► Radionic Devices Offer Proven Solutions to BioWarfare, Agriculture, Education, & Research.

Examine and apply Physics proof that Reality Is a MultiDimensional Holographic SubSystem.

► SCIENTIFIC METHOD--REDEFINED IN TERMS OF 21<sup>ST</sup> CENTURY SCIENCE

The basic four or five elements of the old scientific method are very simple, but we have failed to examine them carefully in terms of the forefront of today’s knowledge of science and humanity.

Inherent False Assumptions & Physics Research Make These Five Very Inadequate!.

1 State the problem. Examine all of the parameters, systems, and interrelationships involved.

2 Make observations. Examine all of the systems elements and interrelationships very carefully.

3 Format hypothesis. Make sure you are taking into account all elements of problem and system.

4 Do the experiment. Work with all of the elements involved in the system.

5 Draw a conclusion. Carefully examine all of the interrelated data.

► Scientific Method 2000 AD—New For A Holographic Universe SubSystem

Eleven+ Elements of a New Scientific Method are required by Physics proof that our universe is a MultiDimensional Holographic SubSystem, yet is missed in scientific education and practice today.

All we encounter is a Completely Integrated Holographic SubSystem of our Holographic Universe.

► Albert Einstein “Reality is merely an illusion, albeit a very persistent one.” Those who fail to learn history are doomed to repeat it. Those who fail to learn history correctly are simply doomed.

We keep making serious errors by ignoring and failing to use all humanity has learned to optimize the actual definition of the problem and to use all of the info needed to optimize solutions and discoveries. Add Four Design of Experiment tools in many cases to be completely scientific.

► Physics discarded the mechanistic world view by 1907. Physics proved that we and all we deal with are Completely Integrated Elements of a MultiDimensional Holographic Universe.

► Science requires a Holographic Systems approach to research and to all

activities. Electronics developed tunnel diodes in 1948, devices impossible in a mechanistic world. We are Holographic Mind Body Energy Field Spirit Integrated SubSystems of a MultiDimensional Holographic Universe.

► This proves the mechanistic MD illness care system is very unscientific. Everything is an Integrated part of this Holographic Universe SubSystem. We and electronics are Integrated Holographic SubSystems. Instrumentation shows Acupuncture Points and Meridian Lines.

#### Science Education Tools to Increase Science & Engineering Students & Grads

► When youth are shown clearly what Geniuses learned that repeatedly has required discarding major world views, today as in the past, their intellectual curiosity will lead many more into the study of science and engineering, and into using tools that will increase discoveries and the rate of invention. ► Challenge intellectual curiosity in all fields.

► Demonstrations of Radionic Devices, Psychotronic Towers, Medallions that eliminate

Jet Lag, and ► Pyradyne Inc’s Laser OmniOrb with 163 times the energy of a standard pyramid will fill far more science and engineering classes. Standard Pyramid Energies speed plant growth and healing three times, and sharpen razors kept in the Kings Chamber space. Wearing cloudy quartz crystals over the heart clears away the cloudiness in four to nine years. Illiteracy in Science, History, and Sociology of University Management keeps them from even

considering the possibility that we are dealing with a Holographic SubSystem. They “Know” that everything is mechanistic, and lack info on the Vested Interest Syndrome studied by Social Science, Sociologists, and Historians. There are

Understand and use all of the sociology research on Cultural Psychology proving that only 4.6% of humans can even consider new info that conflicts with their mind set, their world view. They call it the Vested Interest Syndrome. This inherent habit is costing us trillions of dollars, affects scientific research in all fields adversely, is a factor in our failure to prevent the 9-11 attack, and is heavily involved with all of our problems, errors, omissions, fantasies, mistreatment of children, rape, wars, crime, violence, and starvation. ➤For almost all people, belief systems they developed as

➤Bring together all of the world’s knowledge that might possibility be helpful or applicable.

➤Ask who disagrees with establishment info on problems and solutions. Why do they disagree? Examine all of the evidence supporting their viewpoint very carefully. Don’t assume that any info on establishment’s major and minor errors

many books and articles on establishments suppressing innovation today as in the past, and on Sociology Cultural Psychology research.

children make it very hard for them to accept any new info that requires changing their basic world view. This results in establishments faced with new to them info discarding it, ignoring it, hiding it, distorting it, even creating false info to buttress their position. There is much history and sociology research on this inherent habit of humans of suppressing or eliminating whistle blowers, their insights, and their discoveries,. Innovation has proved dangerous to innovators throughout history. Learn to use an open mind. Carefully examine all data conflicting with establishment belief systems. It’s often right.

is wrong. It’s usually correct.

➤Our geniuses are almost always right, are often ignored for many generations, and very often discounted, suppressed, or killed.

➤We violate the Civil Rights and Human Rights of Geniuses by suppressing them and their info. We discount, put down, geniuses

when their info conflicts with peoples belief

systems. This damages everyone.

Define the problem in very accurate terms. Take into consideration all of the elements of the problem, all knowledge applicable to understanding the problem completely, and all system interrelationships. This aids in gaining more accurate problem definitions and in seeing possibilities that might be ignored without a very complete and accurate definition of the entire problem, it's sub system status, and all possible interrelationships and elements of the problem. How does Holographic Physics apply to each element and all of it's interrelationships as a system? Examine missed opportunities, damage, losses, and costs when proven data is ignored.

