Proposal: Apply All Of Science to Risk Management, Corporations, & Governments.

The basic foundation for current education, media, government, and corporate systems was substantially destroyed in 1907. Physics proved universes are MultiDimensional Holographic SubSystems. All we deal with are Completely Integrated Holographic SubSystems. This requires Seven Elements of a New Scientific Method, and Four Design of Experiment tools to be scientific. Our Project Proposals clarify the urgency of learning why establishments fail to note and use all of the forefront of science and knowledge to identify risks and act to correct all of the basic causes of problems as interrelated systems, to learn and apply the forefront of all human knowledge, history, sociology, and science, and Why New To Us Info That Conflicts with Mind Set, Belief Systems, Is Discounted and Ignored for Generations. ▶ It is very urgent to add the training and reeducation programs needed to change destructive inherent human habits that have already destroyed any possibility of comfortable survival for humans and the ecological systems needed for survival. Why make key decisions on info long proven false??? GIGO is damaging and very costly.

▶ Albert Einstein “Reality is merely an illusion, albeit a very persistent one.” Those who fail to learn history are doomed to repeat it. Those who fail to learn history correctly are simply doomed.

We still discount geniuses info proving knowledge resources are badly GIGO’d. Always have.

Risk experts need info on why and how innovative, new to establishments concepts are

suppressed, ignored for many generations. Science, sociology, and history keep proving quite wrong what “Establishment’s Absolutely Know Is So”. Faced with new to them info that conflicts with their habits of thinking, establishments today as throughout history fail to change their destructive and costly habits of thinking and action. Conflicting info is ignored, suppressed, distorted, destroyed, or falsified to buttress their position. ➤Sociology Cultural Psychology research calls this the “Vested Interest Syndrome”. Only 4.6% of humans can even consider new to them info that conflicts with their belief system. “Not Invented Here” takes precedence over any amount of research proving establishments are depending on and

➤➤Traumatic events create hypnotic programs in 92%. Counseling works poorly on hypnotic programs. Imagery NeuroLinguistic Programming permanently eliminates the internalization of stress in three to ten hours in most cases, only one day. Add the Applied Physics of Energy Healing to heal resistant cases, and to speed healing on all people. There are ten ways to get children and adults free of stress. Imagery NLP is fastest.

Justice fails to use Holistic Health

Discounting scientifically proven info results in substantial and mostly avoidable damage. Many, perhaps most, of these errors are

using info long proven false.

➤Cultural problems are increased by arrogance, greed, the Good Old Boys Network, five types of payoffs, that 87% of people gaining power felt unloved as children so they sought power as a substitute for love, and habits of most people of going along with the power of establishments, victims of brainwashing. Add Twelve Errors, Omissions, and Fantasies in Formal Education and Seven Errors in Informal Education, according to 53 education books and sociology research. Sociology and history research applies to our problems today. ➤Cultural Conditioning Is Proven to Be Hypnotic in Character.

Healing and Prevention sciences that enable healing all mind body problems involved in swindles, crime, murder, rape, pedophilia, anger, violence, greed, relationship problems, failures to use the state of the art, and any destructive behavior. Transpersonal Psychology grads and abilities can identify guilt, potential terrorists, and recidivism in all criminals and sexual predators. Holistic Health enables healing almost all of them.

reasonably obvious to any with a broad education and understanding of science, sociology, and history. Many errors constitute

serious negligence, criminal negligence, and very serious crimes against people, budgets, and stockholders.

►What is establishments, managements, and elected or hired government officials legal liability when errors result in losses, stress disability, accidents, death, unnecessary illness, injuries, manslaughter, and massive genocide?

►Research in universities keeps proving management and governments make serious, destructive errors, yet we take two to hundreds of generations to adopt new info and discoveries requiring changing thinking habits. “Not Invented Here” outweighs proven data that will save lives and money.

►Whistle Blowing! WHAT IF Our Geniuses Are Right? ►Summaries [www.serendipityassn.org](http://www.serendipityassn.org)  
An honest Evaluation of these summaries of geniuses research requires reading our key documents.

►”A Basic Cultural Urgent Problems, GIGO Data Bases”, Education, Libraries, Peace, Media NYT, Media Ethics, Scientific Method, Risk, Agriculture, Fix, Govt, Safety, Security, ACLU, Military, Health Enhancement References +.Examine our 150+ articles-Web-CD. Check Evidence, References.

►Radionic Devices Offer Proven Solutions to BioWarfare, Agriculture, Education, & Research. Examine and apply Physics proof that Reality Is a MultiDimensional Holographic SubSystem. Therefore We Are a Completely Integrated Holographic Mind Body Energy Field Spirit SubSystem.

