►May 6, 1998 April 12, 2003 November 21, 2006

Dear Board, CEO, Officers, Committees, Foundation, Suggestion System & Grant Director,

Correcting all ethical errors is extremely good business. 3M's Ethics Consortium only addressed some ethical issues, ignoring the most important ones! We invite you to help our nation and world, and improve your competitiveness Corporate America, Media, Universities, most Non Profit Associations and Governments have failed to address major ethical and scientific errors and the use of unscientific methods in the fields of health, education, agriculture, R& D, safety, error reduction, crime, violence, rape and problem prevention. These errors affect society and your bottom line adversely, and keep our best firms from being fully creative and fully competitive. These errors were caused by greed, arrogance, human gullibility, scientific illiteracy, and cultural blind spots. Media and Establishments assume that their basic data base must be accurate, that Vested Interests info must be free of false assumptions, lies, and deceit. Cultural conditioning is proven hypnotic. Our leaders work on symptoms of our problems instead of the basic causes.

Our best management failed to note many studies showing that Natural Healing System Vegetarian Diet Prevention will cut illness costs 56% to 68% This will reduce birth defects and all health problems--cancer 92%+. Let's require training in child care, parenting, relationships, marriage, and creating communities. We ignore prevention on crime, educational problems,

agriculture problems, marriage family children relationships, violence, rape, theft, drugs, malnutrition, birth defects, accidents, errors, etc. Prevention is tremendously cheaper!.

►Whistle Blowing! What If Our Geniuses Are Right?

Honest Evaluation of these summaries of geniuses research requires reading our key articles.

►”A Basic Cultural Urgent Problems, GIGO Data Bases”, Education, Libraries, Media NYT, Media Ethics, Ed Scientific Method, Fix, Peace, Agriculture, Govt, Safety, Security, ACLU, Military, Health Enhancement References, etc. Web-CD’s 150+ articles. Check Evidence, References.

IF you check references and examine evidence this time, this info will enable applying all of the lessons of science, history, cultural and social psychology to prevent and solve problems. Our governments act illegally against children, women, men, ecology, and science throughout history and today. Humans continue

Earth’s oil is gone by 2130. Weather cycles alone require reducing population below 2 billion. ►How many people can Earth support with no oil for agriculture, food transport, and food processing, with weather cycles reducing crop production drastically? Perhaps 500 million if we do everything right. This is the most urgent emergency of the eight major disasters facing humanity. Plan ahead??? Or starve billions very soon. ►Anti abortion

to destroy Earth’s environment, and wipe out our slim chance of survival. Help make human survival the first order of business for corporations, educators, and governments. Help stop AARP Civil Rights violations in health and safety.

anti birth control anti population control killed half of the 18 million starved since 1893, and will kill six billion 2100-2400. Anti abortion is genocide of billions, as we lack sure birth control methods. ►Women die in pregnancy and child birth, 1 in 6 to 1 in 2700. Anti abortion is manslaughter. Abortion is safer then pregnancy and birth.

TAKE AN ETHICAL APPROACH—SAVE LIVES, SUFFERING, and MONEY .
ETHICS—PROFIT—HEALTH—SAFETY—ERROR REDUCTION

I propose that you check references, add a cover letter on the results, and copy to all board members, officers, all committees, departments, and Ethics groups. Correct cultural errors, omissions, and fantasies. Examine why our best corporations and universities were unable to note and evaluate obvious data

affecting adversely their lives, competitiveness, creativity, profits, and long range future. Humans still fail to question Vested Interests in many fields. We continue our inherent bad habit of ignoring our geniuses discoveries at the forefront of science and human knowledge for many generations. Their discoveries used as an

integrated system would enable solving and preventing the actual basic causes of our many problems. HHS and MD's say arthritis, diabetes, and many other problems are not curable. Alternative Healers cure them. Eliminating allergens, toxins, and parasites heals many problems. Permanently eliminating the internalization of stress with NLP and using