Systems research states that when we work with part of a system, we get unforeseeable results. Examine all elements of problems and projects, their interrelationships, their effects and history. Examine prevention and all potential solutions to determine if you are considering and working with the whole system and all of it's interrelated elements. Everything we deal with in any way is an Integrated SubSystem of our MultiDimensional Holographic Universe, itself a larger SubSystem. Physicists report that reality is not

only different then we think it is, it is far different then we can ever imagine it to be. “Everything is Mind Stuff”. This is well proven.

►A Nobel Prize Winning Physicist states

►Examine how the proven fact that all we deal with is part of a MultiDimensional Holographic Integrated SubSystem, is made of matter that is indeterminate, literally flickers in and out of existence 438.69738 times each nanosecond, affects R & D and all else we do. Consider the implications of we and everything we deal with being a Completely Interrelated and Integrated SubSystem of a MultiDimensional Holographic Universe SubSystem. Bodies are part of the

The Mind Set, the basic belief system of the researcher in any field affects the results of research projects, even when it seems impossible. Subconscious beliefs can change outcomes. We are an integrated part of all elements of reality. People described scientifically are MultiDimensional Mind Body Energy Field Spirit Holographic SubSystems.

►Instrumentation shows Acupuncture Points, Meridian Lines, and Seven Chakras. Kirilian photography takes pictures of the Life Energy Field we call Auras. 5% of kids, 1% of

mind, as is all else. Science keeps proving wrong what We Absolutely Know Is So, and often gets ignored for many generations when new info conflicts with belief systems. Mind Set takes precedence over well verified scientific research. Inherent “Not Invented Here” attitudes, greed, and the Good Old Boys networks obscure, hide, destroy, or falsify any conflicting with Mind Set research info.

adults can see Auras. 63% can learn to see Auras. Some see the auras of devices, and note mechanical failures, metal fatigue, and crop damage before disasters. Eight training methods will improve these abilities. “Everything Is Mind Stuff”. Bodies are part of the mind. Read “Mind As Healer, Mind As Slayer” Dr Ken Pelletier MD, and some of the 638 books by scientists, 85 by physicists, explaining the phenomena involved in eight basic classes of Energy Healing, with variations taught under 183+ names, 25 studies validating Holistic

Health Healing & Prevention Systems, Psychic Research, BioElectronics, BioMagnetics, BioPhysics, and all of the other quite intriguing elements of our very odd MultiDimensional Holographic Universe.

►►► Physics proved that all matter is indeterminate, recreated 438.69738 times each nanosecond. The influence of this Creator is a major factor in all research, it's use, and it's value. ► DoD and CIA spent \$195+ Million on psychic research thru 2001. Experts found the data valid. Duke U had five projects. DoD failed to use it, and didn't study the abilities of proven experts in each field. DoD brass Ignored Systems, Physics, Science, History, and Mind Set factors, canceling R&D. Good Design of Experiment research was ignored.

Our failure to understand and apply the many lessons of history and herstory results in ignoring Holistic Health's ability to cure all problems and save 87%-92% on costs, ignore 32 studies of safety and error reduction training finding 98% to 99.7% less accidents and errors

Decisions made on the basis of false info and fantasy are proven even more destructive to humanity and ecological systems each year. We

in the study groups over the control groups, solutions for regeneration and healing, and Radionic Devices ability to eliminate all insect pests, viruses, bacteria, fungus, and mold in the target area, using a different frequency for each item. Developed 1940-57, validated by USN research in 1984, yet still ignored as only physics explains them. We fail to correct 12 errors in Formal Education, 7 in Informal Ed. When these are corrected world wide, we will have World Peace. We fail to teach how to be permanently free of stress within ten hours, one day, by using NeuroLinguistic Programing Imagery tools, and how to increase the rate of invention and breakthrough discoveries. We work on symptoms and fail to address the actual basic causes of our problems. ► Reality doesn't care if we know how it's designed and how it works. ► We Act AS If our world and ourselves are far different then science has proven both to be. ► This meets the Scientific Definition of Clinical Insanity. ► Ignoring Reality is costly.

ignore weather cycle research. IF we are very lucky, Earth may support two billion in the near future just with weather cycle changes. With no

oil for agriculture after 2100, Earth can handle only 500 million max, the 1200 AD population, IF we rebuild Earth's ecological systems. History reports many civilizations disappeared or moved as crop weather and/or water failed.

► Plan ahead for 100,000 years for human survival. Expect an ice age-5900 AD, meteors, tremendous changes in weather, far more violent earthquakes, sea level rise, and worse. Or we can continue current destructive habits of behavior, repeat the errors of history, and continue to destroy ecological systems and farm land. This results in genocide of humanity. Laws are needed urgently to stop all building on farm land. No more is being created. Research on Matriarchal Cultures finds them far more effective in meeting the needs of children and adults, noticing the entire system, protecting

►► Today's science indicates that we have the foundation of scientific information needed to create power from the underlying structure of matter in sixty years, to develop a true space drive, create anti gravity devices, control weather, improve desalination, and, perhaps, reduce or prevent the tremendous damage expected from the eight major disasters

ecology, and planning ahead for future needs. IF we teach this widely and use all we know to create all governments and management with a very large preponderance of women, we will improve cultures, peoples lives, and human survival. Why destroy our only habitat??? We've no place to move to.

