►Proposal: World Peace Education Health Agriculture Security Safety Human Survival

November 20, 2003

March 22, 2007

Dear President Carter, Rosalyn Carter, and Carter Center Board,

Rewrite 3rd Request

Why No Resp0onse?

Geniuses identified 35 cultural errors, omissions, and fantasies in our culture. Examining the evidence on these for a lifetime led me to start the Serendipity Association. Dad was County Agriculture Director in Michigan, and the first District Horticulture Director of ten counties in the USA. I spent much time on my grandma’s 400 acre fruit farm, started out studying agriculture in college, then science, physics, electronics, with wide ranging study in history, sociology, and cultural psychology. I studied most sciences in dealing with scientists and engineers around the USA. I saw firms make serious errors that could have been avoided if they used a systems approach using more or all of our geniuses’ info. Geniuses are usually right, and often ignored for many generations when their info conflicts with the establishment’s mind set. Discrimination against geniuses is very damaging to cultures, is sometimes deadly, and should be considered a major Civil Rights violation.

►Albert Einstein “Reality is merely an illusion, albeit a very persistent one.” Those who fail to learn history are doomed to repeat it. Those who fail to learn history correctly are simply doomed.

►In 35 years of talking at and mailing politicians and their staffs, Senators, Reps, and legislators send form letters without reading our info and proposals. Democrats have lost many elections that were winnable if they had used all of geniuses info to address actual causes and solutions with science, and blown the whistle on all errors, instead of making more errors.. Politicians and their staffs have proven completely unable to consider any information on the 35 major cultural errors, omissions, and fantasies geniuses have identified. ►►►Is it true that the only info politicians consider is that including a massive donation? Vested Interests are damaging to our future.

► Whistle Blowing! What If Our Geniuses Are Right? See Geniuses info serendipityassn.org

An honest Evaluation of these summaries of geniuses research requires reading our key documents.

► "A Basic Cultural Urgent Problems, GIGO Data Bases", Education, Libraries, Media NYT, Media Ethics, Ed Scientific Method, Agriculture, Fix, Peace, Govt, Safety, Security, ACLU, Health Enhancement References, etc.+ See Web-CD 150+ articles. Check evidence, references.

IF you check references and examine evidence this time, this info will enable applying all of the lessons of science, history, cultural and social psychology to prevent and solve problems. Our governments act illegally against children, women, men, ecology, and science throughout history and today. Humans continue to destroy Earth's environment, and wipe out our slim chance of survival. Help make human survival the first order of business for corporations, educators, and governments. Help stop media, educators, governments, HHS, and AARP Civil Rights violations in health and safety.

Earth's oil is gone by 2100. Weather cycles

► The most difficult problem is applying all of the forefront of science and knowledge to the entire system and addressing the actual basic causes of each problem. Leaders make decisions often ignoring cost benefit analysis, business and weather cycles, systems research, cause effect relationships, and fail to note that data is often badly flawed, filled with fallacies and false assumptions. They even fail to plan ahead

alone require reducing population below 2 billion. ► How many people can Earth support with no oil for agriculture, food transport, and food processing, with weather cycles reducing crop production drastically? Perhaps 500 million if we do everything right. This is the most urgent emergency of the eight major disasters facing humanity. Plan ahead??? Or starve billions very soon. ► Anti abortion anti birth control killed half of the 18 million starved since 1893, and will kill billions in the future. ► Anti abortion is genocide. ► Women die in pregnancy and childbirth, 1 in 6 to 1 in 2700. ► Anti abortion is manslaughter. Abortion is ten times safer than pregnancy and birth.

for infrastructure maintenance, replacement, disasters, and business cycles. Our failures to promote intellectual sports, critical thinking, and teach the actual forefront of science, knowledge, how geniuses keep proving quite wrong what "We absolutely know is so", and what happens when they do prove establishments wrong is the major factor in all of humanities' many problems. If all in politics

including staffs and advisors could go through a workshop on what our geniuses have learned, we could correct the actual basic causes of all problems, help children and adults solve and prevent health, stress, and life problems, and govern more effectively. Democrats seem unaware of major errors Republicans have made and are making that are far worse than the Democrats' many errors. Let's use all of science to meet the needs of people, long term survival, ecological systems, and use a scientific systems approach to solve and prevent problems, aid citizens, society, and win elections. Habits of