I challenge you to carefully check references in each area, then gather and examine the evidence. I ask you to lead the nation and world in recognizing and using the forefront of science and human knowledge to correct each of humanities problems. There are 52+ US University Medical Schools teaching Alternative Medicine classes, some examining how to integrate Holistic Health with MD systems, while HHS acts as if it's not proven. U of New Mexico is planning integration, The 1838 to present War against Alternative Medicine has brainwashed our world, western societies throughly--ours very badly. Washington state requires that all Health Insurers cover some of these well proven, very effective Holistic Health modalities. This adds

more proof to research finding twelve very serious errors and omissions in formal education, seven in informal ed. Research in sociology, history, and cultural psychology show that greed, arrogance, Gullibility, Vested Interest distortions and pressures sold out people in all problem areas. Holistic Health suppression is still causing many unnecessary deaths and is causing millions to suffer from easily healed problems. Cultural Psychologists study the Vested Interest Syndrome, finding that only 4% of humans can even consider new ideas that actually conflict with their mind set.. Our grads created every problem in our country, and many in our world. They only address the symptoms of major problems, and ignore the actual basic causes.

►Media management has proven unable to consider info that conflicts with their mind set. When media report establishments false info as if it is true, it's far worse then making up stories Study our Web-CD 150+ articles detailing Cultural Psychology's Vested Interest Syndrome Research proving that humans are inherently gullible as only 4.6% can even consider info conflicting with their mind set, Geniuses Identify 35 Cultural Errors, Omissions, & Fantasies. Examine the effects of Vested Interest Pressures, Distortion, False Assumptions, Cultural Blind Spots, Greed, Arrogance, Ignorance, Stupidity, the Good Old Boys Network, discrimination against geniuses,

Our educational systems, publishers, and educational multimedia developers are failing to notice the \$450 billion market for multimedia educational programs to teach our world's leaders, educators, and other establishments what our geniuses have learned in many fields that will prevent and solve humanities' rapidly increasing problems. We still discriminate against geniuses! Geniuses info on cultural errors, omissions, and fantasies includes much data that will improve product development in all fields, and offers product advertising and promotion possibilities. The enclosed data is the tip of the iceberg about errors, omissions,

plus. Media prints establishment info without being able to notice skewed and completely false info. Media lack the high intelligence and breadth of knowledge required to notice establishment errors, omissions, and fantasies. They discount and discard new to them info on major errors and fraud. Our best media fail to check references, study evidence, and examine research proving that establishments are giving them info in many fields that has long been proven false. We ignore the lessons of history, herstory, science, and systems. Costs are money, cultural viability, and lives, damage to board and employees who suffer and die unnecessarily. Results: major losses and ethical violations. Is media legally liable to employees and audiences for aiding proven coverups, reporting information in major fields that research has long proven false as if it is true???

and fantasies in our culture and world. Get the safety training info that enables reducing accidents 98%-99.7% required for kids, drivers, pilots, ATC +: These tools increase creativity, reduce errors 96%-99%, and reduce violence by eliminating the causes of the internalization of stress. Applying Holistic Health data will save you 80%+ on illness costs, save lives, suffering, teach all how to correct vision with imagery, and give you very winnable lawsuits against MD health care providers. Do the obvious. Ask all employees and customers about experiences with Holistic Health and Vision Correction. I seek board members, ideas, funding, staff,

director, equipment, computers, software, and books to aid our nonprofit in addressing the basic causes of these problems. We need funds for grant writing, optimizing design of projects, offices, director, staff, +. Help to create Holistic Health Centers for healing demonstrations, and help optimize educational projects. Let's establish projects to correct all encyclopedia and reference books errors and get operating and management systems

We could create Holistic Health Training and Insurance firms and Holistic Health Care systems that will take over all of the world's health insurance and health care, or offer consulting services to redesign current firms. I seek partners for new firms to produce the Psychotronic and Radionic devices that eliminate the need to use pesticides, make all living and work environments healthier for plants and animals, reduce air pollution, reduce stress, reduce violence, increase safety, and improve health. There are over 36 devices that will open 12 markets, some for computer users. I seek partners for the Alcor battery, with 486