Examine the implications of ignoring major research. ►Physics discarded the mechanistic world view in 1907, proving false much that we still teach as if true. ►Physics proved Reality is a MultiDimensional Holographic SubSystem. This requires a New Seven Element Scientific Method, Four Design of Experiment tools needed to be scientific. 638

►Study why education management ignore their own geniuses, even in our best universities. Can education, management, boards, and professors be held criminally liable for their part in creating genocide, manslaughter, and disasters??? It seems very illegal for groups, individuals, and governments to promote waste, manslaughter, and genocide.

►The many lessons of science, history, and sociology are still applicable, needed, and thoroughly ignored. Science offers many new R & D projects to deal effectively with our Holographic SubSystem. Apply the New Scientific Method and Systems research.

books by scientists, 85 by physicists, scientifically explain our Holographic Realities Implications and Applications. Physics explains spatial relationships, safety, energy healing, Radionics, Psychotronics, Pyramid Energies, psychic phenomena, and much else. One percent can see Auras, 5% of children. Many see patterns in Auras, enabling them to see health

problems and note dangerous people, drugs, or bombs. Time is proven an illusion by physics. Some can identify problems or dangers well beforehand.

►Physics proved MD systems wrong. People are Holographic Mind Body Energy Field Spirit Integrated Sub Systems. Instrumentation Shows Acupuncture Points, Meridian Lines, and Chakras. This is why we can solve regeneration of all body mind elements within five years for \$50 million. We seek funding for R & D. This Holographic design is the foundation for Energy Medicine, thirty two safety studies with 98% to 99.7% less accidents and errors in the study groups doing Tai Chi, Meditation, Aikido, and why small women can't be attacked successfully by five men after two years of Aikido. People

►Holistic Health is validated by twenty five studies, saves 87% to 92%, found valid by the President's Health Committee 23 person study in 1997, yet MD's on the full committee suppressed their report. Natural Healing System Vegetarian Diet Prevention Studies find 56% to 68% savings with 76% to 83% less illness. Media, educators, culture promote malnutrition. ►Learn why we still have an 1838 to present war against Alternative Medicine, reported in 212 + books, with 483 MD's losing their license for working successfully with any Alternative Medicine modality. MD's paid Congress under the table for 82 years to take charge of health care and eliminate their Alternative Medicine

will avoid danger, as this training increases intuitive awareness of danger, error, best action, creativity and rate of invention. This aids security stress removal, and research. Energy Healing is validated by 42 studies. It's Applied Physics. Instrumentation shows Acupuncture Points, Meridian Lines, and Chakras. Military spent \$195 million on Psychic Research thru 2001. Resaerchers find it valid.

►Science advances by 2100 will make feasible weapons that will make Nuclear Bombs seem like popguns. We create all sane balanced cultures before this event, or make destruction of life and planet even worse. Humans Are Proven to Lack Sanity. What errors have you noticed?

competition. Why did the UN Human Rights Committee receive "A Complaint Against Medical Tyranny As Practiced In The USA: American Medical Genocide" 1984-42 pages by a Chula Vista CA nonprofit, still available. Sent to 450 places. Ignored. ►We Ignore Problem Prevention. ►Eight Public Health grads told us arthritis and diabetes are cured by herbs and diet. ►Holistic Health eliminates the need for over 90% of pharmaceuticals. ►Eight attorneys told me that all have a winnable lawsuit against MD's and medical organizations for aiding the 1838 to present ongoing war against science in health care. MD's paid Congress 82 years under the table to take charge of health and eliminate

all competition. Results: Criminal Malfeasance, Theft by Deception, Manslaughter, and is RICO. ►►► Elected officials and management are legally criminally liable for aiding manslaughter in aiding MD and Safety errors and crimes. None Have Immunity for Aiding and Abetting

NeuroLinguistic Programming Imagery tools will permanently heal the internalization of stress from any victimization in three to ten hours-one day! People can use Imagery concepts in books “Imagineering For Health” Serge King, three to ten hours consecutively, correct Vision within five days, change height, breast size, weight, and get each other free of stress internalization almost as fast as the grads. These tools work with the fact that holographic bodies are part of the mind. Persistence with Imagery in Meditation heals many problems.

Education still has Twelve Errors, Omissions, and Fantasies in Formal Ed, Seven in Informal

Human failures to plan for ten thousand years are increasingly costly. Earth is a very small planet. Major errors and omissions in management, engineering, education, and science result from failures to understand and use all of the forefront of science and knowledge and to work with the whole system using all seven elements of the scientific method. .

Working with part of a system is proven to get unforeseeable results. Examine the implications

Manslaughter! They also aid malnutrition. ► Neither educators, DoD, FBI, CIA, Congress, states, or media will check 32 studies of safety training that saves lives in war, highways, fires, bikes, cities, wilderness, homes, and life.

