Dear Pat Schroeder & Committees,

Geniuses identify 35 cultural errors, omissions, and fantasies in our culture and our world. Publishers will find opportunities for non fiction and fiction books in utilizing this info internally, in advising authors and readers why we ignore critical info, and how the forefront of science, knowledge, and the lessons of history will, if used, prevent and solve problems that we seem bent of creating and making far worse. I'm a member of Mensa, studied most areas of science dealing with science and engineering firms throughout USA, and read widely in sociology, history, and learned that cultural psychology research is correct. They proved that only 4.6% of humans are able to even consider new to them info when it conflicts with their mind set. Belief systems take precedence of serious proven research. ► We seek the help of the association and it's members to create a major reeducation publishing push, getting all publishers involved in created the desperately need reeducation materials needed to enable leaders to stop the mad rush to destruction humanity is aiding. We offer the info that will increase the profitability of members, and reduce costs.

►►► This convention and all professional conventions need to be told that the purpose of flyleafs is to sell books, and words in print to communicate info. When these are deliberately printed with dark type on dark backgrounds and other hard to read formats, potential customers in book stores will not buy. Readers in libraries won't take it out, reducing sales also. How did this happen??? All media seem to ignore readability, even printing ads that are not readable.

My best book on printing says examine readability. The most readable format is dark brown ink on light tan paper, which eliminates page reflections. It's printed that way, and is the most readable in my 4,000 book library.

Arrange a study of each of the many cultural errors, omissions, and fantasies in our culture. Basic physics proof that we are a Holographic SubSystem of a MultiDimensional Holographic Universe, discarded the mechanistic world view 100 years ago. This alone proves serous faults in education, agriculture, safety, security, research, science, and MD health care. Eight attorneys who studied the 1838 to present MD war against Alternative Medicine say that everyone has a winnable lawsuit against their MD health providers. The entire system is involved in this ongoing 1838 to present campaign against alternative medicine, paid Congress 82 years under the table to be pout in charge of health care, and eliminate their competition. This war put 483 MD's out of business, taking away their licenses for working successfully with Alternative Medicine elements, or with a complete Holistic Health system. This war is reported in over 212 books.

There are five types of payoffs, all still used. All associations and their members are victims of a major crime, wasting 87% + of their health care dollars, and causing damage and unnecessary death to board members and employees.

As you check our summary of geniuses info, you will note that all media, educators, and leaders need a well designed workshop on the forefront of science and knowledge, why important info is ignored for two to hundreds of generations when it conflicts with their mind set, and the very urgent need to print accurate info in all fields of knowledge. The nuttiness in cultures and world offer opportunities for fiction and nonfiction that are being missed. Professional associations have an ethical obligation to advise their members of serious errors, omissions, and fantasies in their culture and world. Workshop design will bring together the geniuses in each field to present what is known at the forefront of science today, and why new info is still ignored.

► Science keeps proving wrong what “Everyone knows is absolutely so”.
Emphasis is on physics info on holographic subsystems, and why science requires using a seven element scientific method system, with four design of experiment methods needed to be scientific.

We can send you a CD with 120+ articles covering most areas of humanities many errors. We are preparing to put them on a web page, serendipityassn.org. Serendipity Association will find it also. Examine the costs and damage done by ignoring research, science, sociology, and the many lessons of history.

Can we get the association and it’s members to study and report on these errors, and start producing the reeducation books and multimedia education materials that leaders, educators, and all of Earths people desperatly need to increase our diminshing chance of human and ecological survival? ►► Illiteracy in these areas has media, leaders, educators, and people failing to note and use 32 studies on safety training with 98% to 99.7% less accidents nad errors in the study groups, 25 studies proving Holistic Health valid, Natural Healing Systems Vegetarian Diet Preventive Health savings of 56% to 68%, herbal ointments eliminating skin and breast cancer in 98%, the best oriental physicians missing only one case of cancer of 689, permanent stress removal in three to ten hours with NeuroLinguistic Programming, 12 errors in Formal Ed, 7 in Informal Education, no oil by 2100, weather cycle studies proving drastic reductions in good weather for crops, increasing lack of potable water, droughts and wet weather increasing, polar and greenland ice melting expected to increase ocean levels over five feet by 2100, with more increase later, matriarchal cultures being far better then patriarchal cultures in caring for people, ecologies, and planning for future, women in professional jobs doing substantially better then most men in the same jobs, earth can support only 500 million in the 2100’s.