Management and staffs lack the education to note that our MD system is unscientifically based on a special case viewpoint of reality, the very false assumption that reality is mechanistic. They ignore that our reality is a MultiDimensional Holographic SubSystem of our MultiDimensional Holographic Universe. People can only be described scientifically as a MultiDimensional Holographic Mind Body Energy Field Spirit Subsystem. Systems research proved that if you work with part of a system, you will get unforeseeable results. As you examine evidence and check references, you will find that humanities' inherent basic false assumptions in many fields have been made far worse by greed, arrogance, and illiteracy in science, history,

discounting Geniuses research are damaging. We still fail to learn the many lessons of history. We even ignore sociology research on cultural psychology on the effects of language, religion, education, culture, and subcultures on peoples attitudes, emotions, world view, and actions. You will need all of geniuses info on our Web-CD to evaluate the feasibility of correcting all of the basic causes of humanities' many problems with a complete systems approach. We can't afford cultural blind spots in so many important fields.

sociology, cause and effect relationships, and even a basic understanding of what has worked or hasn't worked in dealing with problems throughout the world in all times and places. We ignore the Lessons of History and cycles in business and weather. We act as if the major GIGO 's in all human data bases can't possibly exist. Innovators have been suppressed or killed throughout history, today as in the past. "Not Invented Here" still takes precedence over well proven scientific research. Sociology Cultural Psychologists studied cultural blind spots and humans inherent habit of psychologically discounting any new to them info that conflicts with their mind set. They call this the Vested Interest Syndrome. This results in establishments and all but 4.6% of people faced

with new info that requires changing habits of thinking taking the new conflicting info and discarding it, ignoring it, distorting it, hiding it, and even creating false info to buttress their position. This is getting increasingly expensive

We seek your help in making leaders, cultures, and all political parties aware of what our geniuses have learned that obsoletes “What we absolutely know is so”, and why very important info and discoveries are discounted and ignored for many generations. Help cultures change proven false concepts and habits. Teach all leaders how cultures work or fail to work to meet the needs of people and ecologies, and why. Export ideas, Paradigm Shift info, educational and sociological error correction, and admit all of our errors. Admitting our errors and omissions, plus a very through teaching of our worlds errors and why eight disasters face humanity will be valuable in dealing with all world cultures and leaders in governments and business. Require that all UN staff, members, leaders at all levels, and corporation management take a complete educational program designed to teach them what happens when countries and firms take any action. Teach the lessons of business cycles, weather cycles, science, sociology, history, what worked and didn't work in other times and places and why. Teach the effects of greed, violence, war,

in terms of lives, suffering, money, plus cultural and ecological destruction each year. We need to address the massive discrimination against geniuses as a major Civil Rights Violation.

crime, and suppression of innovation on prosperity, families, ecology, cultures, and long range human survival. Teach the value of educating all geniuses, as 53%+ are women. Women tend to see the whole system better, and are more likely to note and address the actual causes of problems. Matriarchal cultures meet the needs of people far better than male dominated cultures. Add active listening, cultural body language, a through understanding of cultural ambiances, cultural psychology, social psychology, ethics, and the urgent need for very long term planning. Why not address and correct all of the actual basic causes of each of our many problems? We can do this far better with many leaders and cultures if we educate all on the eight major disasters facing humanity. We have already destroyed the possibility of comfortable long range survival for humanity and the ecological systems on which all life depends. CO₂ increasing in oceans and lakes will destroy phytoplankton, the food chain base for fish. No fish by 2400. Our State Department needs this info. They ignored what we sent them. Complete honesty in dealing with citizens

and world leaders will have a favorable impact, aiding in applying geniuses discoveries and solutions to all cultures. Physics and Paradigm Shifts apply to all fields.

