►Proposal: World Peace Education Health Agriculture Security Safety Human Survival

Dear President Carter, Rosalyn Carter, and Carter Center Board,

Geniuses identified 35 cultural errors, omissions, and fantasies in our culture. Examining the evidence on these for a lifetime led me to start the Serendipity Association. Dad was County Agriculture Director in Michigan, and the first District Horticulture Director of ten counties in the USA. I spent much time on my grandma’s 400 acre fruit farm, started out studying agriculture in college, then science, physics, electronics, with wide ranging study in history, sociology, and cultural psychology. I studied most sciences in dealing with scientists and engineers around the USA. I saw firms make serious errors that could have been avoided if they used a systems approach using more or all of our geniuses’ info. Geniuses are usually right, and often ignored for many generations when their info conflicts with the establishment’s mind set. Discrimination against geniuses is very damaging to cultures, is sometimes deadly, and should be considered major Civil Rights violations.

►In 35 years of talking at, seldom with, politicians and their staff, Senators and Reps send form letters without reading our info and proposals. Democrats have lost many elections that were winnable if they had used all of geniuses info to address actual causes and solutions with science, and blown the whistle on

all errors, instead of making more errors.. Politicians and their staffs have proven completely unable to consider even obvious information on the 35 major cultural errors, omissions, and fantasies geniuses have identified. Is it true that the only info that is considered is that including a massive donation?

Vested Interests keep increasing the damage to our future. Examine why Dems ignored the many voices reporting the Union of Concerned Scientists Web page 2004 two reports, 49 pages 3/04 and 33 pages 7/04, on Bush ordering

eleven government agencies to falsify reports. They did. Only two people quit. Falsified by HHS, EPA Labor, Interior, State, DoD, etc.

► Whistle Blowing! What If Our Geniuses Are Right?

An honest Evaluation of these summaries of geniuses research requires reading our key documents.

► "A Basic Cultural Urgent Problems, GIGO Data Bases", Education, Libraries, Media NYT, Media Ethics, Scientific Method, Fix, Agriculture, Govt, Safety, Security, ACLU, Health Enhancement References, Peace, etc. Our Web-CD www.sensibilitydesign.com Geniuses info.

IF you check references and examine evidence this time, this info will enable applying all of the lessons of science, history, cultural and social psychology to prevent and solve problems. Our governments act illegally against children, women, men, ecology, and science today as throughout history. Humans continue to destroy Earth's environment, wiping out our

slim chance of survival. Help make human survival the first order of business for corporations, educators, and governments.

► Help stop government, media, educators, and AARP Civil Rights and Human Rights violations in health, agriculture, military, safety, drivers training, education, + other areas.

Earth's oil is gone by 2100. Weather cycles alone require reducing population below 2 billion. ► How many people can Earth support with no oil for agriculture, food transport, and food processing, with weather cycles reducing crop production drastically? We use power to move water, with 55% lacking potable water now. Many cultures failures were caused by Droughts. Earth can support only 500 million IF we do everything right. Note 100-200

million will starve by 2100. Overpopulation- Most urgent emergency of the eight major disasters facing humanity. Plan ahead??? Or starve six billion+ 2100 to 2400. Anti abortion anti birth control killed half of the 18 million starved since 1880, and will kill billions in the future. Anti abortion is genocide. Women die in pregnancy and childbirth, 1 in 6 to 1 in 2700. Anti abortion is manslaughter. ► Abortion is ten times safer then pregnancy and birth.

►The most difficult problem is applying all of the forefront of science and knowledge to the entire system and addressing the actual basic causes of each problem. Leaders make decisions often ignoring cost benefit analysis, business and weather cycles, and fail to note that data is often badly flawed, filled with fallacies and false assumptions. They even fail to plan ahead for infra structure maintenance, replacement, disasters, and business cycles. Our failures to promote intellectual sports, critical thinking, and teach the actual forefront of science, knowledge, how geniuses keep proving quite wrong what “We absolutely know is so”, and what happens when they do prove establishments wrong is the major factor in all of humanities’ many problems. If all in politics including staffs and advisors could go through a workshop on what our geniuses have learned, we could correct the actual basic causes of all

Management and staffs lack the education to note that our MD system is unscientifically based on a special case viewpoint of reality, the very false assumption that reality is mechanistic. They ignore that reality is a MultiDimensional Holographic SubSystem of our MultiDimensional Holographic Universe. People can only be described scientifically as Holographic Mind

problems, help children and adults solve and prevent health, stress, and life problems, and win almost all elections. The party seems unaware of major errors Republicans have made and are making that are far worse than the Democrats’ many errors. Let’s use all of science to meet the needs of people, long term survival, ecological systems, and use a scientific systems approach to win elections. Habits of discounting geniuses research are damaging. We still fail to learn the lessons of history. We even ignore sociology and cultural psychology research. Examine research on the effects of language, religion, culture, and subcultures on peoples world view and actions. You will need all of the info on our Web-CD to evaluate the feasibility of correcting all of the basic causes of humanities’ many problems with a complete systems approach. We can’t afford cultural blind spots in so many important fields.