► We fail to use Cultural Psychology research on Islamic cultures, and don't use the actual teachings of Mohammad with right wing Islam or the actual teachings of Christ in dealing with right wing "Christians" to prevent and solve social and world problems."Christianity's" seven vicious Crusades against Islam are a major factor in current problems in Islamic cultures. Cultural-Social Psychology Studies exist for all cultures, yet State and DoD ignore them.

facing humanity.

►► We seek grants to publicize Radionic Devices and Psychotronic Towers, to improve Radionic Devices, and to develop devices to cover the entire planet from one location. They eliminate any pest, virus, bacteria, fungus, or mold in the target area using a different frequency for each item, covering very large

farms now. Radionic Devices R & D may solve targeting the entire world, or specific areas at any distance. May be solvable within six years and \$50 million. See Agriculture report-Web.

►►► Physics and other sciences have the info to solve regeneration problems now. We seek grants to bring together devices and people to optimize regeneration modalities and determine

Challenge! Help get all leaders and researchers in our world using all elements of a true, fully science based scientific method for the first time in history. When we consistently use all Seven Elements of the New Scientific Method in all research, education, long term planning, decision making, and actions, we will be able to create sane societies and increase humanities' chances for long term survival.

►► We are very far past the point of being able to achieve comfortable survival for humanity.

► We urgently need to require all leaders and staffs to be reeducated in all elements of the forefront of science, knowledge, sociology, cultural psychology, the lessons of history, long term planning, and the total cost of and effects of war and violence on babies, children,

best solutions. Research in Europe and Asia, plus devices that affect life energies, make this feasible. Regeneration can be solved within 5 years and \$60 million. ► Research in Physics and other sciences explains why these projects may all be feasible in Holographic SubSystems.

women, families, crops, and the viability of cultures. None can be allowed in any government unless they are free of all types of greed and can pass exams proving a full understanding of the forefront of science, human knowledge, history, systems and all of these many completely interrelated areas.

► Examine why simple cause and effects, cost benefit analysis, interrelationships, the many lessons of history, and long term planning are ignored. Our world system is far too complex to allow any uneducated decision makers.

► Science today proves we need urgent planning for long term human ecological survival. Earth's people and ecologies require this most urgently.

We seek funds to develop State of the Art ReEducation Programs for all cultures. We can use the impact on leaders of learning that complete Holistic Health Systems will heal all injuries, illness, birth defects, vision, hearing, and stress problems, and prevent most, to recognize humanities' many major very costly mistakes, and correct all 19 errors, omissions, and fantasies in education systems. This is feasible now, and far cheaper than any alternative. Consider why we ignore 32 studies of training that eliminates 98% to 99.7% of errors and accidents, increasing creativity. Why

►► Study what happens when people lack basic info in many fields: on Holographic Physics, on what geniuses have learned, systems, survival, sociology, history, cycles, agriculture, animal plant balance of nature, and how this applies to all we plan and do in all areas of human activity.

Help get everyone using all Seven Basic Elements of the New Scientific Method, and Four Design of Experiment Elements Often Needed to Be Scientific. Our continuing to keep and apply our present destructive habits is destroying ecologies and humanity. We use the

ignore studies of Aikido trained women proving that with two years of Aikido practice, a small woman can't be attacked successfully by five men???

► Let's teach all children and adults how to use NeuroLinguistic Programming Imagery to permanently eliminate stress from any cause within ten hours, increasing creativity.

Amateurs can use book info and work with each other to eliminate stress. Only some need the professionals. Ten ways to be stress free.

wealth of nations and planet for destruction of people, cultures, natural and irreplaceable resources, ecologies, and our future. It is proven destructive to raise people that lack a basic understanding of reality. We fail to identify and correct twelve errors, omissions, and fantasies in formal education, and seven in formal education. Engineers, scientists, and software people aren't taught the Seven Elements of the New Scientific Method required by Physics Implications of and Proof of a Holographic Universe, Creativity Enhancement and Error Reduction to increase the rate of invention,

scientific breakthroughs, and reduce costs. We ignore major research on the Cultural Psychology of each culture we work with, the subcultures in each, and how this applies to our culture. That is very valuable info needed to solve and prevent problems, improve outcomes, and reduce costs. The results in our world proving that this approach of ignoring research,

science, history, sociology, and knowledge meets the definition of Clinical Insanity for all of Humanity. If it doesn't work, do it more?

► We have already completely destroyed any possibility of long term comfortable human survival.

We fail to teach all of the forefront of science and Systems to educators, media, leaders, staffs, and citizens. ► Tremendous legal liabilities are created by deadly failures to use all we know. Science and Survival, anyone??? Plan Ahead??? ► Establishment reaction "Naw, Can't Do That".
