Competitiveness Proposal & Ethics. How to Use Science on Problems

Marketing & Prevention, Anyone?

New Health Oriented Food Store Proposal,

Why try to be invisible??? Opening a new store requires letting the market area know you exist. This is done by advertising and articles in local papers. The people that filled Jimbos and kept Sunshine busy still are not aware of your existence. Get info from Jimbos on his advertising pattern, on what he found profitable to do to build his business when he opened his store at this location. Meet and talk with Jimbo and Coop. You need to know what will work for you. Get articles in area papers. Ads need to mention that you are open in the X Jimbo’s Sunshine store. Do everything needed to build a successful business. Use the Small Business Association info. Books can be helpful. My 4000 include 24' of business books. Locate books on building this type of business. Customer attention getting promotions are mandatory. Mail an offer to all churches and associations in your marketing area.. Write imaginative articles and ads. Blanket the area.

You can improve profitability and cut benefits costs by using the well proven data on cultural errors, omissions, and fantasies. Call me about references. Check them carefully. Examine the evidence of 35 cultural errors, omissions, and fantasies and the Vested Interest Syndrome explaining why they happen. This led me to start a non profit association. Give all board members and all officers a complete report on findings. Why ignore that Prevention is far cheaper on any problem? Apply this to health, stress, and accidents. Our best educators, non profits, religions, corporations, and governments are ignoring 38+ studies showing that a Natural Healing System Diet based on natural foods, vegetarian, free of dairy, meat, fowl, hydrogenated oils, heated oils, white flour, white rice, junk foods, non foods, and allergens with very

little fish will drop illness costs 56% to 68%, eliminating 76% to 83% of all illness. Health Safety Natural Healing System Vegetarian Diet Prevention Training will aid employees and budgets. Food manufacturing and marketing industries act unethically in promoting & selling “foods” that are major causative factors in causing illness, increasing the rate of aging and wrinkling. The MD system is unscientific. Their war against Alternative Medicine since 1838 left them with a data base that is badly distorted, incomplete, and quite false in most areas. They suppressed research and experience on Natural Healing System Vegetarian Diet Nutrition for prevention and health. Ignoring prevention of any problem is not sane behavior.

We can show you how to heal all health problems of family, friends, board, & employees.

A complete well designed Holistic Health Training and Insurance Universal Coverage program will enable covering all men, women, children, and babies for 50% less then we are paying now for unscientific treatment of part of them. This will reduce or eliminate birth defects, as

Ask all customers for exceptional Natural Healing System Vegetarian Diet recipes. Ask for unusual recipes, like the oatmeal cookie recipe that doesn't need cooking. It is ready to eat after sitting 20 minutes. Create a promotional recipe book. Include info on sprouts, cleansing, toxic removal, parasite removal, liver cleansing, fasting, and an optimum book list. Ask the associations and

selection of herbs to increase stamina and decrease aging rate. Carry key herbs in bulk, mostly powdered. Take a teaspoon of Ginkgo, Eleutherio, cayenne, lecithin, yeast, and other helpful and needed herbs before supper. These diets decrease the rate of aging, even somewhat reversing aging by eliminating the basic causes of "Diseases of Aging" which are almost all caused by malnutrition, toxins, parasites, stress, and lack of exercise. Books on the Diseases of Civilization show that the "non foods" of civilization cause

Holistic Health has proven able to heal everything but political stupidity! Holistic Health is being examined by Medical Schools, and has been validated by 25 studies in 19 countries, showing that it is able to heal and prevent most mental/physical health problems and save 80% to 92% on Illness Care costs. We lack a health care system. There are over 896 studies of the many elements of Alternative Medicine that are slowly being brought together to create complete Holistic Health programs. People are a Multi Dimensional Mind Body Energy Field Spirit System that is all one piece, completely indivisible. When each healing element that a person needs is addressed fully, all problems and most people heal fully and

illness. Create an optimum book list by getting recommendations from the Naturopathic Association, Bastyr University, and the many other schools teaching natural healing system vegetarian diets. Find out if Paul Bragg's 17 books, Hannah Kroeger's, and Norman W. Walker's 9 books are as good or better than those that they recommend.

permanently. Imagery Neurolinguistic Programming systems permanently eliminate the internalization of stress in 3 to 10 hours in almost all cases. I healed a rape victim in seven hours. Six years of therapists failed to help her. I've seen energy healing heal spinal cords and birth defects. Physics applies to people. The 42 University studies of energy medicine since 1956 show that it heals almost all problems and eliminates all viruses and dangerous bacteria.

Relax and release all stress, fear, anger, and hurt before eating. They interfere with digestion and the assimilation of nutrients. The digestive system reacts to all emotions, very adversely to fear and anger.

A complete spiritually integrated Holistic Health Center can work with all problems and most people after a 2 to 5 hour evaluation on a no charge if not successful basis. The best Oriental physicians seldom fail on cancer or much else. Dr Liang ran Herbs and Acupuncture Research Inc. in San Diego for 26 years and missed only one case of cancer out of 689. One I met in the Orient missed two of 1,133. Advanced forms of energy medicine, which is applied physics, used persistently 6 to 10 hours each day heal any problem, even most birth defects. There are 8 basic modalities of energy healing, taught under 156+ names. I use and teach six of them. They work

►►A “We care for our customers” marketing blitz would gain a healthy increase in market share for any firm that lives up to it. Promote whole grains, sprouted breads, more wheat free breads, 100% rye and wheat free rye. Rye barley corn is very tasty. Tell people that white flour is missing 26 important nutrients, 19 from white rice. Dairy products cause mucus, cheese sometimes disturbs digestive systems and increases heart & illness problems in many people. Many can tolerate it in small quantities, a few can eat more. Cow’s milk interferes with early childhood development. The molecular structure

because matter is indeterminate. Instrumentation shows all Acupuncture Points, Meridian Lines, and Chakras. Physics proved that we and all else are recreated 1.2 million times per nanosecond, a Hologram. A Nobel prize winner in physics states that all matter is mind stuff. A group of spiritually integrated healers will get very rapid results. We brought together a group of 13 healers that healed 5 discs in 18 minutes. They sit in a circle and focused healing energies into the center of the circle. It felt like a 500 degree concentration of healing energies within the circle. All were healed rapidly that set in the circle’s healing center.

Teach all employees and customers vision correction, how to eliminate the internalization of stress, active listening, meditation, and Natural Healing System Vegetarian Diet Prevention. This will eliminate most colds and other illness and gain a more knowledgeable employee base for maximum effectiveness in customer contact and promotion. completely. Our Justice Department is required to act. Tell them. The AMA was proved guilty of conspiracy, restraint of trade, and antitrust in 1987. Attorneys who have studied the war against Alternative Medicine feel that all firms and governments have a very winnable lawsuit against our MD medical system. They report that the MD system proven conspiracy is legally RICO. The RICO Act enables the government to require the forfeit of all MD based property of any nature, all wealth, cash, stocks, and properties. Some feel that Congress can be jailed for taking part in a conspiracy that is killing 1,000+ people each day. They took money under the table for 82 years to suppress the use of the forefront of science and

human knowledge in health and education. They still take five types of payoffs. We can use the impact on citizens of learning that government lied to them about health to finally reform this government that illegally aided and abetted this Vested Interest proven conspiracy, restraint of trade, antitrust, theft by deception, criminal malfeasance, and manslaughter by the MD HHS Government Pharmaceutical Complex. Governments taking five kinds of payoffs to do the bidding of Vested Interests is far to costly in terms of money, lives, and greatly damages the chances of long term human survival for humanity.