Proposal: Create & Implement Urgently Needed Reeducation Products to Create a Successful "How to Make the World Work Project"

watt hours per lb.--thirty times the power of lead acid batteries at half the cost per kilowatt. Gather and examine the evidence on what our geniuses have learned that create massive opportunities for helping our world and creating wealth. I'm a member of Mensa, had a consulting firm 1960-1976, have a background in science, physics and electronics, studied Holistic Health since 1970, and have studied and talked with our geniuses in most fields since 1938. Let's discuss these tools that will make you more competitive and aid the survival of our people, ecological systems, and our world.

and individuals faced with info that disagrees with their mind set throw out new data, discount data, suppress data, and create false data to buttress their position. Cultural Psychology says that only 4.6% of humanity can even consider data that disagrees with their habits of thinking. This is called the Vested Interest Syndrome. Cultural Conditioning is proven to be hypnotic in character. This is why we ignore important info that would improve

research and development, increase the rate of invention; improve genetic research effectiveness; drop accident rates 98% to 99.7%-32 studies, and errors on the job and in life 96% to 99%-38 studies; correct all nineteen errors in educational systems; use 38 studies on preventive health using Natural Healing System Diet Prevention plus stress removal to reduce health care costs 56% to 68%, and use the 25 studies in 19 countries that found Holistic Health valid to drop illness care costs over 80%. Universities need to integrate Holistic Health into Medical Schools and health care. 52+ have added classes on Alternative Medicine. There are over 896 studies on the many Alternative Medicine healing modalities that combine to create a complete Holistic Health System Laboratory Instrumentation shows

A more effective approach to world peace may be possible when our world leaders learn they have been given information on important areas of education, safety, health, healing, prevention, ecology, agriculture, weather and solar cycles, science, R and D, and human survival that is woefully incomplete, distorted, false, and lacking a substantive foundation in science. This insane suppression of science in health is killing thousands daily in the USA, causing millions more to suffer unnecessarily from problems easily healed by a complete Holistic Health system, while wasting 87% of corporate and taxpayers health care dollars.

The major critique of education is that all problems in our culture and our world were

Acupuncture Energy Points, Meridian Lines, and Chakras. Holistic Health Systems work with the whole person as a Holographic Mind Body Energy Field Spirit System, healing almost all problems except political stupidity. Intensive whole person whole system healing takes less total time. Using Imagery and Energy Healing 6 to 12 hours daily assures success and takes less total time. Persistence in a spiritual focus will enable complete Holistic Health clinics to guarantee healing within 40 hours, work free if not successful, on all problems and almost all people after a 5 hours evaluation. An integrated group of energy healers overcomes the resistance to healing and heals all mind body problems very rapidly.

Cycles of change in planetary weather, geological upheavals, and ecology will kill billions by crop failures. This info may make it feasible to get governments, educators, foundations, and all establishments to apply what our geniuses in all fields have learned that make it possible to develop nonviolent cultures that are free of greed, encourage creativity, cooperate towards common good, work on prevention of problems and the basic causes of problems instead of only addressing symptoms, act compassionately, and plan ahead for 100,000 years.

created by people that went through our educational systems and did exactly what was

needed to create these problems. They were not caused by “Someone out There” who came in and made these grievous errors. Our graduates work on symptoms instead of the basic causes of our problems. Our educators went through educational systems that are so bad that they fail to teach them the basic information they needed to make optimum decisions for our future. They missed prevention on all problems! Education

1--Paradigm shifts, the 46 key discoveries that created them, the implications of each of these discoveries, and their effect on all elements of our world view: thinking, research, educational systems, cultural decisions; city, home, and workplace design; and on creating happy, playful effective cultures

2--Systems research and systems thinking. We and all that we deal with are systems that are subsystems of greater systems. All in our universe are MultiDimensional Holographic SubSystems, indeterminate matter, flickering in and out of existence, a Hologram. Humans are a Holographic Mind Body Energy Field Spirit System that is indivisible! Working

management and staff lack the education needed to design the optimum educational systems we need. We still have twelve basic errors in formal educational systems, seven in informal ed. Examine a few of the more obvious errors, omissions and fantasies. We graduate people that lack important, urgently needed info on:

with whole systems is far more effective. When we work with part of a system we get unforeseeable results. Universities and management training have failed completely to recognize or deal with the actual reality we live in. ►The mechanistic world view was proven false by 1907.

of Universe, planet, ecology, people, and events. Physics research finds that all matter is indeterminate, a flickering Hologram. A Physicist, Nobel Prize, writes “ Everything is Mind Stuff”. Physics today requires Seven Elements of a New Scientific Method, and Four Design of Experiment Methods to be Scientific.