Body Energy Field Spirit SubSystems. Instrumentation shows Acupuncture Points, Meridian Lines, and Chakras. Systems research proved that if you work with part of a system, you will get unforeseeable results. As you examine evidence and check references, you will find that humanities’ inherent basic false assumptions in many fields have been made far worse by greed, arrogance, and illiteracy in

science, history, sociology, cause and effect relationships, and even a basic understanding of what has worked or hasn't worked in dealing with problems throughout the world in all times and places. We ignore the Lessons of History and cycles in business and weather. We act as if the major GIGO 's in all human data bases can't possibly exist. Innovators have been suppressed or killed throughout history, today as in the past. Not Invented Here still takes precedence over well proven scientific research. Cultural Psychologists studied the cultural blind spots and humans inherent habit of psychologically discounting any new to them info that conflicts

We seek your help in making leaders and all political parties aware of what our geniuses have learned that obsoletes "What we absolutely know is so", and why very important info and discoveries are discounted and ignored for many generations. Help cultures change proven false concepts and habits. Teach all leaders how cultures work or fail to work to meet the needs of people and ecologies, and why. Export ideas, Paradigm Shift info, educational and sociological error correction, and admit all of our errors. Admitting our errors and omissions, plus a very thorough teaching of our worlds errors and why five disasters face humanity will be valuable in dealing with all world cultures

with their mind set. They call this the Vested Interest Syndrome. This results in establishments and all but 4.6% of people faced with new info that requires changing habits of thinking taking the new conflicting info and discarding it, ignoring it, distorting it, hiding it, and even creating false info to buttress their position. This is getting increasingly expensive in terms of lives, suffering, money, plus cultural and ecological destruction each year. We need to address the massive discrimination against geniuses as major Civil Rights Violations.

and leaders in governments and business. Require that all UN staff, members, leaders at all levels, and corporation management take a complete educational program designed to teach them what happens when countries and firms take any action. Teach the lessons of business cycles, weather cycles, sociology, history, what worked and didn't work in other times and places and why. Teach the effects of greed, violence, war, crime, and suppression of innovation on prosperity, families, ecology, cultures, and long range human survival. Teach the value of educating all geniuses, as 53%+ are women. Women tend to see the whole system better, and are more likely to note and address

the actual causes of problems. Matriarchal cultures meet the needs of people far better than male dominated cultures. Add active listening, cultural body language, a through understanding of cultural ambiances, cultural psychology, social psychology, ethics, and the urgent need for very long range planning. Why not address and correct all of the actual basic causes of each of our many problems? We can do this far better with many leaders and cultures if we educate all on the six major disasters facing humanity. We have already destroyed the possibility of

►► We need to use all straw bale construction and triple glazed vinyl or wood windows to reduce fuel use. "They" aren't making any more oil. Let's reduce operating costs for all buildings lifetimes. Fire proof construction is feasible. Ergonomic low energy use designs and

It is very important to use the actual teachings of Mohammad in dealing with right wing Islam and all Islamic influenced cultures. We even fail to use the actual teachings of Christ in dealing with right wing Christians. There are Cultural Psychology studies on all cultures. Teach physics proof that our universe is a MultiDimensional Holographic SubSystem that flickers in and out of existence. All matter is being recreated 438.7 times each nanosecond.

comfortable long range survival for humanity and the ecological systems on which all life depends. Our State Department needs this info. They ignored what we sent them. Complete honesty in dealing with citizens and world leaders will have a favorable impact, aiding in applying geniuses discoveries and solutions to all cultures, problems, and survival.

►► Physics and Paradigm Shifts apply to all fields of study, action, and Human Survival..

maintenance free designs cost far less in the long run. No fossil fuels very soon. CO₂ increasing in oceans will destroy phytoplankton by 2400, the food chain base for fish. No fish.

Our failure to deal with the Cultural Psychology of leaders, people, and the actual design of cultures is proving increasingly expensive in the near East, Europe, Asia, and Americas. When we act AS IF the situations we deal with are far different than they actually are, we add even more problems, troubles, crimes, waste, and confusion. Our State Department proposal was ignored. Government, business, and educators need full info on the effects of language,

religion, culture, education, and history on the World Views of all peoples. Training in Active Listening, increasing intuitive awareness of best action, errors, and danger, stress elimination, understanding seven disasters facing humanity,