►► We need to use all straw bale construction and triple glazed vinyl or wood windows to

It is very important to use the actual teachings of Mohammad in dealing with right wing Islam and all Islamic influenced cultures. We even fail to use the actual teachings of Christ in dealing with right wing Christians. Teach that physics has proved that our universe is a MultiDimensional Holographic SubSystem that flickers in and out of existence. All matter is being recreated 438,69783 times each nanosecond. Our failure to deal with the actual design of cultures and the cultural psychology of leaders and people is proving increasingly expensive in the near East, Europe, Asia, and here. When we act as if the situations we deal

Let's start with a workshop for political parties, staffs, and key people on the forefront of science and knowledge, and why it's ignored. This would cover 35 cultural errors, omissions, and fantasies, how and why we ignore our geniuses for generations, how even our best universities could fail to notice many studies of Natural Healing System Vegetarian Nutrition Prevention saving 56% to 68% on health costs

reduce fuel use. They aren't making any more oil. Let's reduce operating costs for all buildings lifetimes. Fire proof construction is feasible. Ergonomic designs and maintenance free designs cost less in the long run.

with are far different then they actually are, we add even more problems, troubles, crimes, waste, and confusion. Our State Department proposal was ignored. Government and business need full info on the effects of language, religion, culture, education, and history on the world view of all people. Training in Active Listening, training to increase intuitive awareness of best action, errors, and danger, stress elimination, understanding the eight disasters facing humanity, the lessons of history and herstory, and the long term and predictable effects of weather and ecology cycles will help.

and reducing illness 76% to 83%, how to eliminate the internalization of stress permanently with NeuroLinguistic Programming Imagery, and even fail to teach creativity enhancement that increases the rate of invention to scientists and engineers. We ignore that today's physics indicates that we can develop new power sources from the underlying structure of this MultiDimensional Holographic

Universe. I estimate 60 years and \$1.5 trillion. Teach the actual cost to people and business of USA spending borrowed money, and the damage done by having our people competing with cultures and firms that don't require safe working conditions, environmental protections, or even living wages. The enclosed government proposals, education and military critique, and other data on our Web-CD will give you the

Read our agriculture proposal. The agriculture Radionics Devices were proven valid for pest elimination by USN research in 1984. Appropriate Technology Transfer For Rural Areas, and 16,000 farmers find them effective. Get the ATTRA info. Obtain Radionic units. Researchers proved that they will eliminate any pest, virus, bacteria, fungus, and mold in the target area, using a difference frequency for each item. They are ignored because they are only explainable in terms of MultiDimensional Physics, and the operator sits in meditation to use the devices. The user is part of the circuit. They are still made by seven firms. Two were closed by FDA for daring to state that they eliminated viruses and bacteria. They acted against our needs for these devices to counter biowarfare. ►► We are seeking funds to

Assume humanities' geniuses are correct. They almost always are, yet when their info

info corporations and governments need to correct all of the actual basic causes of all problems, rather than only working on symptoms, info that politicians need to correct the causes of problems, and to aid people and ecologies. Call me about evidence sources and the most important references.

develop Radionic systems that will eliminate viruses, bacteria, and pests throughout the world from one location. Let's solve our disease, epidemic, biowarfare, and pest problems. Physics Research Indicates This May Be Feasible. ► The Tower makes plants and animals healthier and calmer within a 2,500 acre radius. There are 638+ books by scientists, 85+ by physicists, explaining the sciences involved. We seek funds to improve devices. They will save 12% to 15% on farm budgets, and eliminate toxins from people and environment. Physics indicates it may be feasible to develop devices that eliminate toxic wastes, neutralize nuclear radiation, control weather, damp fires at a distance, and help heal our injured Earth. Everything is an integrated Hologram.

conflicts with establishment beliefs, they are ignored for generations and often killed. Study

the history of the suppression of innovation in all cultures, today as in the past. Study and test the Pyradyne.com devices. Their web page has some info. Pyradyne has products that make work and living areas feel better, making people more effective and aiding health. The Laser OmniOrb has 163 times the energy flow of a pyramid when the violet laser beam encounters the quartz crystal in the kings chamber. Pyramids speed plant growth and healing about three times. These will help in security, safety, healing, stress removal, research projects, and in understanding physics. Demos will increase

The State Department, FBI, C/IA, DOD, politicians, and media failed to check out the info we gave them and eight FBI agents and managers. None were able to consider training that would increase agents effectiveness and safety, or the implications of the AMA being proved guilty of antitrust, restraint of trade, and conspiracy in 1987. There are 212 books on the 1838 to present ongoing war against Alternative Medicine. There are 25 studies proving Holistic Health valid, with 87% to 92% savings on health care costs, 42 studies of the Applied Physics of Energy Medicine. We can cover