4--Cultural Psychology Research on the Vested Interest Syndrome shows that as only 4.6% of humans can deal with a new to them concept that actually disagrees with their mind set. A conflict between what they absolutely know is so and what research has proven results in discarding the research. People develop a world view that disables their ability to consider variant data. Individuals and establishments given new data will discard it, ignore it, distort

5--Science. The forefront of science keeps proving wrong that which we absolutely know is so. The history of science is the history of suppression of innovation. Science has proven that reality is far different then our previous mechanistic world view, and that our world and us are MultiDimensional Holograms. Educators still teach obsolete world views as if

6--History--Cultural errors are reported in over 6,000 books. US history-693+ books tell of repeated acts by our governments against the needs and best interests of all people. Failure to learn the lessons of history dooms us to repeat them. Humanity keeps repeating ancient errors. This has become far more expensive in recent years, and now endangers human survival. The current population pressure will destroy most of our important ecological systems. Studies of solar and weather cycles, ice cores, geological records, and history show that we will be entering long periods of much warmer, sometimes much cooler, and wetter or drier weather which may last 31,000+ years. Perhaps the planet will support 2 billion people during

it, hide it, or even create false data to buttress their position. Governments, educators, and most large establishments do this habitually. This leads us to discriminate against innovators and geniuses, or kill them. History and sociology research studies report this. Brainwashing works very well. Cultural Conditioning Is Proven to be Hypnotic in 95.4% of people.

they are so, and miss massive Paradigm Shifts, the physics and science research that discarded the mechanistic view of reality, history, sociology, interrelationships between all fields of knowledge, and long range planning. Let's correct these bad habits before we destroy all of our habitat and all of humanity.

these cycles IF humanity is very lucky, and also develops new power sources to replace oil. With no oil for Agriculture, Earth can only support 500 Million. Britain's Thames river froze three to five feet thick from 980 AD until it quit freezing in 1729. We need to plan for geological changes, volcanic dust wiping out agriculture for 5 to 30 years, ice ages, warming cycles, 19' higher sea levels, meteor barrages, solar cycles, major solar flares, all oil gone by 2100, and the major ecological impact of ten thousand years of industrial production. The polar ice caps are melting. A cooling Gulf Stream may stop. New technologies will create weapons far more destructive, making our present weapons seem like toys in comparison.

This makes it mandatory to develop effective, sane, creative, playful, caring educational and social systems which will eliminate violence and war.

Our race has the information and tools to eliminate waste, war, greed, crime, violence,

7--Sociology. Some of humanities cultures have solved the problems of violence, rape, drugs, crime, community development, and mutual cooperation so all can depend on each other. There have been 17 cultures that have been quite free of violence. There have been no murders or violence in the Australian Aborigines' history. A few Cultures have solved and/or prevented most of our problems. We flunk history and herstory. We fail to teach and

8--Science and Engineering Education: Teach the importance and results of using All Seven Elements of the New Scientific Method, training methods that increase creativity and the rate of invention, reduce errors 96%+, accidents 98%+, Paradigm Shifts, implications of each of the 46 discoveries that created them, how these affect R and D, corporate development, research, planning, government, agriculture, & education. learn how cultures meet the needs of all people and ecologies, or fail to meet them, and why. Research on group interaction shows that small communities are more effective in meeting peoples' needs. Cities need to develop true small communities for each area. Let's use this info. We are still tribal peoples. We relate best in small, caring, supporting communities.

