 1½+ hours daily.. We demonstrate Holistic Health Healing, working with the physics of bodies to eliminate distortions in the life energy fields we call Auras. This heals all body mind problems, stress. Instrumentation shows Acupuncture Points, Meridian Lines, and Chakras. Kirilian photography takes pictures of these. Oriental firms are working on improving this process. We intro Vegetarian Diets, toxic and parasite removal, liver cleansing, kidney flush, and propose herbal studies. Use the very tasty Soy Dream vanilla to replace cows milk. We teach Educational Kinesthiology to check for allergies. Workshops on Holistic Health will teach all elements of health and healing, with emphasis on six of the eight classes of Energy Healing taught under 183 names world wide, and Mind methods that enable healing of all problems. We clear Auras of distortions, adjust Chara balance, and show how persistence with clearing minds and Auras will heal all problems but political stupidity.

Challenge. Use all of science and knowledge in all we plan and do. Plan and act as if humanity will be here for 100,000 years, instead of a few months. Act as if people, ecology, and long term human and ecological survival is urgently important. Why not promote planning ahead and eliminating problems using all of science and knowledge in all we do? Work with the entire Holographic Sub System in all that we plan and do. Teach 63% to see Auras. Aids creativity, security, safety, R&D, science, kids, and all areas of education. These tools will get most excited about learning of this very odd and fascinating world we still need to rebuild for humans, animals, and plants..

► We are far past the point of comfortable human survival. We can no longer rebuild the ancient ecological systems we urgently need for the future. How do we stop this rush to destroy humanity???

Sincerely, Dr Doug C. Hemstreet CEO Founder