Let's start with workshops for political parties, staffs, and key people on the forefront of science and knowledge, and why it's ignored. This would cover 35 cultural errors, omissions, and fantasies, how and why we ignore our geniuses for generations, how even our best universities could fail to notice many studies of Natural Healing System Vegetarian Nutrition Prevention saving 56% to 68% on health costs and reducing illness 76% to 83%, how to eliminate the internalization of stress permanently with NeuroLinguistic Programming Imagery tools, and even fail to teach creativity enhancement that increases the rate of invention to scientists and engineers. We ignore that today's physics indicates that we can develop new power sources from the underlying structure of this MultiDimensional Holographic

Universe. Estimates are within 60 years and \$1.5 trillion for an Oak Ridge type project. Teach the actual cost to people and business of spending money we don't have, and the damage done by having our people competing with cultures and firms that don't require living wages, safe working conditions, or environmental protections. The government proposals, education and military critique, and other data in Web-CD's 150+ articles will give you the info parties need to win most elections and governments need to correct all of the actual basic causes of all problems, rather than only working on symptoms, or aiding Vested Interest that steal from all citizens in many ways. Call me about evidence sources and the most important references.

ATTRA info. Obtain a Radionic unit. Researchers proved that they will eliminate any pest, virus, bacteria, fungus, or mold in the target area, using a difference frequency for each item. They save 12% to 15% of farm

budgets, improve soil fertility, eliminate the need to use fertilizer, reducing toxins in people and environment. They are ignored because they are only explainable in terms of Holographic Quantum Physics, and the operator sits in meditation to use the devices. The user is part of the circuit. They are still made by seven firms. Two were closed by FDA for daring to state that they eliminated viruses and bacteria. They acted against our need for these devices to counter biowarfare. ► We seek \$100 million to get all farmers using these, to improve Radionic

Assume humanities' geniuses are correct. They almost always are, yet when their info conflicts with establishment beliefs, they are ignored for generations and often killed. Study the history of the suppression of innovation in all cultures, today as in the past. Study and test the www.Pyradyne.com devices. Their web page has some info. Pyradyne has products that make work and living areas feel better, making people more effective and aiding health. This info can be gathered from associations, architectural schools, and current literature on the state of the art. Studies show that a National Building Code will save much money on construction of all buildings for homes, offices, factories, and stores. Why not use all of the state of the art and stop wasting our dwindling fuel supplies?

geniuses research in many fields that will benefit the USA and humanity. ►IF we use all of Geniuses research and information integrated as a very complete system, we can create a peaceful survivable world.

Complete Holistic Health Systems have a proven ability to heal all problems on most people so thoroughly that a well designed Center can work free if not successful on injuries, illness, birth defects, and stress. Energy Healing is Applied physics is Spiritual Healing. We and our world are an Energy Hologram. There are 638 books by scientists, 85 by physicists, that explain the phenomena involved. When can Democrats begin to use humanities geniuses info to solve and prevent problems, which will enable them to win elections, improve security, eliminate farm pesticides, reduce accidents, and help children, women, men, communities, and cultures by addressing these many urgent issues, using and applying our geniuses’ info that will solve and prevent problems, benefit children, women, men, aid agriculture and ecological systems, and reduce costs??? The “Good Old Boys’

overestimated. Population needs to be reduced 90% world wide rapidly, or we starve billions. Overpopulation is a major factor in war, violence, ecological destruction, and the starvation of 18 million since 1894, six billion 2100-2500. Republicans and religions against population control were directly responsible for starving over seven million people. Bush getting us out of population control is genocide of millions soon. Earth can only handle 500 million with no oil for agriculture, food processing, storage, and distribution.

➤ Weather cycle studies and studies of population impacts on environment, water, and food resources prove that six billion will starve 2100 to 2400, 100-200 million by 2100. 55% of Earth’s people lack potable water. We use power to move water and irrigate crops.

Network” acts against humanity. Let’s start with a workshop for Carter Center and Emory U on the forefront of science, human knowledge, the effects of ignoring that what we “Absolutely Know Is So” science keeps proving false, yet we take many generations to correct, and the Vested Interest Syndrome effects. Humanity has developed the information that enables crating a peaceful survivable world, yet we fail to apply it. We still work on symptoms, ignoring the actual basic causes of problems and

geniuses solutions. See grant proposal and documents on Web-CD. You need all our info to evaluate each of our proposals and grants. Help eliminate damage done by Vested Interest money and pressures. ►I ask your help us to develop an optimum board of directors, advisory board, and optimization of a feasible human survival, world health, world peace program and the reeducation projects needed to accomplish this goal. Design of an optimum

project will use many geniuses in sociology, social and cultural psychology, history, science, weather cycles, agriculture, and other fields. A “How To Make The World Work“ project based on all our race has learned can accomplish creating a peaceful more survivable world on a budget of \$20 trillion in 160 years. A solid foundation for a peaceful world can be established within 50 to 70 years.

Will you two consider helping develop our advisory board or board? Perhaps being on one? Your insights will be helpful.