Home and work place design can be required to use all of the state of the art. Optimum building codes are developed. We

enrollment is science. These will be helpful in healing all victims of injuries and illness. They show clearly that this MultiDimensional Holographic reality has aspects we need to research far more effectively. If you order Pyradyne's products at their quoted price through the Serendipity Association they will get a donation. Have all of your key people and board experience sitting in the tremendous energy flow under the Laser OmniOrb. Hours spent in this energy field will improve health, creativity, and aid in stress removal.

everyone in a single payer system for 60% less than we pay for an unscientific illness care system. We ignore 37+ studies of Natural Healing System Vegetarian Diet Prevention saving 56% to 69% on costs with 76% to 83% less illness. Stamina increases. None of our best medical schools have experts on Natural Healing System Vegetarian Diet Preventive Health Care, and no experts on Vegetarian and Herbal Diet healing. All ignore training that will reduce errors and accidents 98% to 99.8%. They are still acting against the use of science in health.

already have the info to require low maintenance home and building design with improvements using Psychotronic devices,

modular, ergonomic, and maintenance free designs, straw bale construction, fireproof exteriors with steel shutters closing automatically in fire and storms, lowest possible energy use, and optimization of all structures using all of the information our geniuses have developed. This info can be gathered from associations, architectural schools, and current literature on the State of the Art. Studies show

“Government To Win, Do Whistle Blowing” is a Democrat party proposal that gives a summary of key issues. You will need to use all of the info in 150+ documents on our Web-CD for a detailed outline of our geniuses research in many fields that will benefit the USA and humanity. IF we use their research and information integrated as a very complete system, we can create a peaceful survivable world.

Complete Holistic Health Systems have a proven ability to heal all problems on most people so thoroughly that a well designed Center can work free if not successful on injuries, illness, birth defects, and stress. Energy Healing is Applied Physics and is Spiritual Healing. We and our world are an Energy Hologram. There are 638 books by scientists, 85 by physicists, that explain the phenomena involved. BioNutrition, raw juices, Herbs, and cleansing eliminate many “Medically Incurable” health

that a National Building Code will save much money on construction of all buildings for homes, offices, factories, and stores. New buildings will be here for many years, with fossil fuels disappearing and their costs increasing for their lifetime. Why not use all of the state of the art and stop wasting our dwindling fuel supplies?

problems. Holistic Health heals all problems but media, political, and educator’s stupidity. Cultural lag is increasingly expensive each year. Oil is gone by 2100, with production decreasing from 2023. Recoverable oil reserves were tremendously overestimated. Population needs to be reduced 90% world wide rapidly, or we starve billions. Overpopulation is a major factor in war, violence, ecological destruction, and the starvation of 18 million since 1894, 100-200 million more by 2100. Republicans and religions keeping us out of population control were directly responsible for starving eight million people. Bush getting us out of population control is genocide of millions soon. Weather cycle studies and studies of population impacts on environment, water, and food resources prove that six billion will starve 2100-2400. We use oil for agriculture, food storage, processing, and distribution. Over half of Earth’s people lack potable water. Only 16,000

years ago three continents had 400 years of drought. When will this happen again? Many civilizations disappeared when hit by droughts.

When can we begin to help people, improve security, eliminate farm pesticides, reduce accidents, and help children, women, men, and cultures by addressing these many urgent issues, using and applying our geniuses' info that will solve and prevent problems, benefit children, women, men, aid agriculture and ecological systems, and reduce costs? The "Good Old Boys Network" acts against humanity. Let's start with a workshop for Carter Center and Emory U on the forefront of science, human knowledge, the effects of ignoring that what we absolutely know is so

keeps getting proven false, yet takes generations to be corrected, and the Vested Interest Syndrome effects. Humanity has developed the information that enables creating a peaceful survivable world, yet we fail to apply it. We still work on symptoms, ignoring the actual basic causes of problems and geniuses solutions. See grant and product R & D proposals and all articles on Web-CD. You will need all of this info to evaluate our business and government proposals and grants.

► I ask your help to develop an optimum board of directors, advisory board, and optimization of a feasible human survival, world health, world peace program and the reeducation projects needed to accomplish this goal. Design of optimum projects will use many geniuses in sociology, social and cultural psychology, science, history, and other fields. A "How To Make The World Work " project based on all our race has learned can accomplish creating a peaceful survivable world on a budget of \$3 trillion in 160 years. A solid foundation for a peaceful world can be established within 80 years for \$2 Trillion.

Will you two consider our advisory board or board? Your insights will be helpful.