10--Holistic Health heals almost all body mind injuries, illness, and birth defects. It's been validated by 25 studies and 896+ studies of healing modalities which merge to create complete Holistic Health systems. Energy Medicine corrects distortions in the Holographic Energy System involved in the recreation of bodies. Physics found that all matter flickers in and out of existence as it's a Hologram. Energy Medicine is validated by 42 University studies since 1956, and 52 studies prove it eliminates viruses, HIV, and bacteria. There are many studies of Oriental Medicine. Instrumentation shows Acupuncture Points, Meridian Lines, and Chakras. Naturopaths are licensed in 11 states, get all of the MD courses at the four big schools, plus much of Holistic Health, and 33

11--Britannica has over 1200 errors, and has proven unable to consider correcting them. I've called many to their attention since 1963. They failed to correct errors in: education, missed: Educational Kinesthiology eliminating dyslexia and 85% of reading problems, Paradigm Shifts, all seven elements of the new scientific method, how to increase rates of invention, Imagery for Vision Correction, Alternative Medicine proving wrong most MD based entries, and Psychotronic Radionic devices that eliminate pesticide needs, making crops, soils, and animals healthier. Radionic devices were validated by USN research, ATTRA, and

All Mental and Physical Traumas.

studies say they are "Far more effective, heal many "Medically Incurable" problems, and are less costly than MD's". Over 428 MD's added ND degrees, and 621+ added Oriental Medicine degrees. Attorneys studying the 1838 on MD-HHS-Government war against Alternative Medicine say Congress, firms, and non profits are involved in crimes: theft by deception, criminal malfeasance, and manslaughter. In 1984 the UN Human Rights Commission received a charge of American Medical Genocide, 42 pages sent to 450 in government, education, and media. This is still available. Dr Bob Bradford, American Biologics, 619-429-8200.

16,000 farmers. The Tower makes plants and animals healthier and calmer within a 2500 acre area. See Agriculture article. They missed 212+ books on the ongoing war against Alternative Medicine. Attorneys studying the anti science MD war against Holistic Health say our MD Medical System based on pills, surgery, radiation, and chemotherapy violates Civil Rights and Human Rights of our citizens. The AMA was found guilty of restraint of trade, conspiracy, and anti trust in 1987. Congress and hired officials are all legally liable for taking part in manslaughter. They have no immunity for killing people.

Let's talk about how to use scientific breakthroughs to create profitable divisions and firms that will help correct humanities' habits of error, and how this data can improve and increase your business. Let's develop programs and projects to: redesign educational systems error free, create error free encyclopedias, reference books, and histories. Let's retrain all leaders and educators on what humanity has learned, and why geniuses get discounted and ignored. Using all of human knowledge as an integrated system will improve the effectiveness and cultural impact of most non-profits. Market training on: eliminating stress internalization,

tools that eliminate 96% to 99% of errors and 98% to 99.7% of accidents for computer users, educators, children, mothers, corporate boards, management, governments; drivers, R & D, pilots, ATC; and others, correct Vision with Imagery, use systems research, teach science and engineering overviews to all, clarifying all interrelationships, applications and updates; improve home design using psychotronic devices, modular design, ergonomics, lowest energy use; and use complete, fully integrated Holistic Health Systems. These are tremendous markets, and will aid humanities survival.

Help get all of our worlds corporations to start Social Concerns Committees. Involve all boards, management, and employees. These groups could hold politicians responsible for their continued actions against all citizens and against human and ecological survival. Study and correct management errors that caused IBM's CEO staff to send a proposal for marketing, product development, error reduction, ethics, and health care cost reduction to HR who go along with these inherent cultural errors, omissions, and fantasies involved in these problems. CEO's staffs and HR VP's in major corporations, media, and government proved unable to consider checking scientific evidence and references.

Consider our grant and research proposals for new products and education systems. We ask your help. We can get cultures to address the actual basic causes of each problem instead of symptoms. Shall we begin solving cultural GIGO problems, have fun, create a harmonious healthy happy survivable world, create new, very profitable firms, improve your bottom line and your customers, and make USA more survivable and competitive?