►►► There are five types of payoffs!

Ed. ► Stress Internalization interferes with learning and sports success, yet we ignore ten ways to get and keep kids and adults free of stress. ► There are five ways people learn. Why not use all five? We fail to identify kids problems, aptitudes, abilities, life goals, and interests, or aid them to do this. We fail to address the many problems in home and cultural environments that are factors in learning.

Holistic Health tools enable healing all learning problems, even brain damage and genetic errors. ► All Injuries, even Sports, heal in one to five days. ► Why ignore creativity enhancement training for scientists, engineers, and all fields?

of all we deal with being part of a Holographic SubSystem. Work with as much of the whole system as possible in R & D, health, safety, security, education, and all other activities.

► We’re out of oil next century.. We’re past 265 years of better crop weather which expanded populations with more food. With far worse crop weather then past centuries and. no oil for agriculture, Earth can only support 500 million ► UCSD Prof Milton Saier writes this also.

We ignore Radionic Devices that use

different frequencies to eliminate pests, viruses, bacteria, fungus, or mold in the target area, saving 12%-15% on farm budgets. Radionics is validated by USN, ATTRA, and 16,000 farmers. These will eliminate all infections that plague Earth, solving BioWarfare. ► We seek funds for R & D to improve these, and learn if we can cover the planet from a single location. Psychotronic Towers make plants and animals healthier and calmer in a 2500 acre radius, reducing birth defects 98.7%, yet they are still discounted.

Effective Risk Prevention requires being able to listen to and examine info that conflicts with the establishment thinking. It's often right. Teach "Science keeps proving wrong what Establishments Absolutely Know Is so". Apply the many lessons of history and herstory. IF it didn't work then, it probably won't work now. Doing even more of what's proven unworkable doesn't help. The costs of ignoring research in Sociology, History, Cultural Psychology, and Science are very high.

► Why suppress Zoology research that has identified 450+ species with homosexuals? Suppressing this info results in violence, murder, and a four times greater suicide rate when youth learn the Creator designed them homosexual. All involved in these lies that kill people and ruin lives are guilty of aiding and abetting murder. Why silence instead of

► Today's Physics indicates we may solve creating power from the underlying structure of matter plus many valuable spinoffs, yet we fail to start this \$1.5 Trillion 60 year Oak Ridge type project. Nuclear bombs and power were solved with 1938 sciences. ► Physics indicates that Holographic System research may solve anti gravity, weather control, fire elimination, toxic removal, neutralization of nuclear radiation, + many other problems unsolvable in mechanistic systems.

prosecution of all religions, nonprofits, groups, media, educators, and people involved? Until the USA Constitution is discarded, it is illegal not to allow gay lesbian marriage. These laws and actions happened because people were lied to. False info again causes deadly problems for people.

The effects of language, religion, culture, history, belief systems, and education on attitudes, emotions, and probable actions have been studied for almost all cultures, even USA and Islam. USA ignores this. ► Each language reflects actual different concepts, world views, different ways of processing info, understanding and thinking about the world. Language actually affects peoples ability to consider information. Training in General Semantics and Active Listening is urgently needed. All cultures will benefit from teaching

three + languages to all children and adults. Each gives a different cultural and world view. USA and most governments are designed so Vested Interests control their actions, rather than needs of children, women, men, society, and ecologies.

►How can we require very high intelligence and the ability to pass an exam on

Current actions by governments, business, and other institutions continue humanities mad rush to destroy Earth's habitat and its people. This makes survival more difficult, less likely.

We Challenge Risk Management to take all actions needed to reverse this current increase in destruction of resources, habitat, societies, people, and needed establishments.

How can we reduce populations rapidly to

Examine what is needed to place human and ecological survival importance far above profit and power seeking. It seems urgent to bring criminal charges against all groups or individuals aiding overpopulation in any way, or forcing women to bear babies when we know

Is Risk Management and management in education, media, business, and government able to study and apply new to them info when Cultural Blind Spots caused them to ignore research???

Discounting Holistic Health, safety training, science, sociology, history, ecology, weather cycles, and the lessons of history is dangerous, injurious, and costly.

the forefront of science, sociology, the many lessons of history, and critical thinking in order to run for office or for school boards, with no Vested Interest money or personal fortunes involved in elections???

False assumptions have always proven destructive.

Why leap to conclusions without evidence?

the actual 500 million people carrying capacity of our very small Planet Earth with no oil???

How do we husband all natural non renewable resources on an extremely parsimonious basis? They ain't making no more!

►People act on emotional beliefs, then find logical reasons for actions afterwards.

some will die. More people increases starvation!

►Damage to Earth and people is drastically increased by power seekers who felt unloved as children and wield power as a substitute for feeling loved. Greed is increasingly very costly.
